**SAD PICTURE OF MEXICO CITY**

Terrible Conditions Prevailing Before Evacuation by Gen. Gonzales. Conditions in Mexico City the 17th bordered on the desperate. Thousands of the hungry wandered about the streets searching for food, which was not obtainable because merchants refused to take paper money. Gen. Gonzales' decree nullifying the \$50,000,000 issue in circulation when he entered the city has not been followed by an issue of new money. The 16th mobs of women paraded the streets, looting bakeries, markets and pastry shops, until they were dispersed by streams of water from fire hose. Gen. Villela and seven other Zapata officers were executed that day on charges of rebellion. Gov. Herrera, his staff and a number of other officers were awaiting court-martial on the same charges. A mass meeting of representatives of the foreign colonies was held the 17th and an appeal for relief and protection was issued to the government and the people of the United States. The appeal, which will be forwarded to Washington, says in part:

"A committee representing American residents of Mexico City appeals to the government and people of the United States for relief and protection on behalf of all foreign residents in Mexico and the great majority of Mexicans, who are suffering indescribable hardships through prevalent conditions of want, disorder and violence. President Wilson's recent warning to the Mexican leaders that their differences must be composed within a 'very short time' has gone unheeded, and conditions steadily are growing worse. No Red Cross supplies, except medicines, have arrived here. Even people with money cannot buy food. There has been looting of markets and rioting with resultant deaths from the fire of soldiers. The city's chief water supply is shut off. Countless thousands are suffering from hunger; supplies are cut off, commerce and industry are paralyzed. Stores have been closed for a week awaiting announcement as to money acceptable. 'Fresh reports have been received by the committee of murders, robberies and outrages against foreigners as well as Mexicans throughout the country. In despair, we again appeal for relief for suffering, starving Mexico, powerless to save herself in the agony of destruction by her own unworthy offspring, supplied with arms and ammunition from the United States, the country to which unarmed Mexico looks for salvation.'"

The foregoing was sent from Mexico City just prior to the evacuation by Carranza's army and the reoccupation by Zapata's forces. It was impossible to cable the dispatch from Vera Cruz owing to censorship.

The manufacture of macaroni by the Waldensians at Valdese in Burke county is one of the new industries announced in this State.

**FREE EXAMINATIONS AT STATE SANATORIUM**

Doctors Work Overtime—Capacity Crowded.

The State Sanatorium for the treatment of tuberculosis, under the authority of the State Board of Health, makes free examination for tuberculosis for all persons who desire and who present themselves at that institution. Heretofore, there has been no restrictions as to the day and hour that the public should receive this free service but owing to the large number of people from all over the State who are now taking advantage of these services, a few restrictions have become necessary.

Instead of patients presenting themselves at all times and hours during the day and night, they are requested to write to the State Sanatorium, Sanatorium, N. C., and make an engagement, as only the morning hours of the day will be given to this work. Otherwise, persons may find on arriving the day full before them which will necessitate their returning home and making another trip.

**SECRETARY DANIELS' SUBMARINE PROGRAM**

Secretary Daniels has taken a firm stand in favor of a large increased appropriation for submarines. The Secretary has many friends in Congress who may be depended upon to follow his recommendations. He has the happy faculty of getting more out of an obstinate Congress than any Secretary of the Navy for years. The Washington Post is just beginning to realize how much improvement in the submarine service is due to the activity of Mr. Daniels. He will be able to report to Congress remarkable progress in the upbuilding of the submarine service.

**SOUTHERN RAILWAY NEW TRADE MARK**

The Southern Railway Company has adopted a new and attractive trade mark as shown above. The design "SR" is symbolical to the name of the road and the wording "The Southern Serves the South" is suggestive of the many lines operated by the Southern Railway throughout all of the States south of the Ohio and Potomac and east of the Mississippi river.

There is hardly a city or town of importance throughout the entire South that is not connected with the balance of the South, either directly by the Southern Railway's own trains or by sleeping car lines over other roads in connection with Southern Railway, via some adjacent junction point. On this account the title "The Southern Serves the South" was adopted as being appropriate.

Southern Railway spends about \$200,000.00 a year in advertising and a great deal of this advertising is done in the Northern, Eastern and Western sections of the country so as to attract people into the South, and on all of this advertising matter this trade mark will appear hereafter.
