The Value of an Education.

The average educated man gets a salary of \$1,000 per year. He works forty years, making a tota of \$40,000 in a lifetime. The average day laborer gets \$1.50 per day, 300 days in a year, or \$450 in a year. In forty year, or \$22,000, equals the value of an education. To acquire this earning capacity requires 12 years at school of 180 days each, or 2,160 days. Divide \$22,000, the value an education, by 2,160, number of days required in getting it, we find that each day a school is worth a little more than \$10.00 to a pupil.

Butler Speaks.

Marion Butler says that Roose-velt will be the next presidential candidate and that the corporations fear him worse than they do Bryan. Will Mr. Butler be kind enough to tell why these same folks spent their money in two campaigns to elect Roosevelt if they so much fear him.—Catawba News.

HEALTH IS BETTER THAN MONEY.

Read the following:

I am not able to explain in words my opinion of Mrs. Joe Person's Remedy. I have been cured by it of indigestion and nervousness of twenty years' standing. No one can know what it is to be nervous ex-cept those who have suffered with it. I did not know what it was to get a good night's rest. I was so weak and excitable from nervousness. I have been cured of it by the Remedy, and life seems like a different thing. I wish everybody would take it that suffers from nerv-ous indigestion like I did. It would make Mrs. Person rich and do them more good than that, for health is better than money. I wouldn't be in the fix I was in before I took Mrs. Person's Remedy for a thousand dollars.
