MANY SUBMARINES DESTROYED -NO LONGER DREADES

Great Britain has discovered and put into operation effective means of ombating the submarines, and have already destroyed between fifty and seventy. While the greatest secrecy

thrown around the means employed. the United States government has information concerning the principal methods which have been successful in meeting the German war zone cam-A submarine telephone paign. been developed by which it is possible to detect the approach of a submarine by sound from observation boats or stations planted off shore connected with points on the mainland.

For the capturing of craft whos presence has not been detected or even suspected, the government's reports describe how huge net: have been stretched across the channels through which the submarines may be expected to attempt to pass, and in open waters, near steamship lanes or in the vicinity of warships, nets suppended between floats have been spread broadcast. Armed patrol beats watch and when the floats disappear beneath the water shows that a submarine has become entangled, the patrols congregate at the place and when the victim

comes to the surface it is destroyed by gunfire or captured. A special type of mine also has been devised which is laid in large

fields that have proved particularly dangerous to submarines approaching steamer lancs. The German methods of supplying

submarines with oil and provisions, either at sea or from concealed places along the coast of the British Isles have been ferreted out and practically This compels the boats disposed of. to return to their bases at more fre quent intervals and leaves them only a comparatively short time in position and equipped for effective duty. Destroyers, the report declares, be-

ome expert in the game of submarine hunting, and armed trawlers also have proved very effective on account of their speed and ability to get quickly within easy range of their of

victims But the greatest single factor, it is and by an effectively worked out system of patrol, cover almost every mile a submarine must frequently rise to renew its supply of fresh air and recharge the storage batteries by which it is propelled when submerged, any submarine in the territory covered by lowest possible cost, but they must be results is almost certain to be eventually detected and destroyed. These small bosts have been built in large numbers in England, and it is report-ed that about 500 of them are being

constructed in the United States and fammin to be shipped in sections to Grent Britsin. Ascoplanes are described as exceed-

ingly useful in benting and following the irall of submarines. They can do text one even 400 fort beneath the an face. It is the infact, the reports say of the Genuina submittions to all p to constitute possibles along the dioting these tools - 10

YOUR DANDRUFF AND

# ACIDS IN STOMACH SOUR THE FOOD AND **CAUSE INDIGESTION**

The

Pape's Diapepsin" Fixes Sour, Gassy, Upset Stomachs in Five Minutes.

Upset Stomachs in Five Sour, Gassy, Upset Stomachs in Five Minutes. If what you just are is souring on your stomach on lies like a lump of lead, refusing to digest, or you belch gau and erucate sour, undigested food, or have a feeling of diziness, heart-burn, fulness, nausea, bad taste in mouth and stomach, headache, you can surely get relief in five minutes. Ask your pharmacist to show you the formula, plaindy printed on these infly-cent cases of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves sour, out-of-order stomaches or indigestion in five minutes. Pape's Diapepsin, the board of the board of the you will understand why dyspeptic troubles of all kinds must go, and why it relieves sour, out-of-order stomaches or indigestion in five minutes. "Pape's Diapepsin," is harmalesis, tastes like candy, though each dose will digest and propare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but what will please you most, is that you will so the do to resort to laxatives or liver pils for bilioueness or constigation. This city will have many "Pape's Diapepsin" cranks as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, too, if you ever take it for indigestion, in five minute, and rid yourself of stomach misery. Get some now, this minute, and rid yourself of stomach misery and indigestion in five minutes.

FERTILIZER FORMULA FOR SMALL GRAIN CROPS

Those farmers who want to use a complete fertilizer for small grain this fall, and find those mixtures containing potash too high in price, may

# WHAT CATARRH IS

It has been said that every third person has catarrh in some form.

Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

E. T. Wade of Williston, N. C., was the victim of stomach disorders. He tried many remedies and took a great deal of medicine and treatments. Re-lief seemed a long time coming. Then he found Mayr's Wonderful Remedy, took a dose—and found re-lief at once. He told his opinion of the remedy in a letter in which he said: # any good. To correct catarrh you should weat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building-tonic, iree from alcohol or any harmful drugs.
