

Underground Water Near Deming, New Mexico.

Were it not for the many wind-mills in sight travelers on trains crossing the great desert valley of Mexico River near Deming, New Mexico would not suspect that this region has a water supply. It has been found in recent years that a wide area of this valley is underlain by deposits of sand and gravel containing large volumes of water that can be pumped to the surface and utilized for irrigation. Of late many settlers have taken homesteads near Deming and in adjoining districts extending southward through Columbus to the Mexican line, and there is great demand for land in which water is available. About 300 wells have been sunk, many pumps installed, and considerable successful irrigation accomplished. There is, however, a limit to the area underlain by water at moderate depth and in sufficient volume for irrigation, and it is very important for present and prospective settlers to know where water supplies may be procured. To this end N. H. Dutton, a geologist of the United States Geological Survey, has made an examination of Luna County and written a detailed report which will be published as soon as possible. Meanwhile an abstract of this report has been prepared and just issued by the Survey as Water-Supply Paper No. C, a part of the "Contributions to the hydrology of the United States, 1914." It contains brief statements as to the extent and thickness of the water-bearing deposits, the source and volume of the water, the rate of movement of underground water, the depletion of the supply, and the quality of the water. It gives also a description of conditions found in some representative wells in various parts of the country and an account of some unsuccessful attempts to develop artesian flows by deep borings. The accompanying map shows the depth to water, location of rock outcrop, and limits of the area underlain by water-bearing beds. The paper also contains the results of several pumping tests made by A. T. Schwennesen of the Geological Survey. A copy of this pamphlet may be obtained free on application to the Director, U. S. Geological Survey, Washington, D. C.

Whooping Cough.

"About a year ago my three boys had whooping cough and I found Chamberlain's Cough Remedy the only one that would relieve their coughing and whooping spells. I continued this treatment and was surprised to find that it cured the disease in very short time," writes Mrs. Archie Dalrymple, Cronksville, Ohio. For sale by all dealers.

Family Takes Ride in Hearse.

Spokane, Wash., May 9.—Fifteen miles across country in a hearse was the unique trip taken this week by a party of Spokane women and children after their automobile had broken down near Cheney, Wash. While the stranded wayfarers looked sad at their wacky machine, S. M. Smith, a Spokane undertaker, came along with his automobile hearse. This was one time the man of funerals was welcome. Mrs. William Vitman and daughter and Mrs. Frank Chapman and daughter gaily climbed into the hearse, leaving Mr. Vitman and Mr. Chapman to tinker with the machine. Raising the curtains within the hearse the wayfarers proceeded to enjoy the trip to Spokane. The big black vehicle rolled through country and village, while spectators looked agape at the smiling faces of women and children that peeped out at them from the confines of the hearse. When the hearse reached the suburbs of Spokane bystanders looked horror-stricken to see a party of four live persons emerge and get aboard a street car.

"The Greatest Kidney Remedy on Earth", Says a Grateful Woman

I want to tell you how much good your Swamp-Root did me. About four years ago I suffered from what the doctors called fistula and for five years of that time I endured what no tongue can tell. I also had inflammation of the bladder and tried doctors' medicines without receiving any help. Someone told me about Dr. Kilmer's Swamp-Root. After giving it a thorough trial, I received relief, so kept on using it and today I am a strong and well woman. If I ever feel badly or out of sorts, I take Swamp-Root and it always straightens me out. I honestly believe that this medicine would cure all troubles you recommend it for, and it is a pleasure for me to send my testimony and photograph to you. I think Dr. Kilmer's Swamp-Root is one of the greatest medicines on earth.

Yours respectfully,
MRS. JOHN BAILEY,
West Main St., Portland, Ind.

WE DO NOT CARE.

We don't care what the world may say
If those whom we love are true;
We do not mind the toil of the day
If we know in the dusk and the dew
There waits someone who will welcome us
As we come home to rest—
Some friend who will say, "Dear heart, I know
That today you have done your best."
We do not mind if the thorns are sharp
Or the pathway is rough and steep;
We do not mind if we plow and sow
For others to come and reap.
If we can but hear, when the twilight comes,
And the reed in the west grows gray,
Some dear voice whisper these words of cheer:
"You have fought a good fight today."

For the heart don't care what the world may say
If those whom it loves are true;
For 'twas ever and always the heart's own way
To long for the love and true.
You forget the gain, the loss and the pain
That tortures your pulsing breast
If there's one who always in sweet blind faith
Can say, "You have done your best."
—(Miss) Mary V. Bryan, Roseboro, N. C.

Pennsylvania women opposed to woman suffrage held their first State convention in Harrisburg recently and adopted a vigorous campaign against the adoption of the suffrage amendment by the next Legislature. The convention was the first of its kind to be held in the country.

Sick Headache.

Mrs. A. L. Luckie, East Rochester, N. Y., was a victim of sick headache and dizziness, caused by a badly weakened and debilitated condition of her stomach, when she began taking Chamberlain's Tablets. She says, "I found them pleasant to take, also mild and effective. In a few weeks' time I was restored to my former good health." For sale by all dealers.

FOREST NOTES.

The forests of matches into China greatly exceed in value any other wood product. Most of the matches come in from Japan. Redwood sawdust is being used to pack fresh table grapes. It is by vineyardists in California for taking the place of the round cork used for imported Spanish grapes. Hyndman Peak, Idaho, the highest named peak in the State, is more than 12,000 feet high. Several unnamed peaks near it are of about the same elevation. All are on the divide between the Sawtooth and the Lemhi national forests. A two-year-old plantation of Douglas fir on the Oregon national forest shows 94 per cent of the trees living. Extensive plantings of young trees in Washington and Oregon are costing \$8 an acre. Direct seeding of lodgepole pine has been successful without exception on the Arapaho national forest, Colorado. Several of the areas sown two and three years ago show from 5,000 to 10,000 seedlings per acre.
