RETURNING FROM NEW BERN

PLENTY OF RAIN

The Supply community had plenty of rain and quite a severe electric storm Saturday morning and again Monday morning. As much as three inches of rain are said to have fallen. Other sections of the county got only light showers.

Unexpected Luck Catching Bear

Inquisitiveness Costs Freedom For Black Bear Which Had Been Raiding Corn Field

Rather unexpectedly to himself Landreth Phelps of the Juniper Creek community caught a big black bear in a trap Saturday morning. The bear had been damaging the Phelps cornfield and a trap was placed in the field about ten days ago.

Some days went by without the bear again invading the field. Not wishing to bother with inspecting the trap every day, Mr. Phelps covered it over with a large piece of tin to await a better day for catching bear. Two days later on Saturday he was near the trap and decided to look and see if it was still covered up.

Getting within a hundred feet the tin appeared to be just as he had left it at the trap and he was turning away when he saw a big black bear standing in the corn about ten feet from the trap had been placed.

Killing the bear before investigating, Mr. Phelps discovered that the bear had evidently lifted the tin to see what was underneath. Its right foot got caught in the trap and it jumped back, dragging out trap and anchor and letting the tin fall back where it had been.

The same morning Shirley Woodard went to look at a trap that he had set in his cornfield where bears had been doing much damage. He found a big bear in the trap and three good-sized bear cubs nearby. He killed the old bear and two of the cubs. The other escaped.
