

## NORTH CAROLINA MAN FINDS QUICK RELIEF FROM DISORDERS OF STOMACH

Mr. Wade Thankful He Read About Mayr's Wonderful Stomach Remedy  
E. T. Wade, of Williston, N. C., was the victim of stomach disorders. He tried many remedies and took a great deal of medicine and treatments. Relief seemed a long time coming.

Then he found Mayr's Wonderful Stomach Remedy, took a dose—and found relief at once. He told his opinion of the remedy in a letter in which he said:  
"Your medicine has worked wonders. I feel so much better. I am thankful to you, indeed, for advertising your wonderful remedy in the papers, as otherwise I might never have known it."

Along with this letter Mr. Wade ordered more of the remedy. The first dose proves—no long treatment. Letters like this come from all parts of the country. Mayr's Wonderful

Stomach Remedy is known everywhere because of its merit. Mayr's Wonderful Stomach Remedy clears the digestive tract of mucus accretions and poisonous matter. It brings swift relief to sufferers from ailments of the stomach, liver and bowels. Many declare it has saved them from dangerous operations and many are sure it has saved their lives.

We want all people who have chronic stomach trouble or constipation, no matter of how long standing, to try one dose of Mayr's Wonderful Stomach Remedy—one dose will convince you. This is the medicine so many of our people have been taking with surprising results. The most thorough system cleanser ever sold. Mayr's Wonderful Stomach Remedy is now sold here by Standard Drug Company and druggists everywhere.

### THE TARIFF AND THE MILLS

The Philadelphia Record thinks that "whatever competition the present tariff has thrown upon the textile industries has been in great measure warded off by the war." And before going into The Record's exhibit, we might suggest that doing as well as they have under the Democratic tariff and facing war conditions, what might the mills have done had they been given the opportunities of normal times? The Record recounts that the United States Worsteds Company "has opened its men's wear goods for fall at prices 12 1/2 per cent higher than a year ago. Statistics of British textile industries lately received in the New York dry goods market show an unexpectedly large reduction in output, which involves a decreased exportation to this country. Reports received in New York from all parts of

the country show that textile mills in New England and the South are unusually active. Some of them are running night and day. The Russian Government is trying to find mills to take orders for 8,000,000 yards of army cloths. The Southern Textile Bulletin says that in the next three months \$2,000,000 will be spent in new mill construction in the South, and \$2,500,000 in enlargements of plants." All of which goes to show how the Democrats have ruined the country!—Charlotte Observer.

### KEEP YOUR BOWELS REGULAR

As everyone knows, the bowels are the sewerage system of the body, and it is of the greatest importance that they move once each day. If your bowels become constipated, take a dose of Chamberlain's Tablets just after supper and they will correct the disorder. For sale by all dealers.

## INTERNATIONAL SUNDAY SCHOOL LESSON

(By E. O. BELLERS, Acting Director of Sunday School Course, Moody Bible Institute, Chicago.)

### LESSON FOR MARCH 14

#### SAUL GAINS HIS KINGDOM.

LESSON TEXT—1 Samuel, chapter II. GOLDEN TEXT—He that is slow to anger is better than the mighty; and he that ruleth his spirit, than he that taketh a city.—Prov. 16:32.

In order to repay Israel's victory under Jephthah, Nahash the Ammonite demanded the right eye of those bested in Jabesh in Gilead, knowing that the left eye would be hid by their shields and they would thus be incapable of warfare. For Israel to make any covenant with the Ammonites was contrary to God's commands (Ex. 23:32; Deut. 23:3).

I. The Cry of Jabesh, vv. 1-3. This event probably occurred about a month after the previous lesson. It was a proud, haughty demand made of these Israelites. Exhausted and hopeless, they had offered to become servants in order to live. So today we frequently find men willing to compromise with the world and the devil, who only hold them in derision and contempt (v. 2). Compromising Christians are always blind leaders of the blind (Matt. 15:14; 6:32). The demand of Nahash would also bring reproach upon Israel, yet this same king afterwards showed kindness to David (II Samuel 10:2). History records that Emperor Basil II actually sent an army of 14,850 sightless men back to the king of Bulgaria, who died of grief and horror.

II. The Conquest of Ammon, vv. 4-11. Nahash granted the request for a seven days' respite. Here was Saul's opportunity—wrong to be righted and people to be saved. Saul had held his peace since being anointed by Samuel, employing his time in everyday toil and duties (v. 5), for the messengers did not find Saul at home idle. The tidings of this insult were told to the people who lifted up their voices and wept (v. 4). The news of this threatened calamity reached Saul's ears and his conduct effectually put to silence those "worthless fellows" who despised him and had brought no presents at his anointing (10:27). Instead of tears Saul is moved to deeds. Like Cincinnatus and Israel Putnam, he left the plow to take up the sword. Saul did not, in his own strength, undertake to relieve Jabesh, for "the Spirit of God came upon him" (v. 6; see also Judges 3:10; 11:29; 13:25; Luke 24:49; Acts 10:38). This moved Saul to anger, not alone at such an evidence of cruelty, but more at the contempt Nahash had for God and his people. Saul associated himself with Samuel, the man of God, and summoned the nation of Israel to his side.

The Holy Spirit gave Saul clear assurance of a call from God, and he responded with unquestioned faith (Rom. 8:31). The people responded with great rapidity, for the fear of God came upon them also. We have the good news of a better deliverance from a more subtle foe to proclaim in the present age. They all resorted to Bezek, west of the Jordan. The messengers returned bearing a message having two meanings (v. 10), and that helped to keep Nahash ignorant of Saul's actions on the other side of the river. Dividing his army into companies Saul attacked the enemy "in the morning watch," and completely overwhelmed them and put them to rout. As the Ammonites had refused to show any mercy, they in turn were judged unworthy of mercy (v. 11, see also James 2:13; Matt. 7:2).

III. The Crowning of Saul, vv. 12-15. Saul's victory so impressed the people that they demanded to know of Samuel who it was that had refused him as king, desiring to put them to death. Saul showed his wisdom by not permitting such a course of action. Many today refuse God's divinely appointed king who will yet be glad to acknowledge him (Luke 19:27; Phil. 2:10). In the next place Saul did not claim credit for the victory, for, said he, "The Lord hath wrought deliverance in Israel" (v. 13 R. V.). All real victories come from God (Pa. 44:48; I Cor. 15:10). This was the true kingly spirit. Saul reaped the reward of his humility, his forbearance, courage and activity in the loyalty and pride of the people. Samuel gladly shared in the success of Saul and led the people to Gilgal for the crowning ceremony. This was the place where Israel had first encamped under the leadership of Joshua and where the twelve stones from the river had been set up as a testimony to God's real presence and deliverance.

Saul had natural and physical characteristics calculated to make him a great and useful king—self-restraint, modesty, military invention and a capacity for leadership.

He was shrewd, patient and generous. He thus stood on the threshold of his kingdom with the possibilities of untold usefulness and blessing.

We are "kings and priests unto God." He has ushered us into his kingdom. Power, usefulness, influence, helpfulness, victory over sin are before us. "Napoleon said that his nobility dated from Arcole and Marengo. May ours date from the victories of love over the evil within us and in the world." "This is the victory that overcometh the world, even our faith" (I John 5:4).

### WHY IT SUCCEEDS

Because It's For One Thing Only, And Asheboro People Appreciate This. Nothing can be good for everything. Doing one thing well brings success. Doan's Kidney Pills are for one thing only.

For weak or disordered kidneys. Here is Asheboro evidence to prove their worth. Mrs. C. H. Rush, Academy St., Asheboro, says: "I used to suffer from kidney and bladder trouble and there was a lot of uric acid in my system. After taking a few boxes of Doan's Kidney Pills, my kidneys acted right and my system was purified. Now, whenever I think my kidneys aren't doing their work just right, a few doses of Doan's Kidney Pills overcome the trouble." Price, 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Rush had. Foster-Milburn Co., Props., Buffalo, N. Y.

Last year's wheat crop in the United States, aggregating about 900,000,000 bushels, was the greatest produced by any nation in the history of the world. Five years ago, Russia, with an acreage one-third larger, came within 117,000,000 bushels of this enormous total, and our own next largest crop was 137,000,000 short of the last year's crop.

### AN ORCHARD ON EVERY FARM

Though records show that the fruit-growing industry was important before the time of Christ, it was not until the latter half of the Nineteenth Century that scientific knowledge revolutionized the industry. With present knowledge available, there is no reason why every farmer who owns even a small plot of ground should not have an orchard and provide himself and family with apples and other fruits, which form such a valuable class of energy forming foods. Fruit should be found on the table, in some form, every day in the year, and it can be easily raised at home. Yet there are many farms in the State without absolutely no fruit trees or else only a neglected orchard.

In their desperation to raise money crops our farmers have neglected their table as well as the happiness of their children. It is the nature of boys and girls to like apples, peaches, plums, cherries, figs, grapes and in fact all sorts of fruits.

One of the greatest errors made by the average farmer, who has tried fruit growing at all, is the poor judgment exercised in selecting varieties. An orchard with a dozen apple trees, all of which ripen at the same time, no matter how good the variety, is not a good selection. The housewife will be rushed trying to save the fruit in from a few days to a few weeks, and that generally during the hottest weather. Even after all her faithful efforts some is almost sure to go to waste. The apples and peaches should be selected so as to furnish ripe fruit from May until October, (for a list of such varieties write to the State Department of Agriculture, or some reliable nurseryman.) In addition to giving fresh fruit so much longer this will prolong the canning season, thus making the work lighter during the hottest weather, and making it possible to accomplish so much more.

In many families fruits are thought of as food accessory—something to be indulged in only by those living in luxury—having no real value in itself. This however, is erroneous. In a bulletin issued by the United States Department of Agriculture, value of the energy constituents of fruit are much. For example, 1,000 calories of energy generated from whole milk costs 10 cents; the cost from figs approximately the same, and even the cost from apples only seven cents buying as much food energy in apples as 10 in milk.

For the farmer who has not already a good orchard the best time to act is now. With the European war in progress, we need to cast around for something besides cotton. When our fruit trees begin bearing, after preserving an abundance for home consumption, our city cousins will be glad to relieve us of any surplus about New Year, and pay for it in the bargain.

### A Wonderful Healing Influence in Kidney Troubles

A year and a half ago I was taken with a severe attack of kidney trouble that pained me to such an extent that morphine had to be given me. Was attended by a doctor who pronounced it as Stone in the Bladder and prescribed Lithia Water. I took Lithia water and tablets for some time and received no relief from them. I stopped taking medicines for some time, later having some Swamp-Root in the house I decided to try it and felt much relieved. While taking the second bottle commenced to pass Gravel in urine until I had passed in all at least half a dozen or more and have not suffered the slightest since—and in all have taken one bottle and a half and feel very grateful to Swamp-Root.

Yours very truly,  
H. W. SPINKS,  
Camp Hill, Ala.

Personally appeared before me this 16th day of August, 1909, H. W. Spinks, who subscribed the above statement and made oath that the same is true in substance and in fact.

**POTASH**  
is food for thought as well as for crops this year.  
When shipments were interrupted by the war, it was estimated that there was enough Potash on hand in the United States to provide two and three per cent Potash in mixed fertilizers for this spring's trade. Some manufacturers had more than enough for these percentages.  
Since then minor sources of Potash have been fully utilized, and additional shipments from the usual source are still being received. The supply is below normal, but this need not prevent farmers securing some Potash in their fertilizers, nor should it lead farmers to decide not to use fertilizers.  
There is no reason to return to the out-of-date goods without Potash, although some authorities may try to "wish" them on us. We have not used enough Potash in the past. The largest amount of Potash was only one-seventieth of the Potash taken from the soil by our 1914 corn crop and only one-fiftieth of the Potash lost every year in drainage water.  
Spring crops use from two to ten times as much Potash as Phosphoric Acid. Get as much Potash in the fertilizer as possible. A few firms are offering to furnish from four to ten per cent.  
There is no substitute for Potash. It may be harder to get just now, but POTASH PAYS.

Acid soils yield poor crops. Lime corrects the acidity and makes fertilizers more effective. Many of your crops need Lime directly as a plant food. Not only legumes, but Corn, Cotton and Grain crops need Lime. The value of agricultural Lime depends on two things—the amount of Carbonates and the fineness of the grinding. We guarantee from 94 to 95 per cent. Carbonates, and the sample we shall be glad to send you will show the mechanical condition.
