THE COURIER TO BE ENLARGED AND TO COVER A WIDER FIELD.

The Courier has arranged to publish in each issue an article prepared for The Courier on some live political, educational or other matter of interest to the people of the State.

The first article was written by Mr. H. P. Grier, Statesville's new Mayor. Mr. Grier told of the methods of the Southern Bell Telephone Company, in its efforts to freeze out and crush the independent companies and farmers' lines; they at first made the price low and after clearing the field of opposition raised the price to an exorbitantly high rate. In this case of the Courier Mr. J. W. Bailey, one of the brightest and ablest young men in the State will write interestingly on independence in politics. Prof. Joyner has prepared an article on the need of local taxation for public education. He writes well and tells of the popularity and success of it in North Carolina; gives instances of some of its benefits and what it is and how to get it.

Prof. J. Allen Holt is preparing an article on "Independence in Politics as it is understood in North Carolina."

Governor Glenn will write more than one article which will be published within the next few weeks.

Hon. R. N. Page has promised to favor us with an article on a matter of public interest.

Hon. E. J. Justice will be another contributor.

There are a dozen more prominent North Carolinians who have been requested to prepare special articles for the Courier and have promised to do so.

While the Courier will continue to publish all the local news it can get, yet the paper is to occupy a broader and wider field. The size of the paper will be increased from an eight page to a ten and twelve page paper each week.

An effort will be made to put the paper in as many homes as possible especially in that great section of our State known as Central or Middle North Carolina, including a dozen or more of the most progressive counties in the State.

We have recently purchased the largest and best Twentieth Century Eclipse Newspaper Folder, and added new type. In the job department we have added another large press and many fonts of type.

In our job department we are equipped with the best up to date outfit.

The price of the Courier is \$1.00 a year in advance. See our list of premiums we are giving in an effort to increase our circulation.

The Courier has been under the present management for sixteen years. The paper has grown all the while and is increasing in circulation. We now have subscribers in many counties and in other States.

Send us your own subscription and that of your neighbor and oblige.

Yours very truly,
THE COURIER,
