The tabulation of the corrected returns from virtually all the counties in California show that Roosevelt has a plurality of the popular vote over Wilson of 751. Owing to alleged errors and irregularities of Republican electors the final disposition of California's 13 electoral votes may be decided by the courts.

The full and complete election returns from every state in the union will be published next week. It is not a long time to tell for nearly all the states have gone to Wilson. Taft has carried only three, Idaho, Utah, and Vermont, giving him 12 electoral votes. Roosevelt carried six or seven states.
