The Probation Law.
 Winston-Salem, by a recent amendment to the city charter, has now a probation law for dealing with youthful criminals. In short the amendment provides that the city court shall take under its care "wayward children under the age of six and eighteen, who habitually associate with vicious or immoral persons, or who are found to be growing up under circumstances which expose him or her to environments that tend to cause them to lead an immoral life, that parents or guardians who are responsible for such waywardness or delinquency, shall be fined or imprisoned at the discretion of the court."

Judge Hastings, with the assistance of two or three citizens, have volunteered to assume the duties of the office. The experiment is well worth watching.

SHORTHAND IN 30 DAYS

We absolutely guarantee to teach shorthand complete in only thirty days. You can learn in spare time in your own home, no matter where you live. No need to spend months as with old systems. Boyd's Syllabic System is easy to learn—easy to write—easy to read. Simple. Practical. Speedy. Sure. No ruled lines. No positions. No shading as in other systems. No long lists of word signs to confuse. Only nine characters to learn and you have the entire English language at your absolute command. The best system for stenographers and railroad men. Lawyers, ministers, teachers, physicians, literary folk and business men and women may now learn shorthand for their own use. Does not take continual daily practices as with other systems. Our graduates hold high grade positions everywhere. Send today for booklet, testimonials, etc.

Spring Preparation on Southern Farms.

In no section of the country does a well prepared seed bed give better returns than in the southern states. The best spring preparations of the soil is practically impossible unless it has been properly turned and deeply broken during the previous summer or fall. The necessity for deep plowing in the South is probably not realized by those who are not familiar with the heavy rainfall in this section, which frequently packs and runs the particles of soil together so as to exclude air and sunshine. The absence of freezing prevents any loosening up of particles, besides in many places there is an almost impervious hard-past of subsoil, either natural or brought about from a continuous custom of shallow plowing. In other sections this deepening and loosening of the soil is done partly at least by the forces of nature but can only be accomplished by the plow in the South. Such are the findings of the department of agriculture.

The best implement for deep breaking of the soil is the disc plow which turns, pulverizes and mixes at the same time. When properly adjusted the disc breaks the land deeply and thoroughly loosens it, mixing this soil and the subsoil to some extent but does not turn to the surface enough of the inert subsoil to injure succeeding crop. The next best method for deep breaking is moldboard plowing, set to turn furrows on edge and this is followed by a subsoil plow in the same furrow as deeply as desired.

If the cover crop is to follow, the fall breaking a thorough breaking of the seed-bed should be made before planting the seed. If no cover crop is sown the disc harrow or spring tooth harrow should be run over occasionally to crush clods and keep surface crusts broken for the admission of air and sunlight. The usual method is to flat break and where this is done it is best to throw into beds before planting. Planting may be done with small plows or just as effectively and much faster with a disc cultivator set at the proper angle. Should there be clods a roller may be used and this is followed with a section harrow.

Too much care cannot be given to the preparation of the seed-bed. It not only saves cultivation but makes plant food available and furnishes proper conditions for seed germination and rapid growth. The best farmers will tell you that thorough preparation is more than half the expense of making a good crop.

The spring preparation is never as good as the land was when broken in the fall or winter. With nearly all field crops a firm seed bed is preferable. Only the first few inches need be freshened and pulverized at planting time. When the cover crop is drawn under the plowing should be just deep enough to turn the crop under well and the usual harrowing and pulverizing to get a fine soil before seeding.

Where there has been no fall and winter breaking done, as is the rule in some sections, it is not advisable to break as deeply in the spring as in the fall; usually not more than two inches deeper than before, and then the clay subsoil should not be turned to the surface. The plow can be set to edge the furrow. It is found more necessary to get spring broken land more finely pulverized and thoroughly prepared before planting. It is better to delay planting several days rather than put the seed in a poorly prepared bed.

You Should Keep Always on Hand a Bottle of

I do not practice medicine, but have no hesitancy in recommending Gowans' Preparation. Several years experience with this remedy in my little family justifies me in the assertion that it is an invaluable remedy for croup, and that there can be no group with this preparation in use.

A CHILD DOESN'T LAUGH AND PLAY

If Child's Tongue is Coated or if it is Cross and Fervid, Give "California Syrup of Figs."

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full or cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs" and in a few hours all the sour waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative" and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy Mother. A little today saves a sick child tomorrow, but get the granular "Ask your druggist for a 50-cent bottle of "California Syrup of Figs" which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeiters sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig-syrup.

Daniels Wants a Greater Navy.

Secretary of the Navy Daniels advocated a greater navy Saturday night in responding to the toast, "North Carolina in the Cabinet," at a dinner of the North Carolina Society's views were expressed.

The secretary of the Navy, Secretary Daniels, advocated a greater navy Saturday night in responding to the toast, "North Carolina in the Cabinet," at a dinner of the North Carolina Society's views were expressed.

"This splendid spirit of patriotism and progress, avoiding an extreme position and yet looking to the steady upbuilding of our strength upon the sea, may well be an inspiration to all Americans today as it was more than a half century ago," said Secretary Daniels.

"CASCARET" FOR BILIOUS LIVER

No Sick Headache, Indigestion, Sluggish Liver, Constipated Bowels or Sour Stomach by Morning.

Get a 10-cent box now. No odds how bad our liver, stomach or bowels, how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascaret.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets to-night; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distress cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery.

A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All druggists sell Cascarets. Don't forget the children—their little insides need a gentle cleansing too.

Can Fires Be Prevented?
 (Edward F. Croker in the World Work.)

Since leaving the fire department of Greater New York to take up the work of preventing fires, I have been asked many times, "Don't you think it is a hopeless task?"

My answer has always been that if I did think so, I naturally would not attempt to start such a campaign. But the question illustrates the attitude of a good portion of the public toward the fire problem. Most people look upon fires as something inevitable, almost natural, and consider their prevalence in this country something that must be borne, along with other damages caused by the acts of nature.

This is all wrong. The average inevitable or natural than the collapse of a poorly built building. Both may be ascribed to the same specific causes; careless building, careless inspection, careless usage. Both are preventable; and the occurrence of either is not to be considered as due to anything but pure, man-made carelessness.

The work of fire-preventing is no a hopeless task. On the contrary, I am firmly convinced that if owners and occupants of buildings throughout the country would adopt and put into effect a proper standard of cleanliness, inspection, and common sense carefulness, the number of fires in this country would be reduced 50 per cent within a year.

Children Cry FOR FLETCHER'S CASTORIA

EXPERIMENTING YET WITH RADIUM

Physician Says Cancer Cure Has Not Passed Experimental Stage.

Dr. Wm. Campbell, director of the radium clinic of Pennsylvania, told the House Mines Committee recently that the radium cure for cancer is still in the experimental stage. He said that radium disintegrates the cancer tissues, but created an unknown something in the blood which sometimes kills. He said that the present price is not prohibitive. Dr. Francis Donoghue said that mesothorium is as good as radium for cancer.

Oldest Mail Carrier in U. S. Retires at 74.

Blighampton, N. Y., February 2.—George F. Crandall, the oldest mail carrier in the United States, has retired at 74. He has carried mail continuously since 1856.

The Quickest, Simplest Cough Remedy

Easy and Cheaply Made at Home. Saves You \$2.

This plan makes a pint of cough syrup—enough to last a family a long time. You couldn't buy as much or as good cough syrup for \$2.50.

Simple as it is, it gives almost instant relief and usually conquers an ordinary cough in 24 hours. This is partly due to the fact that it is slightly laxative, stimulates the appetite and has an excellent tonic effect. It is pleasant to take—children like it. An excellent remedy, too, for whooping cough, spasmodic croup and bronchial asthma.

Mix one pint of granulated sugar with 1/2 pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents worth) in a pint bottle, and add the Sugar Syrup. It keeps perfectly. Take a teaspoonful every one, two or three hours.

Pinex is one of the oldest and best known remedial agents for the throat membranes. Pinex is a most valuable concentrated compound of Norway white pine extract, and is rich in gualacol and other natural healing elements. Other preparations will not work in this combination.

The prompt results from this mixture have endeared it to thousands of housewives in the United States and Canada, which explains why the plan has been imitated often, but never successfully.

A guaranty of absolute satisfaction, or money promptly refunded, goes with this preparation. Your druggist has Pinex, or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

To Be Four Eclipses during Present Year.

Four eclipses, two of the sun, and two of the moon, are to take place during the present year. The first is scheduled for February 21. It will be an annular eclipse of the sun, invisible in North America. The only persons who will have an opportunity to view it at all will be the residents in the most southern parts of Patagonia and New Zealand, and they will see it only as a small partial eclipse.

During the second week in March there will be a partial eclipse of the moon, which will be visible in practically every part of the United States and Canada. In August will come a total eclipse of the sun, which will be visible as a small partial eclipse in eastern Canada and the New England states. On September 3 and 4 there will be a partial eclipse of the moon, which will be visible in the far western part of the United States and Canada.

Miss Gertrude Talley, daughter of Mr. and Mrs. R. K. Talley, of Greensboro, and Mr. Paul Elliott of Paulsboro, N. J., were married Friday night at Greensboro.

Children Cry FOR FLETCHER'S CASTORIA

The reports show that during the month of December the deputy collectors and special employes under Revenue Agent Thomas H. Vanderford seized and destroyed 82 illicit distilleries in the district which comprises North and South Carolina. Of this number 55 were taken in North Carolina and 27 in South Carolina.

From ROCKINGHAM PEOPLE

Samuel A. Gentry Praises Bear's Emulsion

Best Thing to Build up Rindown System; Cure Long Standing Cough.

Dear Sir:
 Every winter I have been getting a dry hacking cough that lasted me through the whole winter; and at times I had such pains in my lungs that I could hardly stand it. After using a great many things I purchased a bottle of Bear's Emulsion. The cough and soreness left me in a couple of days and I can honestly say I don't believe there is any preparation that will relieve a cough, heal the lungs and tone up the system, after being rindown from a cough, with as much satisfaction as this preparation does. I have also used it with great success with my little two-year-old boy.

SAM GENTRY.
 For sale by Standard Drug Co. One dollar a bottle; six bottles for five dollars.
