

The Asheboro Courier

PRICE ONE DOLLAR A YEAR

Wm. C. HAMMER, Editor.

It is to be hoped that everybody will now attend to the planting and pruning of shade trees. This is the best time of year for such work and when properly done it adds much to the appearance of trees. Every effort should be made to improve the looks of yards and lawns.

The 84 page supplement of the News and Observer one day last week was like all that does a most creditable publication. The entire pages were devoted to illustrating the progress of North Carolina. Such publications are of much value to the State.

President Roosevelt will recommend to Congress the report of the tariff on paper and wood pulp and the wood that goes into the manufacture of paper. The press of the entire country have united in an appeal for this. Why take the tariff off of newspapers and not off of the many other necessities of life?

Every new building in Asheboro not only means more work for the laboring man, but it means a better market for farm products and increased value of farm lands throughout the county. Those who are interested in the growth and improvement of Asheboro, want not only the moral and financial support of the citizens, but of the entire county.

One C. F. King, who was known to some people in this section when he first started out twenty-five years ago as collector for a paper he was publishing in the interest of the Knights of Labor kept the money, and has for several years bled with a big anger in Boston and New York, passing as a millionaire's financial agent. He was closed up by the sheriff last week with executions for debt.

J. Wiley Shook, in many respects a remarkable man, died at the State hospital at Morganton a few days ago. Six feet high, with great broad shoulders and raven black hair and eyes, a strong and forceful writer, beginning life as a Methodist minister, afterwards a lawyer, but most of his life a revenue officer, died of a broken heart and insanity, caused by the loss of his office at the hands of President Roosevelt.

The Oakland Weekly Ledger, published at Oakland, Coles County, Ill., comes to us every week. The paper is edited by Mr. "Nixie" Yeagan, whose father left Franklinville many years ago and lived in Illinois until he died a year or two ago.

With corn selling at 90 cents in Asheboro and at 41 cents in Illinois, there is comfort for our Randolph farmers. This Illinois paper says that the Illinois corn growers are "right in it" this year; it says that the price is going to be "clear out of sight,"—the best price in a long time; many believe that they will get 50 cents, and are rather of the opinion that they may get a few cents above that figure.

The friends of Judge W. B. Council will deeply regret his continued illness. He is now suffering from the third attack of pneumonia. His physician says that he will not be able to attend any of his courts this winter. Judge Council was to have held the courts in this Judicial district beginning the second Monday in January. If his physician is correct there will be no courts in his district in January and February at least. So there will be no criminal terms in Stanley, Montgomery, and Davidson, and the January term of Iredell and February term of Rowan will not be held.

The Champion Fibre Company, at Canton, N. C., who is building a two million dollar plant, has laid off four hundred of its employees on account of the money stringency.

The Recent Elections.

While President Roosevelt has given out an apologetic interview, in which he whistles to keep up courage over the result of the recent elections, it is said that he is chafing over the result, the adverse criticism of himself and the fearful business conditions throughout the country. No wonder he is disappointed. Think of the fact Representative Burton, the Chairman of the Ways and Means Committee of the House, was induced by the President to abandon his seat in Congress to run for Mayor of Cleveland against Tom Johnson, after the President had declared that the issue in Ohio's largest city should be accepted as a National issue. The overwhelming defeat of Burton is disappointing to the President. Then again the majority of more than fifty thousand in New Jersey has dwindled to the narrow margin of less than eight thousand. The President is also chafing, no doubt, under disappointments in Massachusetts, where in the last three years Republican majorities have ranged from 22,000 to 75,000, while this year the Republicans have a majority of only 17,000, and this with the Democracy of that state split into three contending and antagonistic factions.

No doubt, the President views matters with alarm, for it is apparent that confidence in him is shaken badly and he knows it for once in his life.

Last year the President's representative, Mr. Root, went to New York to denounce Mr. Hearst. This year Mr. Hearst was working with might and main with the President's party to defeat Tammany Hall and the New York City Democracy, but the Democracy came out victorious over all the powers of fusion. No less authority than the Washington Post, a great independent newspaper published at the foot of the capital, says that in New York City many Republicans probably voted for Roosevelt owing to the opposition to Roosevelt.

In Maryland the entire Democratic ticket was elected. The ignorant negro will be disfranchised, and ex-Governor Smith will go to the United States Senate.

While the Republicans by a union with the anti-temperance sentiment have won a temporary victory in the election of a governor, it is a victory out of which there is no hope for the future.

In San Francisco a mayor running on an independent ticket was elected.

FACTORIES AT HIGH POINT.

All the factories now running are working hands only eight hours and are paying a correspondingly reduced price. Some of the factories have shut down. The hard times are hurting business in High Point as elsewhere.

GROWING CHILDREN.

Advice to Mothers of Asheboro. Perhaps the most important principle involved in the care of a child is proper nourishment.

How many delicate children do we meet on our streets with colorless cheeks and thin little legs and arms. It is very plain to be seen that rapid growth takes all their strength and their little bodies are not receiving sufficient nourishment to make them well, strong and robust.

We want to say to the parents of all such children in Asheboro that our delicious cod liver and iron preparation, Vinol, will build up delicate children, fill out hollow cheeks and make them strong, robust and rosy. Vinol makes new vitality, sound flesh and muscle tissue and pure, rich red blood, and children love it. This is because Vinol is a delicious tasting cod liver preparation without oil, made by a scientific, extractive and concentrating process from fresh cods' livers, thus combining with peptonate of iron all the medicinal, healing, body-building elements of cod liver oil, but no oil.

As a body builder and strength creator for old people, delicate children, weak, run-down persons, after sickness, and for chronic coughs, colds, bronchitis, and all throat and lung troubles, Vinol is unexcelled. Try Vinol on our offer to return money if it fails to give satisfaction. Standard Drug Co., Asheboro, N. C.

91 Years Old, but Young.

James Brady, of Pleasant Grove Township, is 91 years old. He does all the work on his farm, and this year raised more than 200 bushels of corn without hiring a day's labor. He attends Sunday School regularly, never misses church, or his church meetings, and attends all the corn shuckings in the neighborhood. He is truly enjoying his second youth.

Most people know that if they have been sick they need Scott's Emulsion to bring back health and strength.

But the strongest point about Scott's Emulsion is that you don't have to be sick to get results from it.

It keeps up the athlete's strength, puts fat on thin people, makes a fretful baby happy, brings color to a pale girl's cheeks, and prevents coughs, colds and consumption.

Food in concentrated form for sick and well, young and old, rich and poor.
