ADVICE TO COLLEGE GIRLS

In his opening address to the 1-500 young ladies of Smith College, President Burton said that Quality was the word on which they should fix their attention. "But in your search for quality do not become snobs, do not become members of a false aristocracy, nor shut yourselves off from the world," he added. "There should be quality in your friendships, in your writing, in your play, and recreation. Be punctual, be neat, be economical. Develop peculiar and distinctive excellence in all your life experiences. You can do better work this year than you did last. This is the best place and time in the world to make a new start. I hope that this year, founded on better ideals, will be the best year so far for all of you."
