WM. C. HAMMER, EDITOR

Asheboro, N. C., September 23, 1915.  
 Representative Claud Kitchin, when in Washington last week, declared he would have nothing to say on the tariff or other national questions until they came up and were thoroughly threshed out among the committee members.

The Chatham Record has an article in the last issue correcting Hon. Francis D. Winston's statement as to the arrest of George W. Kirk. Col. McAlister made this arrest. The Courier will publish Maj. London's article in the next issue of The Courier.

Every parent should by co-operation do their best to make the best possible out of the conditions that exist in all the schools. Not only the parents, but every pupil and every citizen should earnestly and patiently co-operate with the schools to make the coming year better than any year in the past.

The board of education of Iredell county in our opinion acted wisely in passing a resolution preventing the smoking of cigarettes by any teacher during the school hours or on the school grounds. Any one who is so unfortunate as to be addicted to the habit of smoking cigarettes should not permit anyone to see him smoke anywhere. He should go off and hide while so engaged.

Several Southern newspapers are calling attention to the fact that John Watson, vice president and general manager of the Luther Burbank publications, is in the South demonstrating the importance of growing okra to be used in making paper pulp. It is claimed that the stalk and leaves of the okra plant produces a higher grade of paper than wood pulp and is cheaper to produce than wood pulp. The Wilmington Star calls attention to the matter and encourages the idea stating that the cotton stalk is also admirably adapted to the production of paper.

Mr. Thomas E. Owens, former representative from Sampson county, and editor of the leading Republican paper in that section of the State, is reported as expressing doubt whether it will be worth while for any Republican to offer himself in the next campaign as a candidate against the Democratic officeholders. He thinks the State and the Nation are on the eve of an era of great prosperity. Mr. Owens says he has not sold any of his last year's crop of cotton, and that he expects to get 15 cents for both last year and this year's crop of cotton. Of course Mr. Owens thinks this unusual prosperity will come without reference to any influence of the Democratic administration.

North Carolina is in the public eye now. Everything is going our way. Randolph is building roads so fast, and such good roads at so little expense, that the whole State is talking about us. We are on the map at last. Things are going our way.

A long time we were busy on improving our schools, but it took a long time to get our people awake to the importance of good roads. Randolph at the present gait will soon be the best of all the counties.  
 Our progress in farming is seen on every hand. Farmers everywhere are improving their farms, and farming is rapidly becoming a profession of which every farmer is proud.  
 Dragging along in a haphazard way is a thing of the past. Our folks are up and about. Let all join hands and vigorously push the old county ahead of all others.

Mr. T. C. Worth, formerly of Asheboro, but who has been engaged in the business of real estate, insurance and loans, the name of the corporation being the Griswold Real Estate and Insurance Company, and it did a most thriving and successful business. Since January Mr. Worth and associates organized the Durham Loan and Trust Company with a capital stock of \$100,000 paid in. John Sprunt Hill is president and T. C. Worth is the vice president and the active manager of the business. Among the directors are George W. Watts, B. L. Duke and E. J. Parrish. The increase in the deposits in the banking department the first ninety days being \$41,800.00. This is one of the strong institutions of Durham and starts off well.

## SOPHIA ITEMS

Mr. J. E. Ingram and family, of Salisbury, were week-end guests of Mr. Ingram's father, Mr. W. E. Ingram.

Several of our young people attended the protracted meeting at the arbor Sunday.

## THE CAMPAIGN FOR HARTNESS

On the ground that if the Governor of North Carolina should rotate between the east and the west every four years, the rotationists are making progress throughout the State in advocacy of the claims of Mr. J. A. Hartness of Iredell for Secretary of State. They are saying it is only fair that there should be rotation in the Secretary of State's office at least once in 16 years. From the reports coming to The Observer the past week, Hartness has been making strong gains not only throughout the western counties, but in the east, and his candidacy has developed into formidable proportions. It is not likely that a third Candidate for this office will materialize and the race will be one to a finish between Hartness and Bryan Grimes, the incumbent. The growing talk of Hartness was the political feature of the past week in North Carolina.—Charlotte Observer.

## DREAMED OF FINDING GOLDEN SINGLE TREE

Recently while walking along the road across Cicero Parrish's farm in Tabernacle township, Randolph county, Harris Hill saw gold sticking in a stone in the road. He went and told Mr. Parrish and he and Mr. Parrish dug and found gold in the stone and loose in the gravel formation.  
 Young Hill dreamed that night that he found a golden single tree.

He went and dug more and has gone down 7 feet, and it gets richer as the shaft goes deeper. A vein has been found about a foot wide which is very rich.  
 The find is two or three miles southwest of Hoover Hill, and is, no doubt, on the same vein as the Hoover Hill mine.

Mr. W. C. Hammond and others have an option on the mine.

Rev. C. E. Stedman, of Farmer, passed through Asheboro Monday en route to Lexington where he will assist in a series of meetings at that place this week.
