He had his shoes with mud, tore his socks, ruined a valuable pair of pants and was otherwise considerably damaged and there was no tangle-foot in the game either, but just mud. Church cemetery and tenderly laid to rest by members of the Riverside Band acting as pallbearers, of which the deceased was a member until stricken down with appendicitis the first of October, 1913, and was carried to St. Leo's hospital for an operation for which he never recovered but during this long period patiently bore his sufferings and appeared cheerful and resigned to his fate and a few days before the end came called to his mother and said that the pearly gates had swung ajar and that all the beauty of heaven was spread out before and willingly laid down the dramatic of an earthly hand to join that Celestial band where parting and suffering will be no more. Ewet was 18 years, six months and 21 days old and leaves many friends to mourn their loss. The bereaved ones have the sympathy of all our people. **WARM PRAISE OF SOLICITOR CLEMENT**

Solicitor Hayden Clement, the Democratic candidate for solicitor, is before the Iredell voters this week. He spoke at Harmony last night and will speak at Lory academy tonight. Mr. Clement is an able lawyer and is well fitted for the office of solicitor—a fact he has demonstrated during the six months he has filled the office under appointment. **A YOUNG VOTER REPLIES TO THE BULLETIN**

The Republicans don't like to hear the truth, do they? In this week's issue of The Bulletin as an article replying to the article "Why My First Vote Will Be a Democratic Vote." They did not deny that there were negro Registers of Deeds, negro members of School Boards, negro magistrates and many other negro officers under Republican rule and ruin. And I did not praise the Wilson administration, did I? I took it for granted that all sensible people know as much about the Democratic administration as I do, especially those that read. We have never had a nobler man in the Presidential chair since the days of Thomas Jefferson. The leading Republican papers admit that themselves. Your own Hon. Teddy Roosevelt is supporting a Democrat for Governor of the state of Pennsylvania. You Republicans are bushwhacking the county and trying to demoralize our present public school system. My young friend, do you think you should support a party that is doing all in their power to destroy our public school system? You did not say if you had the power what you would do about putting the negro back in power, did you? You would have negro magistrates, deputy sheriffs, school committeemen and any other offices they would accept. "Not one word why a man should vote the Democratic ticket." First, for self-respect; for the protection of my sisters and mother against the outrageous acts of negro officers as in the days of fusion. No young man who has any self-respect at all would vote to associate himself with a negro. You Republicans are not improvers of good roads, are you? Well, then, all our road building would stop. What a shame and disgrace to anpoh county.

"This boy" is a believer in the principles that Thomas Jefferson advocated, and is therefore a Jefferson Democrat. My young friend, how many parties have died a natural death and been buried since the Democratic party was organized by the immortal Thomas Jefferson? The Republican party has been the last one. Get your history and you can soon find out. "Go vote silently." You can only vote the Democratic ticket in silence. A man who lives in a glass house must not throw stones. Very truly yours, A YOUNG VOTER.

**THE EUROPEAN WAR**

The battle for the Straits of Dover, one of the most sanguinary of the war, is continuing with unabated fury, but thus far without either side gaining decided advantage. The Germans, who at terrible cost in life, last Saturday crossed the Yser Canal between Nieuport and Dixmude have not been able to make further progress, as the allies, according to a report of German General Headquarters, issued Wednesday morning, are obstinately defending their positions. It is the same further south, around Armentieres, Lille, Labasse and Arras. The opposing armies are delivering fierce attacks, gaining or losing a few miles or less of ground with sacrifices in life that are appalling. The whole countryside is fairly reeking with the blood of thousands of killed or wounded. In the towns and villages, most of which have been laid in ruins by the artillery, most desperate fighting has occurred when the cavalry and infantry came into contact. Both sides speak of heavy losses they have imposed on their adversaries, but say nothing of their own dead or wounded whose places are being filled with reinforcements. The British fleet which did such execution in bombarding the German flank, seems to have withdrawn. The Germans say this was because their artillery was beginning to reach the ships. The belief is expressed, however, that the fleet will be able to render untenable German occupation of any part of the Belgian or French coast. The opinion also is expressed that the operations of the allied vessels off the Belgian coast and in the vicinity of the Straits of Dover may cause the German fleet to come out and give battle.
