The Handy Heater

You often need some heat in early Fall, when you have not yet started the furnace.

In whatever part of the house you want it, you can get it best and quickest with a Perfection Smokeless Oil Heater.

The Perfection is the most reliable heater on the market, and you can move it wherever you please.

Start it in bedroom or bathroom, and you dress in comfort on the coldest morning. Take it to the dining-room, and early breakfast becomes a pleasant, cozy meal. A touch of a match at dusk, and all is snug for the evening.

The Perfection Smokeless Oil Heater is beautifully finished—an ornament anywhere. Drums of plain steel or enameled in blue, nickel, or chrome.

A special automatic device makes smoking impossible. Burner body cannot become wedged. All parts easily cleaned. Dampers top. Cool handle.

Dealers everywhere; or write for descriptive circular to any agency of the

Standard Oil Company
(Incorporated)

Superstition: In Dress-Making.

No people are more superstitious than dressmakers. If the scissors fall and stick in the floor it means a mourning order is coming in requiring great haste, for which madame must put aside her other work. If you stick a black pin in the garment or happen to tack it with green thread, it will be sent back for alteration "sure and certain." To upset a bowl of pins means a grievous disappointment of some kind, but if only half of them spill, then the worker may look out for a great surprise. A knot in the thread signifies you will receive a very handsome present, and accidentally to stitch two ends together form a circle points to a wedding within a year in the worker's family. But the greatest of all omens known to the craft and the surest of fulfillment is to take up two pins together and stick them in the work before discovering what you have done. Your own wedding is so certain and so near you should not lose a moment in getting your trousseau ready. In every sewing room a bride and her gown are always centers of greatest interest. If you happen, in working upon the snowy satin and lace of the bride's wardrobe, to run a needle into your flesh and shed the tiniest speck of blood—should it fall on the wedding dress—one thing is certain. The bride will die before she has known one year of wedded bliss. To work in a hair accidentally along with the thread means more work coming, and if the garment keeps slipping away out of your lap it means the job will give satisfaction. If in delivering the dress the messenger sets a piebald horse or walks under a ladder, it will be sent back to the shop.

NO MORE DISTRESS FROM THE STOMACH

No Dyspepsia, Gas, Heartburn or Indigestion five minutes later.

Every family here ought to keep some Diasepsin in the house, as any one of you may have an attack of Indigestion or Stomach trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a distressed, out-of-order stomach five minutes afterwards.

If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of Indigestion.

Ask your Pharmacist for a 50-cent case of Pape's Diasepsin, and take a little just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy felling in the stomach. Nausea, Debilitating Headaches, Dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diasepsin is a certain cure for out-of-order stomachs, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is at your drug store, waiting for you.

These large 50-cent cases of Pape's Diasepsin contain more than sufficient to cure any case of Dyspepsia, Indigestion or any other Stomach trouble.

The County Fair.

By Ruth Coltrane 14 years old in 7th Grade of Marlboro School.

The County Fair was held at Asheboro. It was held in the interest of the farmers of Randolph county.

One day that I attended it was educational day; this was the day that the school children from all over the county were there.

We arrived at Asheboro about ten o'clock. As soon as we got off the train we started for the Court House for Prof. Lassiter had already asked all the school children to meet at the Court House.

It was already crowded when we entered, nevertheless we found a place up in front.

When we left the court house, we got on wagons pulled by tractors, engines, and rode from here to the Fair grounds. Here Professor spoke on the subject of education, and why we should have one. These talks were beneficial to all who had the pleasure of hearing them.

We went into the building containing the beautiful embroidery, quilts, counterpanes. I had no idea that there were ladies in Randolph who could do such beautiful work; they surely do deserve credit for it. Next we saw the beautiful flowers, these were more beautiful than any I ever saw before.

We then went into the agricultural department, where we saw all kinds of agricultural products. I did not think that there was any land in Randolph, that could produce such products as I saw there.

It proved to us that the farmers had spent time and labor, in raising them.

We next went to the poultry department, here we saw the most beautiful chickens, turkeys, ducks, and geese. I enjoyed looking at these so much. We looked at the beautiful butter which had been made on some farm in Randolph; it was excellent.

We saw the calves, these were fine. They prove to us that the women of our county are good cooks, as the men are farmers.

We next looked at the cows, horses and pigs. The cows were fine looking, and showed that they had been raised by some experienced farmer, who knew how to treat them. The horses were excellent. They also proved that they had been properly raised, fed and cared for. The pigs were of the size I ever saw. They too showed that they had been raised properly.

Now as I think back over the agricultural department, the poultry, the cows, horses, and pigs, it does not look as if Randolph was behind the rest of the county in agriculture; for I am sure that no other county could make a better exhibit of the home farm products, than did the Randolph farmers. Neither do I think the women are behind the men just to look at the beautiful quilts, counterpanes, and embroidery work of all kinds, and to look at the cakes made by the Randolph ladies. I think Randolph is an up-to-date county.

Don't fail to attend the big auction sale of lots Monday and Tuesday of court. You will have an opportunity of buying lots cheaper than every before.

NO REASON FOR IT

You are Shown the way Out.

There can be no just reason why any reader of this will continue to suffer the tortures of an aching back, the annoyance of urinary disorders, the dangers of serious kidney ills when relief is so near at hand and the most positive proof given that these ills can be cured. The following is convincing proof.

M. O. Robbins, R. F. D. No. 1, Caraway, N. C., says:

"I can recommend Doan's Kidney Pills highly, as they are the only remedy that ever gave me relief from backache and kidney complaint. I was often in such bad shape that I could hardly move and in damp weather my trouble was always worse. I had a feeling of distress in my head and felt miserable in every way. A fellow workman told me to try Doan's Kidney Pills and I did so, being greatly pleased with the benefit that followed. I am now free from kidney trouble and I give Doan's Kidney Pills the credit for making this great change."

For sale by all dealers. Price 50 cents, Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Starvation, the Remedy: Flies.

The war of extermination now being waged against the house fly has not yet reached its acute stage because of the continued cool weather. But when warm weather comes the war will be on in good earnest. Meanwhile the women of Winnetka, Ill., come forward with a timely suggestion. It is not necessary that a house should be kept in a slovenly manner to furnish food for flies. If only a few trifling delays are indulged—a slight delay in removing the remains of a meal, a delay for a few minutes in cleaning up, the brief postponement of covering food whether broken or not—this is enough to feed the flies. So the remedy of Winnetka is starvation, which is to be accomplished by giving the fly not a moment's time in which to feed. A little extra care to guard against these trifling delays will work wonders in achieving the desired end.

Are Ever at War.

There are two things everlastingly at war, jay and pie. But Huxley's Arnica Salve will banish flies in any form. It soon subdues the itching, irritation, inflammation or swelling. It gives comfort, invites joy. Greatest healer of burns, boils, ulcers, cuts, bruises, eczema, scalds, pimples, skin eruptions. Only 25 cts at Standard Drug Co. and The Retail Store.

Laxity in Debt Paying

The Lenoir Topic says: "The laxity which is displayed by too many people in paying debts is appalling. Unless the practice is checked, it will force the adoption of a universal pay-as-you-go system. There are many folks, whose honesty you are not supposed to question, who by whatever they want on time and disregard any request for settlement. How much worse is it to steal than to deliberately make a debt and then make a solemnly no effort to pay?"

The Salisbury Post says: "Debt is a paying debt a branded appalling and appears to be growing worse. What is more distressing, the man who owes another, if for food which sustains his life, the clothing that covers his nakedness or the power which brings into the daily news gets purposely angry if one is told he is 'dumb.' For the amount he considers a small one. Just now this kind of expert ignorance to run without money or way there should signify it is a sin to be punished."

Miss Maie Ludley, daughter of Mr. J. Van Ludley, writes Wed. evening, 10/1/1914 to Mr. John G. Anderson, of Tampa Fla.

HOW TO CURE RHEUMATISM

It Is An Internal Disease And Requires An Internal Remedy.

The cause of rheumatism and kindred diseases is an excess of uric acid in the blood. To cure this terrible disease this acid must be expelled and the system so regulated that no more acid will be formed in excessive quantities. Rheumatism is an internal disease and requires an internal remedy. RUBHING with Oils and Liniments WILL NOT CURE, affords only temporary relief at best, causes you to delay the proper treatment, and allows the malady to get a further hold on you. Rubments may ease the pain, but they will do more cure Rheumatism than paint will change the color of rotten wood.

Science has at last discovered a perfect and complete cure, which is called Rheumoid. Tested in hundreds of cases, it has effected the most marvelous cures; we believe it will cure you. Rheumoid gets at the joints from the inside, sweeps the poisons out of the system, tones up the stomach, regulates the liver and kidneys and makes you well all over. Rheumoid strikes the root of the disease and removes its cause. This splendid remedy is sold by druggists and dealers generally at 50c. and 10c. a bottle. In Tablet form at 50c. and 10c. a package. Write to Rubhitt Chemical Co., Baltimore, Md. Booklet free. Tablets sent by mail.
