Telephone Service Keeps on being a BIG BARGAIN

The price you pay for telephone service is low-low in comparison to the costs of most other things you buylow in comparison to our costs of supplying service. For only a few pennies a day you are in speaking distance of friends and relatives at any hour-a real package of convenience and pleasure!

Always a bargain, telephone service is growing in value every day as the circle of friends and relatives you can call becomes larger, and service becomes faster and better.

Yes, telephone service is a big bargain. And it's growing bigger day by day.
