LEDWELL ARRESTED

Has For Several Weeks Disturbed the Peace of Ulah--

A few weeks ago a serious breach of the peace occurred at Ulah at which time a negro, Mabe Ledwell, painfully wounded Shube Russell, a white man, slashing him with a knife. Warrants were placed in the hands of the Sheriff for the arrest of Ledwell, who for several days evaded the officer; later he submitted in a case before a magistrate who took jurisdiction and released the prisoner upon payment of a fine and costs.

Thursday evening the quarrel was renewed, and Russell was again badly wounded. Sheriff Hayworth was told of the occurrence at Ulah as he was returning from Why Not and assisted by J. T. Penn, whom he deputized to accompany him, the negro Ledwell was arrested. The preliminary hearing will be given before Justice of the Peace Ridge today.

A dispute about some land has caused the trouble.

CHRYSANTHEMUMS FOR EXHIBIT.

A Few Hints About Growing Them--Plant in June--To Develop Handsome Bloom.

The announcement that the School Betterment Association will give a chrysanthemum show this fall has suggested that the ladies would be interested in an article on how to grow the plants for entry. Below are some extracts from articles within by persons experienced in the cultivation of plants as prize winners.

Procure good, strong plants from reliable florists about the first of June. Put them in 3 or 4-inch pots at first, in good, rich soil, and plunge the pots in the ground, or, better still, dig a trench and set the pots in it, filling in around with coal-ashes. This keeps the worms out of the pots and keeps the roots nice and cool. Chrysanthemums require lots of water, and should never be allowed to become dry. Evening or early morning is the best time to water. Water and shower thoroughly, as one good watering is worth half a dozen if only half done. Re-pot the plants about twice, first in a 6-inch and last in an 8-inch pot. Make the soil a little richer each time the plants are repotted. The plant can also be mulched with manure, which answers the double purpose of keeping the roots cool and moist and also furnishes food for the plant. As soon as the buds form in the Fall it is better to add a little manure water when sprinkling, weak at first, but gradually adding more, increasing the watering until it can be used every day. For insects, such as black aphids, use tobacco dust. If large flowers are desired, pinch off all buds and allow only a few to bloom. If a big, single flower is desired, pinch off all the side branches, leaving only the crown to bud and bloom. After the frosty nights come in the Fall the pots are taken in the house and kept in a cool room, where the flowers will develop and remain nice for a long time. After blooming, the plants can be stored in the cellar and kept until next year.

The Chrysanthemums that are coming into flower require special attention. Keep the foliage clean, the plant well supported and give liquid manure about twice a week, at least.

There is no danger of Chrysanthemum plants mixing when planted near together. The seedlings from such plants may vary, but not the plant. The hardy dwarf Chrysanthemums are not unlike those grown in greenhouses. They will do well out-doors, and winter safely even at the North when given protection. If covered with a cloth frame when in bloom out-doors, especially in times of frost or storm, the flowers will be much finer and last longer.

LEXINGTON BONDS.

Bought By Winston-Salem Bank--Other Davidson Notes.

The Wachovia Loan & Trust Co., of Winston-Salem has taken \$34,000, of the \$40,000 recently voted by Lexington for town improvements.

Work on the Bard Lumber Company's plant at Thomasville is progressing nicely and the work will be completed within the next 90 days. It will have a capacity of between 800 and 1000 chairs each day.

Rev. J. T. Riddick, pastor of the Baptist church, at Lexington handed in his resignation at prayer meeting Wednesday night, and the same was reluctantly accepted. It will take effect the third Sunday in June. Mr. Riddick has not yet accepted the call to the Second church of Newport News, but it is probable that he will sometime during the week.

Friday morning at about 2 o'clock the alarm of fire was heard for the first time in a long time in Thomasville. One of Mr. D. H. Lambeth's tenant houses was burning but was too far gone to save. The house was valued at \$300 with \$150 insurance.

Mr. F. W. Terrill, of Morganton, has accepted a position in the drug store of Chas. R. Thomas at Thomville.

PHEASANTS IN NORTH CAROLINA.

Shipments of Eggs For Union, Buncombe, Rutherford and Mitchell Counties--Eggs To Be Set Under Hens And Every Effort to Be Made to Give the Little Pheasants a Start in Life.

Encouraged by the few trials which have been made to propagate English pheasants in North Carolina by private individuals in Randolph, Guilford and other Piedmont counties, the State Audubon Society has taken up the matter with a view to experimenting on a larger scale to see if this valuable game bird cannot be successfully introduced in other sections of North Carolina. A few were liberated in Oregon about fifteen years ago and these have multiplied and become so abundant that today they furnish an enormous amount of fine shooting in that state and in Washington.

The secretary of the Audubon Society said yesterday that he had just ordered shipments of eggs to be sent to Union, Buncombe, Rutherford, and Mitchell counties. These eggs will be set under hens.
