MORE GOLD FROM ENGLAND

Great Britain has sent to the United States just now by way of Halifax, Nova Scotia, nearly \$50,000,000, guaranteed every step of the way, and secured by the gold and securities which it has sent to New York last Sunday. Of the amount sent \$10,000,000 was in gold coin which America had shipped to England in years of trade indebtedness to that country. The remainder was in securities. On August 19, of this year, there were also nearly \$50,000,000 and \$19,554,200 of that amount was in gold coin which had been locked up in the vaults of the Bank of England.

The total of the two shipments of coin is \$39,554,200. Besides this amount, according to U. S. Grant, Acting Assistant Treasurer in charge of the Sub-Treasury, there has been received from Canada \$133,000,000 gold since the first of the year, most of that having been taken from the Bank of England's gold reserve at Ottawa. The grand total of \$172,000,000 sent here by and through Canada compares with \$90,000,000 sent from New York to the account of the Bank of England at Ottawa in the early months of the war when the shoe was on the other foot.

Concurrently with the arrival of the consignment on last Sunday in New York, emphasis was given to reports that the Bank of England, acting as agent for France and Russia, as well as for the British Government, was engaged in sending here some \$250,000,000, so as to stabilize exchange before the British and French financial envoys, new on their way, or about to sail from the other side, make new arrangements for British and French credits.

While New York bankers do not know the amount of British and French gold on its way to this country, they were informed last week of the shipment of \$50,000,000 gold from Paris to London. They have not asked for the gold shipments; on account of the plethora of funds in this country they would prefer payment of foreign indebtedness in some other way. Similar reports have it that \$15,000,000 gold is on its way from Australia to Seattle or Vancouver, and that shipments may be expected from South Africa, which is producing gold at the rate of about \$14,000,000 a month.

LETTER FROM MR. UNDERWOOD

We take liberty of quoting a letter from Mr. Underwood to the editor of The Courier. Mr. Underwood is in the office of the United Drug Co., preparatory to traveling for that company.

Boston, Mass., Aug. 28, 1915.

Dear Mr. Hammer:

Secretary Daniels made a great hit here this week. He made a speech in which he advocated a greater navy and "preparedness" for war. I have met many people who know North Carolina through Pinchurst. Our State is regarded as a great State. In all the theaters I hear evidences of the great popularity of Woodrow Wilson. He is the idol of the American people. His war policies are discussed here in the hotels and elsewhere and he is easily the "God of the Nation." To my surprise I heard Dixie applauded in a theater and the South is no longer received as the "Dark Region."

I will be here a week yet.

There are five thousand employees of the firm.

Yours truly,

W. A. UNDERWOOD.

IT MUST BE TRUE

Asheboro Readers Must Come to That Conclusion.

It is not the telling of a single case in Asheboro, but a number of citizens testify. Endorsement by people you know bears the stamp of truth. The following is one of the public statements made in this locality about Doan's Kidney Pills: S. W. Presnell, liveryman, S. Fayetteville St., Asheboro, says: "I used to have bad spells with my back and my kidneys acted too freely at times, then again they were constricted. I felt restless and were nervous and had dizzy spells. I have taken Doan's Kidney Pills off and on for ten years when I have had these attacks and have always found them just as represented, getting quick relief. When a cold affects my kidneys, Doan's Kidney Pills never fail to help me right away."
