## It Frequently Happens

that you who make individual loans are bothered in the collection of interest; that you often have difficulty in getting back the principal, and sometimes lose it altogether; If you collect your interest, you do not get it more than once or twice a year.

If you deposit your money in the Savings department of this bank, you are not thus annoyed or kept so long out of your interest, for we pay you 4 per cent interest every three months;—January 1st, April 1st, July 1st, October 1st, and better still you have the satisfaction of feeling that your money is at all times safe and that the bank is prepared to pay back the principal when needed.
