

All Growing Children

are dependent on nourishment for growth. Their health as men and women is largely established in childhood.

If your child is languid, bloodless, tired when rising, without ambition or rosy cheeks, Scott's Emulsion is a wonderful help. It possesses nature's grandest body-building fats so delicately predigested that the blood absorbs its strength and carries it to every organ and tissue and fibre.

First it increases their appetite, then it adds flesh—strengthens the bones—makes them sturdy, active and healthy.

No alcohol or narcotic in Scott's Emulsion, just purity and strength.

Memory of Mrs. Sarah J. Pugh.

Mrs. Sarah Jane Pugh died Wednesday, March 4th, 1914, and was buried at rest in Bethel cemetery March 5th. Funeral services were conducted by her pastor, Mrs. Inger Cox. In spite of the rain that fell that day, the church was full, which shows that Mrs. Pugh was loved by all who knew her. She was a kind and loving wife and mother and a faithful member of Bethel church, at which place she will be greatly missed. She was superintendent of the cradle roll department and took much delight in trying to please the little folks. She was always present on preaching days if she was able to be there, and many times she arose to her feet and testified to the goodness and mercies of the Lord, but today her voice is still both in the church and in the home.

While Bethel realizes that she has lost a good member, yet they will probably not miss her half as much as will the family, for when mother goes the brightest jewel on earth is gone. She cannot come to us but we can go to her. Mrs. Pugh leaves to mourn their loss a devoted husband, four children—Myrtle, Vernon, Hazel and Roy, three sisters, Messrs. Mary Trogdon, Amy Glasgow and Miss Anna Kemp; two brothers, Messrs. David and Eli Kemp, and a host of relatives and friends. But we realize that our loss is her eternal gain.

We pray God's blessing upon the bereaved family, that He will whisper words of comfort to their aching hearts.

A FRIEND.

We Must Realize Our Responsibility.

Clarence Poe at the Social Service Conference.

The first thing needed in building a great civilization in North Carolina is to realize our possibilities—to realize that we have yet but a State in the making, a pioneer commonwealth—a State larger in area, but smaller in resources, than England or Scotland or Greece, and which may well achieve, in the providence of God, a civilization as rich, varied and historic as theirs.

That is the faith that I should like for us to cherish. We must dream the great dreams. We must behold the land that is very far off. All great achievement is built on great aspiration. No medieval cathedral ever lifted its spires towards heaven or awed the spectator by the solemn vastness of its interior, no Taj Mahal in far away India ever grew into a beauty almost divine, no master's hand round Peter's dome and groined the aisles of Christian Rome, until first the dynamic, irresistible power of a great vision, a great faith, drew yearning men through months and years of conflict and struggle, even as Israel followed the Golden Grail and Arthur of old the pillar of fire and cloud.

So those of us sons and daughters of North Carolina, who were nurtured at her bosom and who love her with a passionate love, who would build here a rich and beautiful, a puissant and fruitful civilization, we must first of all electrify our people with the driving power of a great ideal. We must hitch our wagon to a star. We must believe that no civilization anywhere that men have known is greater than we build here in our own beloved home State.

Cause of Rheumatism.

Two English physicians have announced that they have discovered the microbe for rheumatism. We trust that this may be true, for rheumatism has been one of the most baffling diseases.

Since the days of Louis Pasteur great progress has been made in certain branches of medical science, much more than had been accomplished previous to him.

Now, a great many diseases are transmitted by the microbe and if you fight the microbe you fight the disease and do away with the cause.

When disease microbes get into the human system there is no effort on the part of the system to destroy them. It is therefore of the highest importance that the human being should always have pure blood and that his system should be capable of throwing off infections of disease.

Most diseases are aided by wrong habits of living, with too much food, the wrong kind of food, and the wrong kind of drink, insufficient exercise, etc., making a person prey to the microbes of disease.

It is certainly a great step to discover the exact cause of rheumatism. It will enable the physician to treat it more successfully, and it will enable persons to escape from its effects.—Winston Sentinel.

The Best Thing About Wilson.

Baltimore Sun.

Twelve months of Woodrow Wilson have produced a number of tangible and definite reforms. But the best result of all is the spirit of public confidence in sane, progressive policies and in the integrity of the Administration behind them, in the subsidence of the fever of hysteria, and in all increasing strength at the same time of the resolve to go forward along higher planes of national life. The material gain of these twelve months is great, but the spiritual gain is far greater. Other Presidents may have delivered inaugurals at the beginning of their terms which seemed equally striking to men of their day, but few of them have lived up with such absolute consciousness as Woodrow Wilson to the spirit of their professed dedication to the public service. He has made his mistakes, like the rest of us, but they have not been serious, and the whole country today gives him the rate credit of absolute sincerity, honesty and patriotism. However we may disagree with him on this or that policy, we have the comfort of feeling that we have in the White House a man who is a public servant in the best sense of that word, and with whom the public interests will always be paramount to party and personal consideration.

PUBLIC HIGHWAYS

GET RID OF DUST ON ROADS

One of the Most Important Problems to Confront Highway Engineers—Two Methods Suggested.

(By L. W. PAGE.)

The most important problem which has confronted highway engineers in recent years is the getting rid of the dust on roads. Not until the introduction of motor vehicles, however, did this become a factor of sufficient importance to engage the serious consideration of road builders and road users. Fast motor traffic has reached such proportions at the present time as to shorten the life of our most carefully constructed and expensive

macadam roads to a great extent, and to keep them in a loose and uneven condition.

The macadam road has been developed with the object in view of withstanding the wear of iron-tired horse vehicles, and it has met successfully the demands of suburban and rural traffic until the advent of the automobile. When in its highest state of perfection, the rock from which such a road is made is so suited to the volume and character of traffic which passes over it that only an amount of dust is worn off sufficiently to replace that removed by wind and rain. The dust remaining should be just enough to bond the surface stones of the road thoroughly, forming a smooth, impervious shell. A road of this character wears uniformly under the traffic for which it was designed, and always presents an even surface.

When such a road is subjected to automobile traffic, entirely new conditions are brought about. The powerful tractive force exerted by the driving wheels of automobiles soon disintegrates the road surface. The fine dust, which ordinarily acts as a cementing agent, is thrown into the air and carried off by wind or is easily washed off by rains. The pneumatic rubber tires wear off little or no dust to replace that removed by natural agencies. The result is that the stones composing the road become loose and rounded, giving the greatest resistance to traction, and water is allowed to make its way freely to the foundation of the road.

Dust Raised by Automobile Traveling at High Speed.

Many remedies have been suggested and tried for meeting this new condition, but a perfectly satisfactory solution of the problem is still to be found. Some success has attended the efforts of those who have sought to find a cure for the evil and this is encouraging when the many difficulties to be overcome in the treatment of thousands of miles of roadway are considered. It is apparent that this problem can be solved only by the adoption of one or two general methods.

(1) By constructing roads in such a

manner and with such materials as to reduce to a minimum the formation of dust; and (2) by treating the surfaces of existing roads with materials that will give the same result. Among the materials which have been applied with some success to the finished road surface without the agency of water, the mineral oils and coal tar are undoubtedly the most important.

Aims to Promote Road in West.

A plan to promote road building in western states was embodied in a bill introduced by Senator Warren. It would grant \$50,000 acres of public lands to each of the following states to be sold for the aid of road building: Arizona, Colorado, Idaho, Montana, New Mexico, Nevada, Utah and Wyoming.

Road Treated With One Application of an Oil Emulsion—Automobile Traveling at Rate of 40 Miles an Hour, With No Dust Resulting.

Better Roads for Ontario.

Better roads for Ontario province are to be made with the \$10,000,000 appropriation, expenditure of which will be under the supervision of a nonpartisan commission appointed by the government.

DOES DANGER THREATEN YOU?

Are You in the Coils of Disease?

Maybe the serpent of sickness is crushing you to death? Your back is heavy, eyes dull, a never ending weariness holds you. Too many women well know the meaning of hopeless dragging days and endless nights.

Functional and organic derangements grow steadily when neglected—they become deadly in time. Don't suffer longer. **Stella-Vitae** will relieve you now.

This wonderful remedy is the guaranteed woman's tonic of the world. It is the finished work of a lifetime of a distinguished physician who gave the best years of his life to its perfection.

Stella-Vitae is a life giving tonic guaranteed by every dealer who sells it. Whenever a bottle fails to benefit you, the dealer cheerfully refunds every penny it cost you. It is perfectly harmless—healing and health in every drop.

Thousands of well women all over the South testify to its wonderful properties. Shake off the serpent. Get well. Begin today. Get a bottle of **Stella-Vitae**, the guaranteed-to-benefit remedy. Your dealer sells it in \$1 bottles. Thacher Medicine Co., Chattanooga, Tenn.

In Memory of Martitia Cox

Martitia McMasters Cox was born Dec. 3rd, 1844, married to Milton Cox Sept. 19, 1865, and died at her home near Providence, Feb. 27th, 1914, of pneumonia. Her husband preceded her just ten years and one month.

Unto them were born six children, S. U. and A. L. of Climax; J. A. of Greensboro; A. C. of Biscoe; Mrs. J. B. Hockette and Miss Nettie Cox of Pleasant Garden. All were with her during her sickness. Everything that her faithful physician and loving children could do was done, but after nine days of suffering the little shapely hands that were never long idle from fashioning some dainty piece of work for her children, lay still at last cold in death.

She joined the M. P. Church in childhood and was a faithful worker with her husband, in Sunday school for years at Providence.

During her sickness she bore her suffering without a murmur, expressed a wish that her children and friends meet her in a better land. Much of her last hours were spent in prayer, and as they bent to catch her words she was heard to say: "Jesus, let me to thy bosom fly." The triumphant look she wore was not of this world; and we believe our loss is her eternal gain and that she is with her Savior and the mor we all be as she expressed herself to be, "Ready and waiting for His coming."

State of Ohio, city of Toledo, Lucas County.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of CATARRH that cannot be cured by the use of HALL'S CATARRH CURE.

FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1888.

(Seal) A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally and acts directly upon the blood and mucous surfaces of the system. Send for testimonials free.

F. J. CHENEY & CO., Toledo, O. Sold by all druggists, 75c.

Take Hall's Family Pills for constipation.

Cullen Rhyne, a prosperous young farmer living near Gastonia, met an instant and tragic death on the court house square in Dallas when he was hurled against a telephone post by a wild horse he was driving and his neck broken.

THIS STOMACH REMEDY HELPS YOUR FRIENDS

Almost every day some grateful person comes into our store and tells us of benefits received from the use of Rexall Dyspepsia Tablets. Knowing how much good they have done others and knowing what they are made of we feel sure they will help you. So great is our faith in them that we urge you to try them entirely at our risk, with our personal promise that if they don't do all you expect them to do and make your stomach comfortable and healthy and your digestion easy, we'll hand back your money.

We couldn't endure anything any more strongly than we do Rexall Dyspepsia Tablets. Containing Pepsin and Bismuth two of the greatest digestive aids known to medical science, they soothe the stomach, check heartburn and distress, promote a natural flow of the gastric juice, and help regulate the bowels. Remember, if they don't make your digestion so easy and comfortable that you can eat whatever you like whenever you like, we want you to come back and tell us and get your money. Sold only at the more than 7,000 Rexall Stores, and in this town only at our store, Three sizes, 25c, 50c and \$1.00.—Standard Drg Co., the Rexall Store, Asheboro, N. C.

INTERNATIONAL SUNDAY SCHOOL LESSON

(By E. O. HELLERS, Director of Evening Department, The Moody Bible Institute, Chicago.)

LESSON FOR MARCH 22

LESSONS BY THE WAY.

LESSON TEXT—Luke 13:18-35. **GOLDEN TEXT**—"Not every one that saith unto me, Lord, Lord, shall enter into the kingdom of heaven; but he that doeth the will of my father who is in heaven."—Matt. 7:21.

The paragraph selected for our study is wisely entitled "Lessons by the Way," and easily falls into three sections. There are two parables about the kingdom, a reply as to who shall be saved, and an answer to the advice given Jesus about Herod seeking after his life.

The first section is properly a portion of the preceding paragraph which relates to the incident of the woman healed on a Sabbath.

1. What the Kingdom of God is like, vv. 18-21. The word, "therefore" (v. 18, R. V.), links this section with the lesson of last week wherein we observed the effect upon his adversaries when Jesus worked his miracle of healing upon the woman (v. 13), and they were "put to shame," v. 17. With this fact in mind it is easy to reconcile the principles advanced by the two different parables, viz., the fact of intense opposition on the part of his enemies, and that of rejoicing on the part of his friends.

Symbols of Evil.

The faithful servants of an absent but expected Lord are to watch for him that they may give him suitable welcome when he comes. This kingdom is to be outwardly prosperous and grow to that extent that it shall be a shelter to the birds, which represent the nations, Ezek. 17:23. But at the same time there is to be an inward growth as well, one of leaven (yeast), putrefaction. See I. Cor. 5:6-7, also Gal. 5:5, 9. A mustard seed thus growing large is abnormal; the birds are symbolic of evil; so Jesus teaches us here as elsewhere (Matt. 13:24-30), that the kingdom is to be of a mixed character, an intermixture of good and evil, opposition and victory. History has abundantly fulfilled these predictions, though at the time Jesus uttered these words nothing seemed more improbable than such a suggested development, either of outward prosperity and power, or of such a possibility of finding evil within.

Common Question.

2. Who shall be saved, vv. 22-30. What is more natural in view of these thoughts than to ask this question, a question that is a most common one still. Notice, he did not answer in a way to satisfy idle curiosity, but directed each to his own duty, to see if they themselves had entered the kingdom rather than be concerned about how many are to be saved. The secret then is still a secret. He told them to "strive" (contend earnestly) to enter in. Soon the door will be shut, now they are able to enter, then not at all. He is the "door," John 10:9. There is one form of work which is essential to the salvation of the believer, see John 6:29. "Works," altruistic service, is an essential part of Christianity, being an evidence of faith, James 2:17, 18, but altruism is not the whole of religion as some seem to imply. We do not drift into the kingdom, Acts 14:22; I. Cor. 9:24-27; Heb. 4:11; 2 Pet. 1:10. All one needs to do to be lost is to do nothing. To be saved calls for an honest, earnest effort. Jesus again suggests his return as he reveals the kind of seeking which falls to find an entrance. In another passage (Matt. 7:13, 14) Jesus states this same thought. The way of unrighteousness is broad, easy to follow and many walk therein. Whereas the way of life is narrow, straight, and few choose to follow it. To be even so familiar as to have eaten and to have drunk in his presence, or to have lived on the same street, will not suffice, and will not merit an entrance. In another connection (Matt. 25) Jesus taught that even if admission is claimed on the basis of actual service rendered there was still lacking one thing, viz., the Lord's knowledge of them. To be casually, superficially familiar with him is not enough—they did not know him. Many of our "frat" people will then be "last," when that door is closed, and they find themselves without. "Blessed is he that cometh in the name of the Lord."

Word and Work—the two W's.

You'll soon get spiritually gorged if it is all word and no work, and you will soon be without power if it is all work and no word. If you want to be healthy Christians, there must be both word and work.—D. E. Moody.

Warning about Herod, vv. 34-35.

Why the Pharisees gave Jesus this warning is hard to tell. They were not interested in his safety particularly and perhaps only wanted to frighten him and thereby limit his influence and activity, see Neh. 6:9-11; Amos 7:12, 13. There is no doubt, however, of the truth of their words and we know that Jesus never needlessly incurred danger. He had his work to do and could not be killed until it was done, John 11:8-10. The mention of the usurper called from Jesus a revelation of his compassionate love for the city of Jerusalem.

Bro-Mal-Gine

"No, madam, I never recommend headache medicines that affect the heart action. It's easier to suffer temporarily with a bursting head than it is to die with a bursting heart."

"But I can safely recommend this. Been selling it for 15 years and never had a case where it did the least harm."

"Oh, yes, it's pleasant to take, we serve it at our fountain and it is the most popular remedy we have for Headache, Neuralgia, Backache and other aches that are accompanied by colds and stomach disorders."

"Which size bottle will you have?"

"Thank you. Call again."

10c, 25c, 50c Bottles. A Pleasant Liquid Tonic. In all Pharmacies.

How Animals Respond to the Cry of Distress.

Richard B. McLaughlin of Statesville in Forest and Stream.

Few things in nature are so interesting and delightful as the quick sympathy that runs through animal life and the readiness with which so much of it responds to the cry of distress. Perhaps all men reared in the country have seen fastened in the fence a pig whose squeals brought all the swine on the plantation running to its rescue and giving great grunts of sympathy on the way. The cry of a wounded bird, or of one whose nest has been invaded, quickly brings together all the birds within reach of the call. They will go closer to their enemies at such times than under any other circumstances, except when they conceive their eggs or young to be in danger. When a bird returns to its nest, finds a snake there swallowing its nestlings and utters its note of distress, birds of other species will assemble at the scene as quickly as those of its kind. In such instances, it is not uncommon to see birds of a dozen or more species collect within a few minutes.

I once heard the cry of a bird caught by a snake concealed in honeysuckle vines. The snake held it by its wing while it fluttered and struggled and cried piteously. I hastened to the spot and when I arrived the vines were alive with various kinds of birds that had rushed in. I recall a little incident that was not nearly so serious. A Carolina chickadee started down in a hole in a sycamore when it discovered a screech owl that had quartered there. It speedily backed out and made such a hue and cry that it got together a small bunch of birds that took turns at peeping down in the cavity at the owl and scolding it for being an owl and upsetting the chickadee. I was much impressed by a little occurrence a few days ago. I drove out with my boys to where they had set a rabbit trap on my place in the country. There was a rabbit in the trap and as we were taking it out it gave the usual yell. This was answered instantly by the voices of two crows in the woods, a short distance away. The rabbit repeated his cries and in a few moments the crows were hovering above us crowing loudly. This is the first time I have seen birds come to the call of a quadruped.

Retired Georgia Planter's Advice to Kidney Sufferers

Regarding the wonderful curative merits of your Swamp-Root, I cannot say too much. After suffering severely for three years or more with severe pains caused by weak kidneys, I was finally induced to try Swamp-Root through a testimonial I read in one of the newspapers. I was in such a condition that I was obliged to arise from my bed six or eight times every night. I purchased a fifty-cent bottle and before it was used I felt so much relief that I purchased a one dollar bottle and by the time this was taken the old pains had left my back and I could sleep the whole night through. I am a retired planter 70 years of age and owing to Dr. Kilmer's Swamp-Root I am in the best of health and feel like a boy. I am always glad to recommend Swamp-Root to those who are in need of it.

Sincerely yours,
C. E. USSERY,
Bowersville, Ga.

Personally appeared before me, this 8th day of September, 1909, C. E. USSERY, who subscribed the above statement and made oath that the same is true in substance and in fact.

T. H. McLANE,
Notary Public.

Letter to Dr. Kilmer & Co., Binghamton, N. Y.

Prove What Swamp-Root Will Do For You.

Send ten cents to Dr. Kilmer and Co., Binghamton, N. Y. for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information telling about the kidneys and bladder. When writing, be sure and mention the Asheboro Weekly Courier. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

Diversified Farming Is Making the South

Planters are finding that it pays to rotate crops. Corn, hay and cotton follow each other with a sure profit. Besides raising diversified crops, more planters use fertilizers containing

POTASH

enough to balance the phosphoric acid.

Enough Potash means at least as much Potash as phosphoric acid.

To get full value out of your fertilizer, insist on high-grade goods. If your dealer doesn't carry such grades, buy Potash separately. Potash Pays.

We will sell you any amount from one 200-lb. bag of GERMAN KALI WORKS, Inc. 42 Broadway, New York

Chicago, McCormick Block
New Orleans, Whitney Central Bldg.
San Francisco, 25 California St.
St. Louis, 1000 Olive St.
Atlanta, Kingbird Bldg.

Beef and Milk A-plenty

Cattle are kept for two purposes; for beef production and for milk production. To do either right they must be healthy. There is nothing better to keep them in continued good health, or to make them well quickly when sick, than a few doses of—

Bee Dee STOCK MEDICINE

They soon get well.

John S. Carroll, Moorhead, Miss.

25c, 50c and \$1. per can. At your dealer's.

JUST RECEIVED Car load of Oliver Chilled plows. Now is the time to make your purchases of all kinds farming implements. If you are not already a customer, come to see us. Start right, as we are in position to give you the very best class of hardware.

McCrary-Redding Hardware Co.

Asheboro, N. Carolina
