

The Courier

PUBLISHED EVERY THURSDAY

WM. C. HAMMER, EDITOR

Asheboro, N. C., September 9, 1915.

Every citizen should work to build up Asheboro, should work to build up both town and county.

Any people who really want it can develop a most excellent social life in the country.

Good roads and Ford automobiles have made Randolph one big neighborhood. The Ford is the machine in use everywhere and Randolph will soon have a good system of roads.

GETTING ON THE MAP

Randolph county has been on the map educationally for years, but after a good roads campaign of twenty years the old county is just beginning to get to appreciate good roads.

The fact that this section of the State has one of the best climates on earth has not been noised abroad.

We need a vigorous advertising campaign to let the people of the North and the Northwest know that this is, indeed, a Promised Land.

What we have has not been made known. This can be done only by an advertising campaign. It will take money and time, and some brains will have to be mixed with the plan.

People are not coming to live with us unless they are invited, and such a way as to make them feel that they are welcome, but that they can live on the fat of the land if properly tilled.

There is no reason why there should not be a large and steady stream of settlers turned this way.

GREATEST WHEAT CROP

The greatest wheat crop in history was raised this year. The yield is unprecedented, and will cause disappointment to a horde of speculators who would greatly profit by reason of the war.

The total world crop of 1915 wheat is now estimated by American and English agricultural officials at 518,500,000 quarters, which equals 248,000,000,000 pounds or 129,625,000 tons, as against 456,500,000 quarters in 1914. A quarter is 480 pounds.

Based in the inquiries of the London, Grain, Seed and Oil Reporter, accepted by the London Statist as authoritative, the wheat yield of the principal countries this season, as compared with last, is as follows, in quarters:

Table with 3 columns: Country, 1914, 1915. Rows include United States, Russia, India, France, Canada, Italy, Argentina, Hungary, Germany, Spain, Roumania, Australasia, British Isles, Austria, Bulgaria, etc.

The figures for France show a decline because they do not include the yield in the ten northern provinces in the hands of the Germans, who planted and are harvesting the crops there themselves and sending the surplus, if any, to Berlin.

The London Statist says that Canada, India and Australia can more than supply Britain's wheat needs this fall. The Canadian wheat surplus will be across the ocean by October, and the Australian will be there by next January.

Table with 3 columns: Country, 1914, 1915. Rows include United States, Russia and Roumania, Canada, Argentina, India, Australasia, Spain, North Africa.

Extraordinary efforts are under way by the Canadian railroads and lake lines to move to the seaboard, and thence to Britain and France, the new Dominion grain crop.

Fruits, too, have been yielded by

COMMISSIONERS' PROCEEDINGS

The board of county commissioners of Randolph county met in regular session in the court house Monday morning and transacted business as follows:

A Complete Line of Clothing. Our buyer has just returned from the northern markets where he bought the most complete and extensive line of Fall and Winter Suits that has ever been seen in Asheboro. Here are some of the best bargains ever offered in suits--men's and young men's, boys' and children's suits. We have about 50 tailored suits ranging in value from \$18.00 to \$35.50, which we are offering, while they last, from \$12.50 to \$18.00. We also have an elegant line of regular stock clothing ranging in value from \$9.50 to \$18. When you get directly in front of our store stop. After you stop come in. We do not want a moment of your time. We want you to see our new suits. We must show you our smart styles. The choicest models are here. Wood Cash Clothing Company

DANIELS HAS DONE THINGS

Winston-Salem Sentinel.

It may be said of Josephus Daniels, as was said of Grover Cleveland, that we can "love him for the enemies he has made."

He has incurred the opposition of Hearst, and of the armament ring. He is not acceptable to the cliques of official Washington.

In a paper contributed by James C. Hemphill to the North American Review some statements are made as to what Secretary Daniels has done.

Beginning with the assertion that the Secretary has "done things," Mr. Hemphill refers to the recommendation of Mr. Daniels that Congress make provision for the construction of twenty-six submarines at a cost of \$16,260,000, and for the building of five dreadnaughts at a cost of fourteen million dollars each. Congress acted on his advice.

Under Mr. Daniels' administration there is an increase of 244 per cent. in the number of mines, and these additional mines have been manufactured at a government station at a saving of \$178,750. The stock of torpedoes has been increased 90 per cent. He has saved the government \$150,000 in the cost of manufacturing powder.

If Mr. Daniels had played into the hands of the men who manufacture armor plate and powder, he would not have been attacked by Hearst and his other enemies.

This government has an honest man at the head of the navy. And he is wise enough to disregard the attacks which are instigated by malice. At least, he does not permit them to worry him.

INSPIRATION IN MUSIC

Real music comes from an inspiration but musical inspiration can hardly come from an inferior piano. Discriminating buyers prefer to buy pianos that are artistically made. It is this capacity in the York Piano to interpret the mind of the genius in music that has made the York Piano famous. Come to the factory demonstration and see these masterpieces of the piano craft at the warehouses of A. N. and E. M. CULLOM, Asheboro, N. C.

Cascade Linen Box Paper, 48 envelopes and 48 sheets paper ruled and unruled. Great value 25 cents. Standard Drug Co.
