

# CANS OF TOMATOES FROM ONE-TENTH OF AN ACRE

The Girls' Tomato Canning Club, at the Cross Roads, Coleridge town, have demonstrated beyond a doubt the possibility of Randolph growing tomatoes.

Lucille Ellis has canned from one-tenth of an acre, 925 cans, and Sue Ellis has canned 866 cans the same amount of land, and conservative estimates made by those that have visited these two places, that no less than one thousand cans have rotted and gone to waste because they were unable to produce in time to save them. Any one who doubts the truth of this statement, will be convinced if they will visit Mr. J. A. Ellis, Ramsey Route where they can see the goods and get for themselves.

Misses Sallie and Ivey Cox, who are also members of the same club, have both made good yields, but the number of cans put up by each of them is not known by the writer. The results obtained by these young ladies, and the members of the Boys' Club should be an encouragement to others to put forth greater efforts to produce even larger results than have yet been attained, that is, waiting the application of human skill and labor to cause rather earth yield forth of the abundance she is in store for the blessings of man.

EVERY SCHOOL HOUSE IN RANDOLPH COUNTY SHOULD BE KEPT CLEAN

During the school term each year the school buildings are kept in apple order, but often there is not sufficient care in having them clean at the close of the school. The State Insurance Commissioner is of the opinion that danger of expensive fires could be reduced if school houses were kept clean at close of session.

Commissioner Young has issued the following statement: "Very frequently an investigation has shown that school houses are not in good condition during the vacation period. It seems to be the idea that school houses should be put in order and cleaned up, etc., at the beginning of each term, but at the close of the term it is all right to leave scattered about in the building, piled up in corners and stored in closets any kind of material, such as was used in the exercises, and has accumulated during the season. The result is frequently a fire, started from spontaneous combustion or other causes."

All school committeemen should adopt the rule of seeing their buildings are thoroughly cleaned and put in order at the close of the school term. In this way many buildings will be saved from burning."

DEATH OF MRS. MILLIKAN

Mrs. Mildred M. Millikan, widow of Jacob Millikan, deceased, died at her home in Trinity township, September 29th, 1915 aged 80 years, seven months and fifteen days. She had been in declining health for sometime, and her death was not a surprise to her friends. The deceased was a consistent member of Mt. Vernon M. E. church and was one of the charter members. It has been the pleasure of the writer to have known the deceased since early childhood, having been a pupil of her when a little boy, and for many years have often times visited her in her home, and always received the same motherly greetings. Her life has been a benediction to me. The last time it was my privilege to meet her, she spoke of the end being near, and was patiently waiting the call of her Master. Indeed a mother in Israel has been taken. She leaves three children, two married daughters, and one son not married, and many friends. We will greatly miss her, but we believe she has joined that innumerable multitude "who came out of great tribulation and washed their robes in the blood of the Lamb."

Funeral services over the remains were conducted from the M. E. church by Rev. E. N. Crowder and the remains interred in Hopewell cemetery in the presence of many friends and relatives.

Now, weep not children but trust in God and walk in the way mother trod, then when to the Gate of Heaven you come, she will stand with the angels to welcome you home.

No. 666

This is a prescription prepared especially for MALARIA or CHILLS & FEVER. Five or six doses will break any case, and if taken then as a tonic the fever will not return. It acts on the liver better than Colomel and does not gripe or sicken. 25c

W. K. Carr, 55 years old, philosopher and physician, died Thursday night at his home in Washington, D. C. He was the son of the late Elias Carr, at one time Governor of this State.

# POVERTY'S STATUS

While medical science will hardly fall in line with the assertion of the Chicago minister that poverty is a disease it will heartily, we feel sure, agree with the idea that poverty breeds disease.

Poverty is not a crime—that is generally not a crime against the one feeling its blight; neither need it be a filthy state, because the body can be kept clean under the most trying circumstances, but poverty breeds disease in crowded conditions, where in four or five persons, perhaps, huddle in one room, breathing the same air; in poorly nurtured bodies, especially among the children, and in the hardships of exposure.

While poverty is not a disease it does provide a fertile field for such. The crime of poverty sometimes lies against the shiftless or debauched father but it more often is chargeable to some set of people guilty of oppression, or another set that withhold philanthropy, or society in general that becomes oblivious to surroundings and does little to remedy conditions that gnaw at the mind and emaciate the body.—Wilmington Dispatch.

# DON'T SCOLD, MOTHER! THE CROSS CHILD IS BILIOUS, FEVERISH

Look at Tongue! If Coated, Clean Little Stomach, Liver, Bowels.

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

# HORSES BOUGHT FOR THE EUROPEAN WAR

As was natural to expect, increased orders for horses have been placed in this country. The largest order received in the United States since the European war began was recently filed by the French Government. This order was for 20,000 horses, and brings the total number bought by France from this country up to 50,000. To Italy 8,000 horses have been shipped, and 11,500 more have been ordered. The British Government has purchased 30,000 horses, and has a standing order for 1,200 a week.

# To The Public.

"I feel that I owe the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy a word of gratitude writes Mrs. T. N. Witherall, Gowanda, N. Y. "When I began taking this medicine I was in great pain and feeling terribly sick, due to an attack of summer complaint. After taking a dose of it I had not long to wait for relief as it benefited me almost immediately." For sale by all dealers.

# WATERING TROUGHS

For the convenience of the country people who come to town, watering troughs should be located at different places in the town.

An investigation discloses the fact that Asheboro is the only town in North Carolina with water works that has not watering troughs.

The Courier has often thought of calling attention to this important matter, but has refrained from doing so, because of the fact that the calling of attention to such matters is sometimes misunderstood as an unnecessary criticism. If the matter is not attended to promptly, it may be well for the Civic League, Woman's Club, or some person who has proper regard for a humane disposition toward beasts of burden that cannot speak for themselves, to look into the matter.

# THE EFFECT OF "LIQUID FIRE"

The effect of "liquid fire" was said by an eyewitness to be much worse at short range than that of asphyxiating gases, but it is easier to find shelter from it. The flames carry only a relatively short distance and cannot reach a long way off, as is often the case with poisonous gases. The flame is yellow, with a blue nucleus, and is directed through a powerful air jet. It springs from the ground level and expands into a roaring wave of fire. The flame is said to be very like that of the common Bunsen burner of the laboratory, only it is yellower. The pressure of the air or other gas used to force the inflammable liquid through the jet must be enormous in view of the volume and fury of the flame. Many of the victims died simply from suffocation caused by the intense heat that rolled forward in front of the flames, which did not touch them.

Hon. Thomas M. Waller, one-time governor of Connecticut, is up in arms over the propensity of bathers at New London's Ocean Beach to wear one-piece bathing suits. He says men and women do it, and at times he has been obliged to walk away from the beach to hide his mortification. The same question comes up in a modified form each year at Chicago's public beaches. Does this mean that women are going to throw off the shackles of bathing skirts and demand the freedom of the lower extremities which man has so long enjoyed? Perhaps! At any rate, the authorities each year are finding it harder to enforce the rule now obtaining at most beaches that women wear skirts. Atlantic City demands that the skirts be at least three inches above the knees, and keeps policemen with tape measures at the beaches to see the rule is observed. And the women, some of them, object even to that length of skirt. Mayor Thompson, of Chicago, repealed the rule that women shouldn't be allowed to go bathing without stockings, and now hundreds of them may be seen any afternoon sporting in the waves minus the usual covering. European beaches have always allowed women to wear the one-piece bathing suit, and a well-known woman reformer demanded that the men be forced to cover up in this country and the women be given whatever freedom they might find in the suits men are now wearing. Regulations are the expression of the community's sense of propriety at the time they were made. But when the great mass of humanity finds these regulations becoming irksome and not in conformity with advanced matters, they promptly demand that violations be winked at and eventually the regulations are relegated to the jar with the blue laws.

# BATHING SUITS

The Next Best Thing to the Pine Forest for Colds is—

Dr. Bell's Pine-Tar-Honey which goes to the very root of cold troubles. It clears the throat and gives relief from that clogged and stuffed feeling. The pines have ever been the friend of man in driving away colds. Moreover, the pine-honey qualities are peculiarly effective in fighting children's colds. Remember that a cold broken at the start greatly removes the possibility of complications. 25c.

# GREAT OPPORTUNITY FOR BEET SUGAR

Government experts say that North Carolina has unusual advantage for the production of sugar beets. Indications are that the sugar beet industry is going to be one of the most important in the nation when the proper methods of growing and disposing of the by-products are ascertained.

When well enough developed Uncle Sam, it is said, will be made to produce all the sugar he needs, while the farmers will be given a new source of revenue.

This country up to the past two years had been receiving great quantities of beet sugar from Germany. Practically all of this has been cut off, for during the fiscal year ending June 30, 1915, the imports from Germany of beet sugar were but 255,100 pounds. In 1914 we received 1,459,796 pounds, and in 1913 the great quantity of 1,688,072,928 pounds.

The United States could produce all the sugar it needs and a large quantity to export if the areas adapted to the growth should be utilized. At present approximately four-fifths of the sugar used in the United States comes from outside.

# Biliousness and Constipation.

It is certainly surprising that any woman will endure the miserable feelings caused by biliousness and constipation, when relief is so easily had and at so little expense. Mrs. Chas. Peck, Gates, N. Y., writes: "About a year ago I used two bottles of Chamberlain's Tablets and they cured me of biliousness and constipation and biliousness. For sale by all dealers."

# NOTICE OF LAND SALE UNDER MORTGAGE

By virtue of the powers vested in the undersigned by that certain mortgage deed made by W. F. Brown, H. W. Brown and wife Emily L. Brown on October 8, 1914, recorded in Book 160 page 102 in the office of the Register of Deeds of Randolph county, I will sell at public auction for cash on the

23rd DAY OF OCTOBER, 1915, at 12 o'clock M., at the court house door in Asheboro, N. C., the following lands situate in Randolph county, North Carolina, Randeman township, bounded as follows, to-wit: Beginning on the east bank of Deep River and running north 62 degrees east 22 chains to a stone on the old Hinshaw line; thence north 30 degrees west 11.95 chains to Emily Brown's corner; thence south 62 degrees west 12.50 chains to a post oak; thence south crossing a branch 1.19 chains to a hickory; thence south 37 degrees west 1.09 chains to a spanish oak near said branch; thence south 3.50 chains to a stone on the bank of Deep River; thence down the various courses of said river to the beginning, containing 25 acres, more or less.

This sale is made on account of the non-payment of the sum of \$1,000 and interest secured by said mortgage deed; said mortgage deed contained a power of sale authorizing the undersigned to make sale of said lands in the event of default being made in the payment of the debt secured by said mortgage deed; said default having been, this sale is accordingly made under said power.

M. E. ALLEN, Mortgagee.

# NOTICE OF LAND SALE

By virtue of an order of sale by the Superior Court of Randolph county in the special proceeding entitled: "Austin C. Trogon, et al. vs. Zona Lewallen, et al." entered on the 15th day of September, 1915, the undersigned will on

SATURDAY OCTOBER 16th, 1915 at 12 o'clock M., sell at the court house door in Asheboro, N. C., at public auction to the highest bidder for cash, the following described real estate:

All that tract or parcel of land lying and being in Cedar Grove township, Randolph county, N. C., and bounded and described as follows:

Joining the lands of J. J. Lucas, and S. W. Trogon, and others, and bounded as follows: Beginning at a dogwood tree, Franklin Auman's corner, and runs south 122 poles to a post oak tree; thence west 112 poles to a hickory tree; thence south 61 1/2 degrees west 43 poles to a large gray rock; thence north 15 degrees west 28 poles to a ash tree; thence north 63 degrees east 32 poles to a east bend in Little River; thence north 36 degrees west 48 poles to the mouth of Reedy Creek; thence north 54 degrees west 20 poles crossing Little River at a chestnut tree on its southwest bank; thence north 46 poles to a stone pile; thence 85 degrees east 170 poles to the beginning, containing 120 acres more or less.

This the 15th day of September, 1915.

CHAS. H. REDDING, Commr.

# BLOOMING SWEET POTATO VINE

Some of the newspapers are commenting on the blooming sweet potato vine which is new to them and to the farmers on whose farms they are found. Blooms on sweet potato vines are not new, but have been in existence many years. Certain varieties have these blooms and many people have seen them.

# NOTICE OF RE-SALE OF LAND.

By virtue of an order of the Superior Court of Randolph county, in the special proceeding entitled Mrs. W. S. Thayer, administrator of W. S. Thayer, deceased, against Tula Tzyen, et al.

I will, on the 8th day of Nov., 1915, at 12 o'clock, M., sell at public auction to the highest bidder, in Asheboro, North Carolina, Randolph County, the following described real estate to-wit:

Beginning at a stone planted on the side of a ditch in Nixon Menly's line; thence West 47 chs. and 5 links to a stone and Pine Knob; thence north 2 1/2 chains to a post oak, (formerly a red oak); thence west 20 chains and 37 links to a stone heap on Ridge Mountain; thence north 10 chains to a Pine Knot on Keam's line and 39 links east of Keam's corner; thence east on Keam's line 19 chains and 61 links to a pine, (original corner); thence north 20 links to a stone planted; thence east with James Spencer's 14 chains to a gum sapling; thence north 63 degrees east 1 chain and 18 links to a stone planted; thence north 71 degrees east 15 chains to an ash at a gage on a spring drain; thence south 59 degrees east one rod to a stone planted; thence north 38 degrees east 3 chains and 55 links to a stone planted; thence north 72 degrees east 7 chains to a stone planted on the west bank of Caraway, James Spencer's corner; thence down said creek to a stone planted and 24 1/2 chains to a stone planted and box elder on the west bank of said creek; thence south 4 chains and 25 links to a stone planted near a rock wall; thence south 59 degrees west south 5 degrees 13 chains to a stone on a ditch. Containing by estimation, 820 acres.

Terms of sale: cash. MRS. W. S. THAYER, Commissioner. This the 8th day of Oct. 1915.
