

Suffrage for Women Amendment lost in the Senate Thursday of last week by a vote of 35 to 34. Because there were 35 for it and 34 against it, the amendment was lost for it takes two-thirds majority. Senator Overman voted against it and Senator Simmons was paired against it.

The Salisbury Evening Post speaks in the highest terms in support of the Woman's Civic League of Salisbury and urges co-operation on the part of the citizens of Salisbury in aid of these earnest women to do the work they are undertaking today. The Post declares with some other things they are undertaking it would be gloriously efficient if only accomplished.

The State Democratic Primaries will be on May 16, the county convention will be on May 23rd. The Democratic State Executive Committee met in Raleigh last night to fix the time of the meeting of the State Convention. The 17th of June conflicts with the meeting of the State Medical Association and it is not convenient for the State Medical Association to change its date.

Senator Borah of Idaho, who before he went to the United States Senate made a record as prosecuting attorney, and is known for his daring, made a declaration on the floor of the Senate last week favoring the repeal of the Fifteenth Amendment of the Constitution. He told how the North passed it and how the South evaded it. Senator Borah at last recognizes what the North should have realized many years ago. The South did not interfere with the West in its foreign troubles. Mr. Borah was discussing Woman Suffrage. He said that Woman Suffrage would never come until the Fifteenth Amendment was repealed and it looks now as if it will never come.

Dr. D. B. Gray of Atlanta, who made an address at the Baptist Laymen's Convention in Durham recently, commended the President of the United States for his peace policy.

Best to establish more churches at home.

The speaker said that only during the last decade and a half had the world recognized this country as a world power and a world force. Cuba, Spain, China, Russia and Japa have all felt the influence of this country. From the material side this country feeds and clothes much of the world. It is taking into its bosom and assimilating 1,000,000 foreigners a year. Spiritually this country is doing a great work and is being looked to for the evangelization of the world. Before we can do the great work in this line we are destined to do. Dr. Gray thinks it will be necessary for this country to look after her own people better and establish more churches at home.

THE COMING ATLANTIC OCEAN AIRFLIGHT.

It is now a recognized fact that somebody, some day, is going to fly across the Atlantic Ocean from continent to continent in an aeroplane. There have been numerous newspaper announcements of late outlining the proposed exploits of aviators in the trans-Atlantic flight, but in none of the accounts does there seem to be any real information pertaining to a logical solution of the difficulties that must confront the pioneer ocean flier.

In the first place the man who plans to fly across the ocean needs have no fear of the mysterious, dangerous and otherwise annoying air currents that will interfere with his flying stability while aloft.

An incident was told in a recent magazine of a ship in mid-ocean unable to make any progress whatever tossed about by the wind and waves, and of the passenger huddled together on deck watching an aeroplane above unable to make any progress but perfectly calm apparently suspended in mid-air.

It is not probable that any man can go across without coming down at least once for supplies or repairs, but this can be done at no risk by letting the machine glide along on the water by the ship.

One of the greatest things to be feared is the uncontrollable drowsiness of the men on long distance trips. Some attribute it to a gas in the atmosphere, but no matter what the cause is, until doctors or chemists invent something to counteract this drowsiness the much-talked-of flight across the Atlantic will be dangerous.

Charlotte, Sunday, April 5th, at 11 a. m.

Browers' Sunday, April 5th, at 3 p. m.

J. H. BOWMAN, Pastor.

WHY EMULSION IS THE BEST

Other Consumption Medicines Are Hard on Stomach.

But Bear's Emulsion Builds Up Body and Beats Germs in Race.

Dr. Robert Koch, distinguished German scientist, discovered in 1882 the cause of consumption, and since that time Bear's Emulsion of Petroleum is the first and most effective remedy ever used. Although there have been a great many other preparations used but in nearly every case the remedy was so hard on the stomach that the patient had to stop its use before much good was derived.

Digestive organs are almost constantly in a disordered state in consumptive patients. Bear's Emulsion relieves these symptoms almost immediately and thus institutes the first indispensable step to proper treatment by getting you in a receptive condition for food and medicines. Fever is reduced steadily and progressively because the toxemia is antagonized and because tissues are not burned up so rapidly as before the Emulsion was administered. This is due in part to the fact established experimentally and clinically, that Bear's Emulsion maintains the proper ratio of waste and repair tissue. It does more; it makes tissue construction a more rapid process than tissue consumption, thus overcoming Bear's Emulsion is not only good for consumption, but for the treatment of coughs, croup, bronchitis, influenza, whooping cough, colds, la grippe, asthma, pneumonia, weak and run down systems.

One dollar a bottle. Sold by Standard Drug Co. and the Rexall Store.

Eighth Grade Contest.

A new feature in the High School in Asheboro was executed last Friday afternoon when the eighth grade, in the school auditorium, held its preliminaries in Declamation and Recitation contests.

There are thirty-five members in this class and from this number of speakers six boys and six girls were chosen to represent the grade in final contests to be given sometime soon. The boy and the girl winning first place in these final contests will receive a gold medal, the one for the boy being given by Mr. W. C. Hammer and the one for the girl by The Bulletin.

This work is a part of the course in eighth grade English, manifested by the pupils of the grade, and the hard time that the judges had in selecting the speakers for the final shows that much work and energy has been spent by the contestants.

The judges for the preliminaries were Miss Lowery, 6th grade teacher of the graded school, Mrs. Mabel Underwood and Mrs. Powell. The names of the final speakers, with their subjects, and the date of the contest will be published in due time and the public will be invited.

Preliminary steps have been taken by the Postoffice Department to perfect its plan for reducing the cost of living by having the Parcel Post carry farm products direct to the door of the consumer. Plans are not matured as yet.

STOMACH HEALTH—OR NO COST TO YOU

Very likely others have advised you to use Rexall Dyspepsia Tablets, because scores of people in this community believe them to be the best remedy ever made for Dyspepsia and indigestion. That is what we think, too, because we know what they have done for others and what they are made of. We have so much faith in them that we urge you to try them at our risk. If they don't help you, they won't cost you a cent. If they do, do all that you want them to do—if they don't restore your stomach to health and make your digestion easy—just tell us and we will give back your money without a word or question.

Containing Pepsin and Bismuth, two of the greatest digestive aids known to medical science, they soothe the inflamed stomach lining, help in the secretion of gastric juice, check heartburn and distress, promote regular bowel action, and make it possible for you to eat whatever you like whenever you like, with the comforting assurance that there will be no after-effects. We believe them to be the best remedy made for dyspepsia and indigestion. Sold only at the more than 7,000 Rexall Stores, and in this town only at our store. Three sizes, 25c, 50c and \$1.00. Standard Drug Co. and the Rexall Store.

Franklinville News.

Quite a large crowd attended the sociable given by the Ladies' Aid Society at the Academy Saturday night. Everybody seemed to enjoy it as they do everything gotten up by the Ladies' Aid Society. The prize for best speller was won by Mrs. Lizzie McFadyen, and for the most old-timey costume by Miss Lul Hayes.

Rev. C. A. Cecil to Preach at Fairmount.

Rev. C. A. Cecil, president of the N. C. Conference of the M. P. Church, will preach at Fairmount M. P. Church at Franklinville April 3 at 7.30 p. m. Everybody cordially invited to be present.

IS YOUR CHILD'S TONGUE COATED?

Look and see, Mother! When cross feverish, constipated, give "California Syrup of Figs."

Look at the tongue mother! If coated, it is a sure sign that you little one's stomach, liver and bowels need a gentle, thorough cleansing at once. When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels with out gripping, and you have a well playful child again.

You needn't coax sick children to take this harmless "fruit laxative;" they love its delicious taste, and it always makes them feel splendid. Ask your druggist for a 10-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

The Triumphs of The Carolinas

are the achievements in educational, agricultural and commercial progress that will astonish even native Carolinians, will make every State in the South bestir itself and

Will Open the Eyes of the Entire Nation

You know what your own locality is doing, but how much do you know about the combined efforts of all the Carolina counties and how these united efforts will, in turn, boom business in your town and county?

Employer, employee or parent—whichever you are—you need to know these important facts, for the agricultural and business opportunities and the educational advantages of North and South Carolina today are greater than ever in the history of the two States. What's more, they are rapidly growing bigger and better.

There is much to be proud of in the Carolinas. The whole significant story is told in the article
