

**MOORE COUNTY ROAD QUESTION.**

People Will Vote on Bond Issue May 28th.—Text of Bill Authorizing the Election.

On the 28th day of May the people of Moore county will vote a bond issue of \$200,000 for the improvements of the public roads of the county.

Some of the provisions of the act authorizing the bond issue if favored by the majority of the people are as follows:

First of all it provides for the issue of two hundred thousand dollars worth of bonds bearing interest at not more than five per cent. It provides further that not more than forty thousand dollars worth of these bonds shall be issued in any one year. It provides that the one hundred dollars worth of property and thirty cents on the poll, not more than twenty-five cents on the one hundred dollars valuation of property and seventy-five cents on the poll shall be levied to pay, first the interest on the bonds and second, provide a sinking fund for the payment of the principal of the bonds. The bill provides further that the taxes shall be spent in the township in which they are collected. It provides for three highway commissioners, who elect a superintendent of roads for the county and a supervisor for each township. Under direction of these officers the roads are to be surveyed and laid out where charges are decided, and the building of the road is to be done by contract labor. Under this system any man could take a contract to build a section or sections of road. This would distribute the money paid in road taxes directly back to the people.

**YADKIN WANTS RAILROAD.**

Heavy Vote—Being Polled in Favor of Township Bonds.

Yadkin county is determined to have a railroad. A proposition of subscribing for \$40,000 of stock to the Statesville Air Line Railroad Company was submitted to the people of Liberty township, and carried unanimously. The vote was unusually heavy and not a single vote cast against bonds and in South Liberty precinct there were only three votes against it.

Boonville and Deep Creek townships have already voted \$30,000 and \$20,000 respectively for the railroad, and Liberty coming along now with \$40,000, makes the full amount asked for by the company, and the Yadkin people are hoping that the road will be built without delay.

**School Gardens.**

"The backbone of a nation's prosperity is the man who makes something grow. In our country the science of Nature study is only in its infancy. The school garden that is once pooh-poohed as a foolish fad is now accepted by the United States Commissioner of Education and by the leading universities of the land as vital to our public-school system as manual training of any sort," writes Herbert D. Ward in the May Woman's Home Companion.

The first school garden in the United States was started sixteen years ago by Henry L. Clapp in the George Putnam Grammar school in Boston. Over eighty years ago Austria and Sweden began the movement. At present no rural school in Sweden is without one. Russia is far ahead of us. There are over twenty thousand in Austria and thirty thousand in France. The reason why school gardens are fostered by foreign governments is that wherever they exist there is a decrease of misery and poverty and an increase in the birth rate and in the appreciation of Nature."

**Warning to Cigarette Smokers.**

Lookout, you little boy, who is smoking cigarettes on the sly. What do you want to be when you grow up? A stalwart, healthy, vigorous broad shouldered man, or a little puny, no-account, weak-minded dude? If you want to be a man, strong like a man, with hair on your face, brains in your head and muscles on your limbs, you just let those cigarettes alone. If you want to be pitted by your folks, despised by the girls and held in contempt by your fellows, keep on smoking and end your days in an insane asylum.

**President not Entitled to All Praise.**

According to a speech made by Melville E. Stone, manager of the Associated Press, at a recent dinner given by the New York Staats-Zeitung, President Roosevelt is not entitled to all the praise for bringing about the Treaty of Peace between Russia and Japan at Portsmouth in 1905. Mr. Stone says that when the peace negotiations were about to fail as it seemed, Emperor William of Germany took a hand in the matter and appealed direct to the Czar. Mr. Stone says that "this means no detraction from the great merits of President Roosevelt, who has indeed himself openly and expressly borne witness to the co-operation of the Emperor."

**Salem Music Festival.**

The Alumnae Memorial Hall, of Salem Academy and College, will be opened May 18 with a Music Festival, lasting until May 20. An elaborate program, presenting the masterpieces, both vocal and instrumental, of the world's greatest composers, has been prepared. A chorus of one hundred voices, assisted by an orchestra of twenty-eight instruments, are under the direction of Messrs. Shirley and Storer, of the Salem College.

**NEED VINOL**

It strengthens and vitalizes

With old age comes feebleness and loss of power; the blood is thin and digestion weak.

Vinol repairs worn tissues and checks the natural decline. It tones up the digestive organs, aids assimilation, makes rich, red blood, and strengthens every organ in the body. In this natural manner Vinol replaces weakness with strength.

Vinol contains all the medicinal elements of cod liver oil in a concentrated form, taken from fresh cod's livers, the useless oil eliminated and tonic iron added.

**Western Union and the Bell Telephone.**

In a moment of recklessness the Western Union Telegraph Company raising the salaries of its underpaid employes and the papers talked about it and those receiving increased wages were glad. Then in a day or two the company announced that it had raised its rates and was making a profit on its raise of salaries. The profits of the Western Union for the year of 1905, the last report available, were over seven million of dollars—and yet when it concludes to raise salaries, like Rockefeller when he gives a small wad of to a church, up go the prices. The Western Union is the one giant monopoly which never reduced its scale of prices—it has always been on the hog, and the people are attempting to drive out of business the railroads of the country and allow a monopoly to exist that coins from the American people over seven million dollars a year. That is not a square deal—but no matter.

The Western Union when the trouble was on at San Francisco a year ago took money like a highway man might take it, sent messages by mail and demanded full telegraph tolls.

[The Western Union Telephone Company is doing exactly what the Bell Telephone Company does wherever it is in complete control—puts the prices to the highest notch. The Bell company is using any and all sorts of means to drive out of business all the independent telephone exchange in this part of the country for the sole purpose of securing a monopoly that will enable it to oppress the people, and those who aid and abet the Bell are aiding and abetting in this work.—The Land Mark.]

Roosevelt now has a scheme to have Congress appropriate money to run campaigns. Senator Simmons, commenting upon this, says: "President Roosevelt is about the shrewdest politician of these times. He sees the only way to escape from public condemnation because of the scandal of his election is by coming out and advocating the purity of the ballot, and so twisting the point as to divert people's attention entirely from his own case. This is identically the way he is accustomed to do, just as he did when the Harriman letter came out by a hasty step he saw that his own letters which he published subjected him to criticism. Then he discovered this wonderful \$5,000,000 conspiracy, which although absurd on its very face, he got before the country in such a way as to make it take a more prominent place in the public mind. And so now, if this story about his advocating the purity of elections be true, it is merely because, having seen that the country has forgotten about the \$5,000,000 conspiracy and is insisting on knowing more about the campaign funds he got from Harriman and the rest, he wishes to get up a great hue and cry and make himself the champion of pure elections"

**This is worth saving.**

The following simple home-made mixture is said to relieve any form of Rheumatism or backache, also cleanse and strengthen the Kidneys and Bladder, overcoming all urinary disorders. If taken before the stage of Bright's disease: Fluid Extract Dandelion, one half ounce, Compound Kargon, one ounce, Compound Sarsaparilla, three ounces, Mix by shaking well in a bottle and take in teaspoonful doses after meals and at bedtime.

**True No Doubt.**

There has been some speculation as to the recent changes in the office of the United States marshal for this district. The Greensboro Record intimates rather broadly that Mr. T. E. McRary lost his job as chief clerk because he was perniciously active in Republican factional politics. The Record says that McRary attended to his business and took no part in the Adams-Blackburn factional fight, and this it thinks is the reason for his retirement.—Statesville Landmark.
