### AN OLD BOOK

Excellent Specimen of Book Binder's Art Produced in Asheboro Many Years Ago.

Mr. Sam Alldridge, Randleman, Rt. 1, has kindly sent the editor of The Courier a copy of Swaim's "North Carolina Executor," a book prepared by Benjamin Swaim, a lawyer and founder of the Greensboro Patriot, and printed in the office of the Southern Citizen, Asheborough, N. C., 1841. The book contains "The statutes and common law of this State, together with the decisions of the Supreme Court, and all the necessary forms and precedents" for the use of executors and administrators; and was, no doubt, a most useful work in its day.

The copy sent to The Courier editor is an excellent product of the book binder's art, being well-made and neatly, substantially bound in leather. The printing is also good; and though printed and bound in the village of Asheborough, 74 years ago, the work of the book would do credit to a modern office having all the up-to-date improvements.

### EVER SALIVATED BY CALOMEL? HORRIBLE!

Calomel is Quicksilver and Acts Like Dynamite on Your Liver.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bowels and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel, just remember that your druggist sells for fifty cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.
