Every farmer who takes a paper that admits advertising to its columns receives the equivalent of a cash contribution, for were it not for the advertising to help pay for the cost of publishing the paper, the subscription price would necessarily be two or three times as much. A paper whose subscription price is one dollar would be at least two dollars if it had no advertising patronage, hence every subscriber virtually gets one dollar from the advertisers. It follows, then that subscribers should have a kindly feeling for the advertisers in their paper, and give them the preference in the bestowal of their patronage, for the reason that one good turn deserves another.

MR. BURNS FOR CLERK OF THE COURT

To the Democratic Voters:

The time is right upon us when we must choose our candidates for the different county offices. I want to recommend a man for Clerk of the Court that I know to be a gentleman in every sense of the word, and one that I have had considerable dealings with and whom I have always found to be honest, upright and courteous. He is thoroughly competent and will perform the duties of the office with fairness to all and with credit to himself and to the party. A. E. Burns is the man. Nominate him and add strength to the ticket.

OUR PRESENT COUNTY OFFICERS ENDORSED

Mr. Editor:

It is a well known fact that the campaign for county officers is drawing to a close, and it is important that the Democrats of the county attend their township primaries and vote for the men who will fill the places with credit to our county. These places are now filled by worthy gentlemen.

There can be no danger of jeopardizing the party or public welfare by re-electing to an office a competent, trustworthy and faithful public official. All the candidates are worthy men and would make good officers if they could remain in office the required length of time. But the question in our mind is: Does the grand old county of Randolph need any changes in her present officers at this time?

We want it understood that we have no personal friends or enemies in the matter, but we look at it from an important standpoint individually. In politics every man who wants office should have an open field and a fair fight for office. No man should want or try to get anything else than an equal show in the race. The idea of rotation should not be gone too far from; soft palavers, which some of the candidates use so effectively in canvassing the voters should not have a feather's weight in making the ticket. You have friends and every other man has friends and for the next five hundred years we could not get them all in office, if we should adopt a plan to rotate every election. Realizing that fact, what will you do, vote for a friend for personal reasons only, or be a friend to our county in which we all share alike by her more experienced officers?

We do not consider it from a personal standpoint, but look at it from a broader scope. Looking at it from a viewpoint of progress and development of our county, we would be willing to let our present county officers remain as they are for years to come. Why not? Can you point to any period in the history of our county when it was making as much and as rapid progress along all lines as it is today? Randolph county is being developed as never before and no county in the state has a better set of county officers.

If there is no reason why we should change them for new men except that they have held the offices long enough, then I contend that there is no legitimate reason. Some of the grandest and safest men the Democratic party or any other party has ever elected as the people's servants have held their offices for many terms and each time made a better officer than before, because they knew their work better, they had a better understanding of the duties and responsibilities of the trust that was placed in them.

So considering their services in helping shape the affairs of our county government, looking on down touching the progress in development, the material and financial prosperity of our county, it would seem unwise to make any radical changes at this time.

VOTER.

MR. BURNS FOR CLERK OF THE COURT

To the Democratic Voters:

Please allow me to present the name of A. E. Burns for the office of Clerk of the Court in Randolph County. He has held positions of trust and prominence and has proven himself to be competent and popular. He is a highly esteemed and capable man and if elected to the place will fill it with credit. I heartily recommend that you nominate him at the County Convention.

J. C. PEPPER.

Impressive Figures.

The following calculation is interesting: Suppose one boy, aged ten years, determines to rise at five o'clock all the year round. Another of the same age, indolent and fond of ease, rises at eight, or an average of eight, every morning. If they both live to be seventy years old the one will have gained over the other, during the intervening period of sixty years, 65,745 hours, which is equal to 2,739 and a fraction days, or just 7½ years.

Uncle Sam "Sizes Up" Employees.

The United States navy yard perhaps has the most complete system for the qualification of applicants. It first indulges in a physical examination. Then comes a mental test, with the resultant questions as to fitness in any particular trade. Sometimes Uncle Sam goes wrong, but his lapses are comparatively few. He usually sizes up his man at the outset.
