

MEALS ARE NEVER LATE

WHEN you're behind with your work, with only a few minutes in which to get supper—then the handy NEW PERFECTION Oil Cookstove helps you to hurry.

It lights at the touch of a match, and cooks rapidly like a gas stove. It regulates high or low, merely by raising or lowering the wick. It is easy to operate, easy to clean, easy to re-wick.

Sold in 1, 2, 3 and 4 burner sizes by hardware, furniture and department stores everywhere.

NEW PERFECTION OVENS bake better because a current of fresh hot air passes continually over and under the food—drying out the steam, and preventing soggy-ness. This is an exclusive NEW PERFECTION advantage.

Use Aladdin Security Oil or Diamond White Oil to obtain the best results in oil Stoves, Heaters and Lamps.

KNOWING THE STATE

Exhibits at the State Fair Will Show What All Parts of the State are Doing

It is surprising how people all over the State want to know about other parts of the State. The Publicity Bureau, organized recently in Raleigh, will undertake to give people this knowledge. Every county and every town is asked to take advantage of the opportunity offered at the State Fair this fall to show the world what it is and what it does.

Mr. Bion H. Butler, of Southern Pines, has the following to say on the subject:

What do you make in your county? What do you raise on the farm? I know you have a good county, a better county than you suspect. But a lot of people do not know.

Now at the State Fair this fall prizes of liberal sums are to be offered for the county making the best agricultural display. Your county should be in that game.

We are all anxious to get publicity for North Carolina, and that means every county and township in the State. Moore county is going to be on hand at Raleigh with something you will be interested in seeing. Don't let the sandhills make a better showing than you. Get the thing under way right off. Suppose you have a meeting Saturday at the court house or school house, and discuss the subject. Let us show the Publicity Bureau that we have something to make public.

Some people spend so much money ready getting ready for a vacation they never have enough left to get there with.

Report of the Condition of THE BANK OF RAMSEUR At Ramseur in the State of North Carolina at the close of business June 23, 1915.

| Resources | |

A. H. THOMAS,
Directors.

Subscribed and sworn to before me, this 2nd day of July 1915.
H. B. MOORE,
Notary Public.
My commission expires November 20, 1916.

NOTICE

It appearing to the Board that the Board of Commissioners has from time to time in the past exempted sundry persons from the payment of poll tax on account of poverty and infirmities, some for specific years, others until further order of the Board, and still others generally, and still others for good and all; and whereas, it appears to the Board that some of the persons so exempted are no longer infirm and still others are no longer poverty stricken and are, therefore, no longer proper subjects for poll tax exemption; and whereas, it further appears to the Board, with reference to other persons, there is sufficient evidence on hand to know whether or not the same should be exempted from the further payment of poll tax, and information cannot readily be obtained concerning them without an unreasonable amount of trouble and expense in any other way than by requiring them, if they still think themselves fit subjects for exemption and desire to obtain same, to come before the Board and make application thereof.

NOW, THEREFORE, It is ordered by the Board that all persons, citizens, residents or taxpayers of Randolph county who have heretofore been exempted from the payment of poll tax on account of poverty and infirmity shall nevertheless hereafter be required to pay poll tax according to law for the year 1915 and all subsequent years unless and until they shall hereafter make application to the Board and be exempted by the Board from the payment of poll tax according to law; and such exemptions heretofore granted are hereby recalled and revoked, and the list takers and the clerk to this Board in making out the tax lists and the computation of the taxes for the year 1915 and subsequent years shall charge all persons with poll tax for which they are otherwise liable, according to law, notwithstanding all exemptions as aforesaid heretofore granted.

July 12, 1915.
W. J. SCARBORO, Chairman.

HEALTH NOTES

Nineteen Thousand Vaccinated

The record shows that up to July 14 over nineteen thousand people in North Carolina have been vaccinated against typhoid fever. This number is the record for the first three weeks or just half the time of the anti-typhoid campaigns that are now being conducted in the five counties by the State and county boards of health. The one day vaccination record was broken in Fayetteville, when two doctors vaccinated 1,416 people, which is the greatest number for two men on record.

Must Take Their Own Medicine

"Practice what you preach" is one of those homely bits of advice which is handed out to public health workers. This advice is needed by many of them. For instance, the other day, "Pat", the famous anti-typhoid cartoonist whose clever work and whose advice through his cartoons has been inducing scores of people to take the anti-typhoid treatment as a preventative of typhoid fever, wrote the State Board of Health: "I have been knocked out for the past week and am still indisposed. Doc says 'fever,' probably so. It's anti toxin for me as soon as I get able. Really had planned taking it just when I got knocked out."

Health at the Exposition

The subject of health is not failing to attract attention at the Panama-Pacific Exposition. The Survey says: "The health material is especially fine. There are no exhibits so numerous and so full of popular instruction, no sets of charts, screens and models, whose message is so extensive and intensive as these that tell of the ways to diminish disease and to increase popular vitality." Of the subjects treated the Survey mentions personal and public hygiene and sanitation, patent medicines, school hygiene, open air schools, the prolongation of life, hookworm disease, the care and prevention of tuberculosis, mosquitoes, yellow fever, malaria and child welfare.

Public Spirit in Practice

Dr. Matt R. Shephenson, of Seaboard, Northampton county, a member of the county board of health, is rendering his people a service long to be remembered. He championed the progress and success of the anti-typhoid campaign that is now being conducted in his county. At the beginning of the campaign he put at the disposal of the dispensary force the use of his own car, equipped with a chauffeur, for the mere running expenses of the car. He is visiting the homes of the people himself, and giving all the aid he can to the campaign.

Lee County to Fight Typhoid

Lee county is going to fight typhoid and fight it now. This county recently made application to the State Board of Health for its help. But Lee county did not see where it could wait. Consequently she at once voted sufficient means for conducting such a campaign and organized her forces independently. Dr. Lynn McIver is the physician in charge.

Hay and Hogs vs. Health and Happiness

North Carolina has sixty-three whole time farm demonstrators. She has only ten whole time health officers. Do these facts and figures indicate that her progress and prosperity along the lines of health and agricultural developments are in the same proportion? The State Board of Health believes they do. They believe the State has progressed over six times as far on scientific farming as it has in public matters and health interest. Her people are not yet interested in health work to the extent they are in other matters—her material prosperity for instance. They don't yet see where money spent on the prevention of disease is worth more than money spent on sickness and death. They haven't seen yet that whole time health officers are as profitable as whole time farm demonstrators.

AN ASHEBORO WOMAN'S EXPERIENCE

Results Tell the Tale.
Can you doubt the evidence of this Asheboro citizen.
You can verify Asheboro endorsement.
Read this:
Mrs. Hugh J. Burns, N. Fayetteville, St. Asheboro, says: "Kidney complaint began with pains across the small of my back and later, I had dull headaches and dizzy spells. The kidney secretions became disordered and irregular in passage. After I had used Doan's Kidney Pills a short time, I felt better. Six or eight boxes cured me of the attack and now I have little trouble from my kidneys." (Statement given January 2, 1908).

OVER SEVEN YEARS LATER
Mrs. Burns said: "Whenever my kidneys are the least disordered, a few doses of Doan's Kidney Pills give me quick relief."
Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Burns had. Foster-Milburn Co., Props., Buffalo, N. Y.

THE KIND OF FELLOW THIS TOWN NEEDS!

This town needs a hustling fellow, young or old, as an official Civic Booster. He must have a square jaw bone and a stiff back bone. He must be a "Go-Getter." In the first place he should form an organization for fostering civic pride. We have a good town, but it must be made better, and the Civic Booster must be the man to lead the procession. Have you ever seen a town with well-paved, clean streets, a good water-works system, good street lighting, a fine health record and an air of prosperity that wasn't proud of some citizen who was the prime mover in every improvement? It isn't going to do us much good to have the best town in the State if we don't take our coats off, get together and work like a traction engine to keep her so. The trouble is that most of us stand back and wait for the other fellow to take the lead. Well—the time's come! Who's going to take the lead? Who'll be the Go-Getter? Will you? The time is ripe for the Go-Getter to step out, shuffle off his coat and start in. He must be a man who knows how to do things. He ought to know how yards should be cleaned and be able to persuade each owner or renter to keep HIS own clean. If each one will keep his yard clean, we'll have a clean town. There must be concerted movement, with the Go-Getter in the end showing folks how to do it. Whole blocks should have nice grass esplanades, and the grass should be kept mowed. Yards should blossom with flowers, so this town will look like a huge flower garden. Trees should all be alike in a block, and set in a straight line. If grass and flower plots are put into the middle of the street, the same uniformity should obtain. Property holders should form neighborhood clubs, with the Go-Getter telling them how, and see that the designs and plans are uniform. When we "Swat the Fly" we ought to do it together. When we oil the water puddles to keep out the mosquitoes, there should be an united attack. These things make for health, and health is the basis of all civic improvement. In short, the Go-Getter ought to be a fund of information and dynamo to electrify his associates and get things done. He ought to study the good points in other towns and adapt them to our town. This paper will get behind the movement and shove. What we want now is the Go-Getter! Are you the man?

Children Cry FOR FLETCHER'S CASTORIA

THE PRESS CONVENTION

It was the first experience of the North Carolina editors at going into religious retreat. They breathed the atmosphere of staid and prim Old Lady Montreat and abided her rules and regulations for three days and the first moderate enjoyment at the beginning grew into absolute delight and admiration at the last. The women in the party did not bring their bathing suits from the trunks, because these suits were not cut after the fashion prescribed by Montreat etiquette; there was no need for the trick which pulls the metal stoppers from bottles—for bottled goods, either carbonated or flat, are contraband at Montreat—and after the supply of cigarettes that was brought in on the clothes of the men had been exhausted, the air was unpolluted by cigarette smoke. But there was tonic in the air, a fine hotel, splendid fare, served by young women, and there was music, teas and classic entertainment. The editor who did not come out of the retreat feeling a better man, must be put down as unreckonable.—Wade Harris, in Charlotte Observer.

MORE THAN 200 FIRMS IN WOOD WASTE EXCHANGE

Since the inauguration of its Wood Waste Exchange, last April, the Forest Service has been requested to list 147 mills and factories as having waste material for sale, while during the same time 76 other wood-using concerns have asked to be listed as desiring to purchase waste of a wide range of species.

The Forest Service has just been notified by a large novelty manufacturing concern in New York City that the Wood Waste Exchange has enabled it to obtain its raw material at a considerable saving of money.

The Forest Service desires the co-operation of all manufacturers of small wooden commodities and invites them to list their requirements with the Wood Waste Exchange. There is no charge for this service.

EVER SALIVATED BY CALOMEL? HORRIBLE!

Calomel is Quicksilver and Acts Like Dynamite on Your Liver.

Calomel loses you a day! You know what calomel is. It's mercury, quicksilver, Calomel is dangerous. It crashes into your bile like dynamite, scumming and sickening you. Calomel attacks the bowels and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 30 cents a large bottle of Doan's Liver Tonic, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without affecting you up inside, and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Doan's Liver Tonic straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

HALF OF ALL FOREST FIRES ARE PREVENTABLE

According to the United States Forest Service more than half the forest fires in the United States are due to carelessness or other preventable causes, starting from campers, railroad locomotives, brush burning, incendiaries and saw mills. Forest fires destroy millions of dollars worth of timber and other property every year, and in some cases considerable loss of life.

CONTRADICTION SCIENCE

[John Burroughs, in the Atlantic Monthly.]

The infinitely little and infinitely vast alike baffle the understanding, developed as it is by our concrete finite life. Creation is typified by the sphere. A circle is a straight line that at every point ceases to be a straight line, and the earth's surface is a plane that every moment ceases to be a plane. Following the surface of the earth does not carry us to the under side, because there is no more an under side than there is an upper side—there is only a boundless surface. But if it were possible for us to build a globe on the globe, as large as the one we inhabit, would it not have an upper and under side?

The rain causes the grass to grow, and the sun causes the snow to melt, but we cannot apply the idea of cause, in this sense, to Nature as a whole, but only to parts of Nature. Gravitation caused Newton's apple to fall, but what causes the earth to fall forever and ever, and never to fall upon the body that is said to attract it?

PARKER, N. C. MAN GETS QUICK RELIEF

W. R. Davenport Better After First Dose of Remedy.

W. R. Davenport of Parker, N. C., long suffered from a peculiar malady of the stomach. He sought treatment with but little relief. At times it seemed that he would have to give up hope. He took Mayr's Wonderful Remedy and found immediate benefit. He wrote: "For years I have suffered from a disease which puzzled doctors. They termed it catarrh of the stomach, saying the only hope would be a change of climate, and that in all probability I would never get well. Then I heard of your remedy. One bottle gave me instant relief. It made me feel like a new man. Your full course of treatments has about cured me. Several of my friends have also been cured."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.
