BITTER FACTIONAL FIGHT IN G. O. P. WHEN CONGRESS MEETS.

The Wall Street Panic Poretold in This Correspondence Many Months Ago-Result of Republican Legislation.

Special Carrier Correspondent. Wanington, D. foretoid in this correspondence some months ago, so it is to be hoped that no Democrat has suffered. The whole miserable business of water whole miserable business of water ed stocks and frenzied financiers has been brought about by Republican tegislation protecting the trusts and the lack of proper laws to protect the people. The boasted prospe ity in Wall Street was a thin veneer, covering the rotten conditions that have prevailed. Without the government deposits of nearly \$180,000,00%, the National Banks would have been fard plashed months ago, and still the peoples money is being poured into the same rat hole to try and stem the tide of distress. Mosey loaded for 70 per cent on Oct. 22nd, and the banks even at high figures were refusing accommodations to their customers. Many legitimate business houses are thus compelled to curtail their transactions and lines of depositors are refused their own money by banks and trust companies which had fallen into the hands of mere speculators. The Repubblican administration has been hands of mere speculators. The Republican administration has been boosting this retten condition of affairs for fear that a panic would hurt the party. Now the panic base come, the Secretary of the Treasury posts over to New York, and is in conference with the Wall Street backers and expresses himself as firm for the exposure and punish-ment of evil doers, while Mr. Cor-telyou is dickering with the fren-

the Democratic opportunity to ob-tain control of the government. But there is also a fly in the Democratic ointment that may prevent success. Unless the party can agree upon a candidate who will receive the cor-dial support of the discordant elethat have defeated it in the ments that have defeated it in the past, it will again be unsuccessful. The result of the presidential election depends upon the vote of three or four doubtful states, such as New York, New Jersey, Maryland, Rhode Island and Delaware, and it is essential that the ticket must be satisfactory to Democrats and Inde-pendent voters of those and perhaps Other states.

For unately, the Democrats are not divided on essentials. The Demourse y a unit on tariff reform and opposition to protecting the trust-Since Riggies, and is opposed to the horizontal to the horizontal to the horizontal to a product and the horizontal to a product and the document of the

party. With an available candidate, it certainly looks to be the opportunity of the Democrats to wipe out their misfortunes of the past twelve years and redeem the country from existing evils.
