SCHOOL GROUNDS IMPROVED

The Committee Expresses Thanks for Help.

School Grounds Committee ishes to expres its appreciation of the kindly response made by so many to the needs of the school grounds The lifen of soliciting any contributions whatever was entirely due to the voluntary offer of one of our citizens, always generous beyond his means, to head a subscription list to assist the Woman's Club in its effort, if nincteen other men would follow his example. Soliciting funds for ork-no matter how fine or beneficial to the community-is always exceedingly and eminently undesirable, and one is not always met with the kindly greeting which costs nothing, but means as much as the money responses to those undertaking the thankless job.

The offer necessitates the condition. out only those were expected to contribute who were able, and truly appreciated the opportunity to assist in a matter of first community interest.

In explanation of the work being sione, would say it was recognized in the winter of 1910-11 that no plans but those of an acknowledged landscape architect would meet with general approval, and after repeated ef-forts such plans were secured, though it seriously deploted our small funds, From that time efforts have been made to create a fund to carry out the plans, but with all our efforts they have not met with the present needs The barren condition of the grounds Macon visited Mrs. Eli Brown last has been an eye-sore, but the futility of doing any little work before this that would have been turn up when the water works were installed prevented any effort.

For those interested in the financial ondition of the Woman's Club we hoped that he will recover. would explain that after paying out commencement from May 13th, which is a standard of the play of the walkway and the hauling, etc. from the general treasury for the excavating there remained the planting around the front of the building, the buying of some additionel shrubs called for by our plans, the building of the granite retaining wall, the cement gutters, besides furnishing the material. By that time our general fund was limited to about fifty dollars, when hundred more was needed, and that situation, after the general outline of the plans could be seen, was what appealed to the citizen above referred
