**PAY BY CHECK**

The up-to-date merchant or manufacturer always pays his bills by check. Why not the farmer, too? The business man knows his check will come back to him and be a receipt for each transaction. If this plan proves to be the backbone of the business man, why should not the farmer and every other person be equally wise and pay his bills by check? A large number of persons have found that this system eliminates all chances of error and dispute with their neighbor but there are many others in our section that should adopt this plan and receive the benefit. We will be glad if you will call and let us explain our method of handling business.

**Grape Growing in the Sandhills.**

The Manufacturers' Record calls attention to the fact that the growth of the grape industry in the sand-hill area of North Carolina has reached a state of value that has attracted the attention of those interested in successful grape growing. Mr. R. C. Crook, formerly of Wilmington, has acquired control of the Bradley scuppernon vineyard at Southern Pines and is contemplating turning it into a nursery. Mr. Crook and his concern will undertake to furnish cuttings necessary to establish a large number of vineyards and will give expert advice to those interested in grape culture.

It is understood that a press plant will be established at either Southern Pines or Aberdeen thereby making a central market for the grape growers.

At Milwaukee, Wis., this week a commission of five alienists appointed to examine John Schrank, the man who shot Col. Roosevelt, reported to the court that Schrank is insane. This means that he cannot be tried for the attempted murder of Col. Roosevelt, but will be committed to the State Hospital for the Insane.

**The Dispatch Gives Logical Reasons for Good Roads.**

Davidson county undoubtedly wants good roads but one reason why she hesitates about getting them is her doubt as to who ought to build them—that is, whether it ought to be the township or the county. It is a fact that under the county system we would get our roads sooner but it is also a fact that if they are built by co. bonds Thomasville and Lexington townships will have to pay for them in large measure, for these two townships pay the most taxes. At first blush it seems unjust to spend Lexington want good roads? Undoubtedly so that the farmers can more easily get to town to do their trading here, and the only way to accomplish that end is to build the roads to the farmer's home. To build a complete system of roads in the township would help some, to be sure, but not enough to make the expense worth while. Furthermore, when you go to the bottom of it it is not altogether Lexington's money you are spending in the outlying townships, for if this is one rich it is because it has the outlying ones to draw upon; nobody can deny that it is the trade of the rest of the county that made Lexington and Thomasville; therefore it is no more than right that the two townships should help make the others.

What Davidson needs is several long roads driven from end to end of the county and from side to side; touching every township and making it easy to get from any one section of the county to any other section; and the roads can be built successfully only by the county. This is true for several reasons: one is that if the county takes the matter in hand one or two backward townships will not be able to retard all the rest; another is that if the work is done in large pieces it can be done for very much less per mile than it would cost if it divided up into numerous small contracts; again, the cost of maintenance will be less, for a good road invariably wears out faster at the ends than anywhere else, so that the more loose ends you have the more your roads will cost to keep up. The most important of all, however, is the fact that a road is not a good road unless it leads somewhere; a strip of road may be as smooth as a table, but if it is only two hundred yards long it is no earthly use to anybody, and by the same token, a road that traverses the entire county is vastly more valuable than one that only passes through one township. People don't build roads for the fun of the thing, but to get an easy route to market, so if their road stops five miles short of town their labor is wasted. If the township builds the roads they must stop with the township line, and depend upon next one to carry the work along, which it may do, or may not; but if the county builds them it will build them all the way through.

The county way is the best because it is the most business-like.—Lexington Dispatch.

**NATURE TELLS YOU**  
As Many An Asheville Reader Knows Too Well.

When the kidneys are weak, Nature tells you about it. The urine is nature's index. Infrequent or too frequent passage. Other disorders suggest kidney ills.

Doan's Kidney Pills are for disordered kidneys. People in this vicinity testify to their worth.

W. P. Holland, High Point St., Randleman, N. C., says: "The statement I gave for publication three years ago, recommending Doan's Kidney Pills was correct in every detail. This remedy never fails to help me when I use it. For weeks I suffered from a dull ache through the small of my back and I felt dull and languid. The kidney secretions were unnatural and showed that I needed a kidney medicine. Doan's Kidney Pills, which I obtained from the Randleman Drug Co., gave me relief in a short time and after taking them I enjoyed much better health. I am justified in recommending this remedy to other kidney sufferers, for I know it to be effective."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
