"Cascarets" Best For Headachy, Bilious, Sick, Constipated

Best for liver and bowels, bad breath, bad colds, sour stomach.

Get a ten-cent box. Sick headache, biliousness, coated tongue, head and nose clogged up with a cold—always trace this to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged up in the intestines, instead of being cast out of the system, is re-absorbed into the blood. When this poison reaches the delicate brain tissues it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet, breath right, complexion rosy and your liver and bowels regular for months.

LEVEL CROSS ITEMS.

Mesdames Van Lamb and Rich are very sick at this writing.

How To Make The Quickest, Simplest Cough Remedy

Much Better than the Ready-Made Kind and You Save \$2. Fully Guaranteed.

This home-made cough syrup is now used in more homes than any other cough remedy. Its promptness, ease and certainty in conquering distressing coughs, chest and throat colds, is really remarkable. You can actually feel it take hold. A day's use will usually overcome the ordinary cough—relieves even whooping cough, croup, bronchitis, whooping cough, spasmodic croup, bronchial asthma and winter coughs.

Get from any druggist 2½ ounces of Pinex (50 cents worth), pour it in a pint bottle and fill the bottle with plain granulated sugar syrup. This gives you—at a cost of only 64 cents—a full pint of better cough syrup than you could buy for \$2.50. Takes but a few minutes to prepare. Full directions with Pinex. Tastes good and never spoils.

You will be pleasantly surprised how quickly it loosens dry, hoarse or tight coughs, and heals the inflamed membranes in a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, rich in guaiacol, which is so healing to the membranes.

To avoid disappointment, be sure and ask your druggist for "2½ ounces Pinex," and don't accept anything else.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., 252 Main St., Fort Wayne, Ind.

To The Public.

"I feel that I owe the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy a word of gratitude writes Mrs. T. N. Witherall, Gowanda, N. Y. "When I began taking this medicine I was in great pain and feeling terribly sick, due to an attack of summer complaint. After taking a dose of it I had not long to wait for relief as it benefitted me almost immediately." For sale by all dealers.

DUAL-PURPOSE CATTLE GROWING IN FAVOR

Prize-Winning Aberdeen-Angus Cattle.

The Aberdeen-Angus originated in Scotland and was first brought to the United States in 1873. They are raised extensively in Iowa and Illinois and many other of the central states, and are rapidly growing in popularity in every section. Large numbers of this breed are being raised in Argentina. By some breeders they are not considered to be as well adapted to range conditions as some other of the beef breeds, however. They are but slightly smaller than Shorthorns and they mature almost as early (at about thirty months). They are good feeders and the quality of the meat is superior to that of the larger breeds. It is generally believed that so-called beef breeds are better for beef production than dairy breeds or scrubs. A comparison of breeds at several experiment stations showed no constant differences in meat production among beef breeds. The comparison in Missouri gave the Aberdeen-Angus first place in palatability of meat their extreme uniformity in color and all around excellence.

KEEP THE COW COMFORTABLE

Not Advisable in South to Go to Expense of Building Elaborate Structures for Stock.

(By H. M. COTTRELL.) The cow should have shelter and care that will insure her being comfortable 24 hours every day. This will vary with the climate. In summer cows need a shade with free movements of air. This may be supplied by a grove in which the underbrush has been cleared out, or a shed with a roof but no sides.

I would not go to the expense in the South and Southwest of building a barn with fixed stalls, cement floors and gutters. I would dehorn my cows and shelter them in a closed-in roomy shed. I would arrange one side so the cows could be tied up while being milked and while eating their stlage and grain. The hay would be fed in racks and the cows would run loose except at milking time. Others prefer the regular sanitary stable. Whatever method is used, the surroundings should be arranged to give comfort, an abundance of light and pure air and economical handling of the feed, the cows, their milk and the manure.

In handling cows watch their droppings and feed so that the droppings will be like they are when the cows are on good pasture. The profits in many herds are lost because the cows are fed combinations of feeds that make them constipated. Feed the cow laxative feeds for two months before her calf is due. Twenty-four hours before the calf is expected if she is constipated at all, give her one or one-quarter pounds of Epsom salts dissolved in water. Give this as a drench.

NOTES ON MILK SANITATION

Covered Pail Keeps Out Dirt—Let Sunlight Into Barn—Whitewash is Effective Disinfectant.

See to it that your bottled milk does not show a sediment; if so give the hooded or covered pail a trial, together with the usual straining—it will bring results.

Clean up your barns and cows and keep them clean. Cut some windows in the milking barn and let all the sunlight in that you possibly can.

Do not advertise the fact that you are lax with the disposal of the manure by letting the pile accumulate near the barn.

Wash your hands and put on clean clothes before milking and see that your help does likewise. You will take more pleasure in drinking the milk when you sit down to your own table.

Do not tolerate the practice of milking with moist hands; it is a very unclean practice at best.

Brush down the cobwebs and put a coating of whitewash all over your cow stable once and see how much better it looks to you; then get the habit of doing the same thing often.

Whitewashing is a cheap and effective way to secure a change for the better. It not only brightens up the place, but acts as a disinfectant as well.—Office of Dairy Experimentation, West Raleigh, N. C.

GOOD DEMAND FOR PUMPKINS

Always Market in Cities for Nice Specimens of Pie Material—Medium Sizes Preferred.

There is always a market in the cities, at fairly good prices, for nice specimens of pumpkins and squashes that will make good pie material. Grocers handle a few, and others can be retailed readily. For this trade, medium-sized specimens of good quality are preferred over the large overgrown ones.

The old reliable Hubbard is a good variety of squash to grow for market purposes, and one of the small pie pumpkins that possesses a good quality is better than the large varieties which are usually grown for stock food.

Fruitland Institute Endorses the York Piano.

We have three York Pianos at Fruitland Institute, near Hendersonville, N. C., and they have given such satisfaction that I have instructed two other schools of our system to purchase the York.

I wish to add further that my business relations with the Weaver Organ and Piano Co. have been pleasant and satisfactory.

A. E. BROWN, D. D., Asheville, N. C.
Supt. Mountain School Department
Home Mission Board
Southern Baptist Convention.

Notice that Dr. Brown did not base his opinion on the appearance of the York Piano. He knows what the York Piano is because of what it has done under severe conditions at Fruitland. It is a piano that gives perfect satisfaction.

Remember Mr. Hammer selected the York Piano for the Courier contest over all competition.

You can have a York Piano in your home, church or school under very reasonable conditions if you write or call at once.

RESOLUTIONS OF RESPECT.

Mrs. John W. Curtis.

Whereas, Almighty God, in His infinite wisdom, has seen fit to remove from our midst on September 23, 1915, Mrs. Martha Caroline, wife of our esteemed brother, John W. Curtis.

Whereas, we the members of Carolina Lodge No. 546, A. F. and A. M., wish to place in the minutes of our Lodge this expression of the highest esteem which we held in her; therefore,

Resolved, that in the sudden taking away of Mrs. Curtis, the community has lost an exemplary character, whose absence we mourn and whose place in our hearts will be filled only by the recollection of her kind nature, her many virtues and her nobility of character.

Resolved, that we extend to the bereaved family our most heartfelt sympathy and commend them to the tender mercy and loving kindness of the Supreme Architect above, who in His wisdom and goodness, knoweth all things, doeth that which is best for all.

Resolved, that a copy of these resolutions be sent to the family of Mrs. Curtis, the Bulletin, the Courier, and one to the Orphan's Friend for publication, and that a page for our records be inscribed therewith, sacred to her memory.

WILLISTON, N. C., MAN RESTORED TO HEALTH

Mr. Wade Thankful He Read About Wonderful Remedy.

E. T. Wade of Williston, N. C., was the victim of stomach disorders. He tried many remedies and took a great deal of medicine and treatments. Relief seemed a long time coming.

Then he found Mayr's Wonderful Remedy, took a dose—and found relief at once. He told his opinion of the remedy in a letter in which he said:

"Your medicine has worked wonders. I feel so much better. I am thankful to you, indeed, for advertising your wonderful remedy in the papers, as otherwise I might never have known of it."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach, and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.
