

MACHINE TO CATCH LIARS.

Scientists have invented a new machine to catch liars. Speculation is over the prospect of experimenting with it in Atlanta, and some other cities.

It is a delicate instrument that records blood pressure by means of a needle and dial when placed in contact with the wrist of the person questioned. The normal blood pressure point for the needle on the dial is 120, and it is claimed that if a lie is told during the questioning the slight mental excitement attendant thereto, increases the blood pressure to 130, while if a sure enough "chapper" or a lie of far reaching consequence is told, the blood pressure may run as high as 140.

If it is applied to lovers in their recent declarations, there's no telling where the blood pressure registration will go.—Everything.

A Wonderful Antiseptic.

Germs and infection aggravate ailments and retard healing. Stop that infection at once. Kill the germs and get rid of the poisons. For this purpose a single application of Sloan's Liniment not only kills the pain but destroys the germs. This neutralizes infection and gives nature assistance by overcoming congestion and gives a chance for the free and normal flow of the blood. Sloan's Liniment is an emergency doctor and should be kept constantly on hand. 25c., 50c. The \$1.00 size contains six times as much

OUR WEALTH IN FOREST PRODUCTS.

At the North Carolina Club session the other night Mr. J. H. Lassiter of Northampton county briefly detailed the forest wealth of the State as follows.

Nearly twenty million acres of woodland, containing 430 billion board feet of standing timber. In which particular North Carolina ranks among the first four states of the Union.

An annual timber cut of 4 billion board feet. Lumber and timber products worth \$34,000,000 a year, ranking next to cotton and tobacco manufacture as a source of annual wealth.

Our farm wood-lot products, mainly firewood, were worth \$11,000,000 in the census year; in which particular North Carolina outranked every other state in the Union.

The annual firewood cut is some 5,720,000 cords per year, equal to three

billion board feet of lumber; which easily accounts for the fact that nobody was ever known to freeze to death in North Carolina.

We have 33,000 saw mills, 117 furniture and refrigerator factories, 138 carriage and wagon works, 12 car and general construction shops. If we count the lumber and timber industries, they employed 44,000 people and turned out products worth \$50,000,000 in the census year.

Our own wood-working establishments consume nearly a third of our lumber and timber products, or around \$11,000,000 worth of them annually.

SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell."

I tried most every kind of medicine, but none did me any good.

I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it.

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sidesache, sleeplessness, and that everlasting tired feeling?

If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists.

Health and Happiness Depend Upon Your Liver.

That sluggish liver with its sluggish flow of bile is what makes the world look so dark at times. Dr. King's New Life Pills go straight to the root of the difficulty by waking up the action of the liver and increasing the bile. Dr. King's New Life Pills cause the bowels to act more freely and drive away those "moody days." 25c. a bottle.

WHAT CATARRH IS

It has been said that every third person has catarrh in some form.

Science has shown that nasal catarrh often indicates a general weakness of the body; and local treatments in the form of snuffs and vapors do little, if any good.

To correct catarrh you should treat its cause by enriching your blood with the oil-food in Scott's Emulsion which is a medicinal food and a building- tonic, free from alcohol or any harmful drugs. Try it.

Scott & Bowen, Bloomfield, N. J.

ADVICE FOR MALE MEN

Men, men, what are you talking about? Nothing that is worth the breath you are spending.

Why don't you go home and out your wife some stove wood?

She has cut or picked up in the woods the last piece she has burned all the time lately.

And one of the children has whooping cough, and the other has burned his fingers. But "Oh my; I had rather be in torment with my back broke than to hear those kids holler."

I will do as I please. The "old lady" will take care of things. She will feed, get all the wood and water, and if she doesn't do the last thing she doesn't get any more credit than if she had done nothing; and if she does all those things it is no more than her duty.

Men, you ought to think how nice your wife was to you when you was drunk last, and how she helped you out of that shooting scrape.

You stand around on the corner with your thumbs under your suspenders, smoking a five cent cigar, bought with your "old lady's" egg money or on credit, and I am afraid if your brains were ink there would not be enough to dot an i.

Men, buy you a nice suit of clothes and go around and enjoy life. Pass off as a young single man.

Don't buy your wife a hat. She won't go anywhere. One of you will have to stay at home, and of course your wife can attend to things better than you for she is used to it and you are not.

You hear a man say, "Oh, I'd rather go to work without my breakfast than make biscuit," and if you were to make any a hog had rather go and root for his breakfast than to eat one.

But no, she is nothing but a dead

expense, always calling for money.

The fact is she never gets the money she call for, and the poor thing has worn the same old black skirt which you took good spell and bought her the spring after you were married, and that has changed to a rusty brown. But by all means dress yourself. Buy fifty cent hose and anything you like. It doesn't make any difference how your wife looks. If she goes with you to church once a year no one will suspect her to be your wife, judging from your actions, and if you have been married six months never help your wife out of a buggy or wagon. She is no better to crawl out than you are to waste time helping her. But if it is some other lady, be polite.

If one of your children whines around you when you are reading, slap him down, and keep on chewing tobacco and reading. The "old lady" will pick him up.

Yes, men, you are honies, but the bees don't know it.

Go your route; have a good time. The poor woman will soon lie down to rest.

Then bury her and carve these words on her tomb:

"Here lies the remains of Nancy Proctor,

She died for the want of a doctor. She hated to leave but she had to go. Praise God from whom all blessings flow."

MISS RAMBLER, in Chatham Record.

THE BYERS CASE IN SUPREME COURT.

Among the cases on the United States Supreme Court docket from N. Carolina is the well known case of the Southern Express Co., vs. John Byers, involving construction of the Carmack amendment to the Hepburn act, and raising the question as to whether or not mental anguish is an element of damage in applying the terms of this law. The Carmack amendment makes the initial carrier liable for goods shipped. The North Carolina State Supreme Court held that there could be a recovery, Judge Brown dissenting.

Byers instituted his suit in Buncombe County, alleging among other things that his wife died March 31, 1912, at Hickory Grove, S. C., and that he ordered a complete burial outfit at Asheville, April 1st, and expressed it for Hickory Grove with the

belief that it would reach that place by 5 o'clock that night. The casket and other burial articles arrived several days late, and Byers asked \$3,000 for inconvenience in having to purchase a cheaper coffin and for mental anguish incident to the delay. A verdict of \$300 was recovered below, after the express company had plead that Byers had been paid all that was due him under the provision of the bill-of-lading which stipulated that the company would not be liable for more than \$50 owing to delay or damages, setting up that the Carmack amendment excluded the consideration of mental anguish. After losing the case before the State Supreme Court, which held that the Carmack amendment was not involved the express company still contends as originally that it was denied the construction of the statute in its favor as urged.

Since the United States Supreme Court has repeatedly held that mental anguish cannot be made a ground for damages in a delay in shipping goods the case raises an interesting question and one that will be watched with interest, since a casket is goods, though of a peculiar character.

THE LESSON OF THE MOONLIGHT SCHOOLS.

The State is forging ahead in its efforts to wipe out illiteracy and five hundred more teachers who work all day in the schools with the children have volunteered to work at night free of charge with the illiterate adults who are ignorant of the enlightening power of the twenty-six letters in our alphabet.

Illiteracy a Disease.

At least it has been called such, and if so it is a disease that is contracted in early life. Our self-sacrificing teachers are heroically risking their lives in night work to effect a cure.

An Ounce of Prevention.

It is the heaviest and most effective ounce that was ever put upon the scales. We vaccinate against the small pox, not to cure it but to prevent it, and the doctors are now successfully fighting the dread disease typhoid fever with a preventive rather than with a cure. They tell us that the way to "stamp out" typhoid fever is to prevent it, and hence free anti-typhoid treatment may be had for the asking.

Prevent Illiteracy.

This should be the cry of every crusader against illiteracy. The way

UGH! ACID STOMACH, SOURNESS, HEARTBURN, GAS OR INDIGESTION

The moment "Pape's Diapepsin" reaches the stomach all distress goes.

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Diapepsin, for this reason: Pape's Diapepsin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapepsin" is quick, positive, and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of ungestured food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.

To stamp it out forever, as with small pox and typhoid fever, is to prevent it. The cry "prevent illiteracy" should be heard in the day school and in the night school, in the pulpit, on the rostrum, at the street corner and along the highways.

Compulsory Vaccination Against Illiteracy

Is successfully accomplished the very moment we compel our children to attend school every day in the term. There should be no absences. If we had compulsory school attendance in every county in the State we should soon have no illiteracy in North Carolina.

From Moonlight to Sunlight.

Let's prevent illiteracy in the youth of today and thus avoid having to treat it in old age when the disease is chronic. Let's fill the sunlight schools of today with children of the land and there will be no need of moonlight schools in the future for any of the grown up people.

EIGHT HANDSOME AND EXPENSIVE PRIZES.

FIRST GRAND PRIZE

FORD PASSENGER TOURING CAR, Fully Equipped, will be awarded the contestant who gets the largest number of votes in the Courier's Automobile and Piano Contest. These cars are for sale in Asheboro by the Asheboro Motor Co.

Second Grand Prize

This standard hightoned \$375 York Piano will be awarded to the contestant who receives the second largest number of votes in the Courier contest. These Pianos are sold in Asheboro by Messrs. A. N. & E. M. Cullom.

FIFTH GRAND PRIZE

High Grade Cooking Range to be awarded to the contestant who receives the fifth largest number of votes in the contest.

This Range may be seen at the McCrary-Redding Hardware Store.

THIRD GRAND PRIZE

A BEAUTIFUL AND ARTISTIC Suit of Furniture which retails anywhere at \$125.00.

This suit of furniture will be awarded to the contestant who has third largest number of votes. The Continental Furniture Co., of High Point, reliable furniture manufacturers, are the makers of this suit.

Fourth Grand Prize

Open Top Rock Hill Buggy (Carolina Grade)

Awarded to the contestant who has the largest number of votes in the Courier contest. These buggies are sold by the McCrary-Redding Hardware Co., and may be seen at their store.

DISTRICT PRIZES

After the five grand prizes are awarded to the five contestants who have largest number of votes, the next highest in each of the three districts will be awarded either a diamond ring or a Free Sewing Machine.

Mr. D. A. Cornelison, at Seagrove, is county agent for this machine.
