WRINKLES, TO PREVENT AND REMOVE

tions cannot be removed while their cause continues in operation. Wither-ing and puckering of the skin, the result of years, may be relieved by the above. The treatment is materi-ally assisted by the systematic use of a good massage cream, face or cold cream. See these titles.

PROMPT ACTION WILL STOP YOUR COUGH

When you first catch a Cold (often indicated by a sneeze or cough) break it up at once. The idea that "It does not matter" often leads to serious complications. The remedy which immediately and easily penetrates the lining of the throat is the kind demanded. Dr. King's New Discovery soothes the irritation, loosens the phlegm. You feel better at once. "It seemed to reach the very spot of my Cough" is one of many honest testimonials. 50c. at your Druggists.

"When my boy, Ray, was small, he When my boy, Ray, was small, he was subject to croup, and I wa- al-ways alarmed at such times. Chamberlain's Romedy proved far better than any other for this trouble. I am never with without it in the house for I know it is a positive cure for croup," writes Mrs. W. R. McCain, Blairsville, Pa. For sale by all dealers.

CLOGS THE KIDNEYS

Take a glass of Salts if your Back hurte or Bladder bothers you—Drink more water.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that mest forms uric acid which aimost paralyze the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sich headache, dizziness, your stomach sours, tongue is coated and when the weather is had you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three time during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush off the body's urinous waste get four ousees of Jad Salts from any pharmacy here; take a tableapoonful in a glass of water before breakinst for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithin, and has been used for generations to flush and atimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

Household Economy

How to Have the Best Cough Remedy and Save \$2 by Making It at Home

Cough medicines, as a rule contain large quantity of plain syrup. A pint of granulated sugar with 12 pint of wars water, stirred for 2 minutes, gives you as good syrup as money can buy.

Then get from your druggist 2% onner. Pines (50 cents worth), boar into a pin bottle and fill the bottle with sugaryur. This gives you, at a cost of onl 54 cents, a full pint of really better cong symp ting you comid have reast made for \$2.50-a clear suying o, nearly \$2. Full directions with Pines. 1, keeps perfectly and tasker good.

It takes hold of the usual cough hest cold at once and computers it in ours. Splendid for whooging cou conclities and winter coughs.

It's truly astonishing how quickly loosens the dry, hearne or tight con and heals and scotles the inflamed in the branes in the case of a painful could be a superstant of the loose of the painful could be superstant to the case of the president loose cough.

Pinex is a highly concentrated com-pound of genuine Norway pine extract, combined with guaineol, and has been used for generations to heal inflamed membranes of the throat and chest. To avoid disappointment, ask you druggist for "2½ ounces of Pinex," and on't accept anything cles. A guarant of absolute satisfaction, or money promptly refunded goes with this preparation. The Pinex Co., Ft. Wayne, Ind. of peacock feathers, and hanging from the sides, over the ears and around their necks, are oval balls of porce-

Triplded The manus which is found ny peculiarities. For one thing do germinate on the branches. the tranches, the shoots are considerably no or hey fast off and take root in the mud. As the young tree grows it sends out fresh roots from its trunk and lower branches, until at last the true seems to be supported by a network of roots, or complicated series of arches, in the midst of which crabs, aquade birds and insects take up their about.

sects take up their abods:

Belief in the number 3 was almost a religion to Bismarck, for it ran like a vein of gold through all his dazzling career. He served under three months, and in three great wars and signed three treaties peace. He was the father of the triple peace. He was the father of the triple alliance, and from his three names and as many words in his family mot-to, "Strength in Trinity," and his three children, there was no period or undertaking in his life in which this "sacred" figure was not of the best omen to him.

Ubiquitous Scot.
Lord Strathcons often declared that
a Scoteman, though he spent his life
abroad, often remains a Scoteman, and the ubiquity of the race was a favor its conventional thems with him. To lifustrate, he told of a Scotsman in Stanghal who wagered with an in-credulous southerner that he would discover a brother Scot in every ship in the harbor. Going to each ship is turn and shouting. "Are you there Mact" into the engine room, he gos "Aye, aye," as answer every time.

Oil for Paint.
For mixing with paint linseed oil
is the one which is most commonly
used as an ingredient. Other oils
might be tried and the best way to test their relative worth is to mix only a small quantity of paint and test the result. Lineard oil, when pure, is excellent, since it oxidizes and comes thick on exposure to the air. It may be considered the best of all oils for use in paint, putty and other

You may beat your dyspepsia by loking at it. I sat down at the club linch opposite an artist suffering from indigestion, myself being a fellow sufferer. I prescribed Let's take the absolutely worst things: We ordered roast pork, roly-poly pudding and Scotch ale, laughed all the time at the solemn men who were giving other advice, and—when we met again confessed that our dyspepsia had disap-peared in laughter!—London Chron-icle.

In hanging old china plates for deco-rative purposes use three large white dress hooks, placed at equal distances gress hooks, placed at equal distances apart on the edge of the plate. The hanging wire or cord is run through them from the back side and drawn up tightly. These hooks are much better than the ordinary plate hanger, as they are small and will not show much on the plate.

Influence of Colors on Mind.
Colors, it has been found, nave a
great influence over the mind. A child
who suffers from a melancholy and
cross temper may not be naughty but
simply under the influence of green
wall paper, while her little brother is
happy and good natured as a result of
the blue with which his room is pa-

California's Magnesite.

Magnesite, a universit which is over per cent, carbon dickide, the gas lich is used for charging soda waa gluger ale and similar bewayers, a sound in greater quantities in Calimina than in any section of the countries. California mannestle is probably seelled by few, if any, of the foreign mosts and is superior to much that a mixed abread. mined abroad

Hindu Temple in San Francisco.
Sun Francisco hee for Hindu Impale,
a strange-locking building, with queer
ornaments and swelling protiferances
on its roof. A galber, crummined
with plants, rone broand the upper
part of the lenting, which is of wood,
painted cream cour. The general aspect of the building is Moorish.

Distrusted Education.

Education was considered a disqualfification in a servent a century ago. Even Hannah More, who did much to promote the Sunday school movement, confined her curriculum to teaching the children to read the Bible, the cate chism "and such coarse works as may fit them for servants." "I allow of fit them for servants," "I allow of no writing for the poor," she stated emphatically.

Strathcona's Tie to Scotland. Among the vast possessions of the late Lord Strathcono must be counted the little island of Colonsay, one of the fragments of the shattered west coast of Scotland. The snug island is the first haven which the storm-tossed voyager renches after he leaves the shadow of the Mull of Kintyre and ses the open sea past the terrible Torrans rocks.

Queer Hats of Soldlers. Korean soldiers wear black or brown felt hats decorated with red horse bair

lain, amber and a queer kind of gum.

Light From Stars.

Light From Stars.

The light we receive from stars of the first magnitude, like Vegs, is equal approximately to a forty-thousand-raillionth part of that of the sun. It is calculated that the total vegs. calculated that the total light re ceived from the lesser stars is equal to that of 3,009 stars of the first mag-nitude, or a sixth part of that which is sent to us from the moon.

He Schieves in Dreams. Never be vindictive, even in your gleep. Mr. Miggs, a well-known citi-son of the North End, was chased by a bull in his dreams the other night. Across the pasture dashed Miggs, the bull gataing at every jump. Breath-lessly Miggs reached the fence at last, and, safe astride the top, turned and kicked the bull in the nose, break-ing one of his toes on the wall beside the bed. He is out on crutches this week.—Newark News.

Life-Giving Properties of Colors. Experiments show that the order of

colors ranked as to their life-giving properties will be: blue, violet, yellow, red and green. Thus, if a patient is put in a hospital where green predominates he has a far slimmer chance of speedy recovery than if he were comfortably fixed in a blue room

Inherited Character.
It has been explained that character It has been explained that character and behavior of all organic matter, plants as well as animal and human beings, is determined by what are known as character urits. Thus in, taking a hypothetical case of the shrewd, cruel father and the shiftless, kind mother, we have four distinct character units, which through inheri-tance reappear variously grouped in the offenying. the offspring.

Process of Milking.

I do not know that the process of milking has ever been described. The foreinger first clasps the upper part of the teat, and then the middle, ring and little flugers, in rapid succession, so as to drive the milk before them through the orifice. The knack is rather difficult to acquire, and at first very wearying to the hands, though this soon passes.—From "A Farmer's Note Book," by C. E. D. Pivalps

Simple Explanation.
Mr. Stonoy—What a lot I seem to bave learned tonight! How I have benefited by this conversation with you, my dear Miss Deartome. Somehow your intellect seems to appeal to mine. Are you a literary lady?" Miss Deartome-"No; I am a teacher in an infant school!"

Canada and Europe Canada and Europe.

The total area of the Dominion of Canada is only 227,000 square miles less than the whole continent of Europe. In other words, if the state of Texas were added to the Dominion it would be 30,000 square miles larger than all Europe, Great Britain and Ireland,

Normality the Essential. Normality the Essential.

The normal man is the one who succeeds in life. He must have imagination and courage, endurance and industry, the power to concentrate as well as intelligence. But first of all he must be normal, moderate in his habits, careful of his health, careful of his digestion and of his cerves.

Few There Are. Blessed is the man who discovers in the hour of his adversity the has a lot more triends than he though he had-but he is scarce.

One of the Times.

One of the Times.
