## WHAT DEMONSTRATION AGENTS

The following brief report from the Rowan county Agent is a fair speci-men of what most of the other agents doing. This report covers about ten months work.

In looking over the field to find out what I have done for the farmers and what they have done for themselves through the suggestions given by me them and some of their neighbors it is hard to accurately distinguish between the two.

Since the last annual report the following are a part of the few things that have been done by a wide-awake and co-operating band of farmers.

There were conducted in this county during last winter four dairy rehools. Into these communities have been introduced 5 full blood registered Jersey bulls, 15 pure bred Jersey cows have placed with their herds and 6 silos have been built.

ities whereby he is to visit and test the milk from the cows of those fermers who will keep an account with their cows. To date 56 farmers are using him in this way once a month.

There have been planted the followover and above the number of the last rt on the following crops:

Permanent pastures ......98 acres

By preaching lime and through the active co-eperation of the Farmers
Union in the county there have been ABOUT MEXICAN C ordered 108 cars of lime

been unable to see all of the farmers ances the newly recognized Mexica that have been asking for me and have government has given with respect been forced to meet the farmers to foreign claims. It is generally unthrough field meetings, meetings at derstood that the Eurepean powers schoolhouses and by letter. I would will follow the lead of the American estimate that I have been enabled to republics in recognizing Carranza reach in this way twice as many as but before taking the step they want have been in touch with before.

A start was made in the schools last year in attempting to get a little more attention given to he sudy of agriculure in the rural schools, and work schools. This was received so favor-ably that fourteen of the rural year and a course of study is being arranged. The County Board of Education has requested that the County Agent select a book to be used by the rural schools in this work, and he is now looking into several different publications along this line.

There have been organized 19 cream routes since the first of January, 1915, which have been gathering cream from 216 families. These have now been increased by six which have sprung from them. I am sure that markets, funds with which to finance nothing has been done which helped the farmer more this year than the establishment of cream routes.

The work in the Brys' Corn Club, \$180,000,000 to \$300,000,000. the Pig Club and the Girls' Canning Club has been very successful, and even though the egent has not been enabled to visit these members often as he wished, still they are enthusiastic in the work, and have some excellent reports to make at the end of the year.

There have been pruned and sprayed under the direction of the County Agent 428 fruit trees. There have ocen 34 hogs treated-with hog cholern serum and 12 given the simultaneous

Rotations have been planned and put into operation on 18 farms. Inmaterial has been ordered Taking it all together, the Agent in

Rewan county has not spent a very idle year. There are always calls for his services, and if he were able to all that. stand up to it would put in day and

rrounding the grave.

The finding of the old deed puts an entirely new aspect on the matter and Gov. Craig has telegraphed Judge Long thanking him for his efforts. | Wood Case Couning Store.

#### PREPAREDNESS.

Rudson Maxim's book "Defencelers kmerica," has been made the basis of a remarkable "preparedness" cam paign to be waged partially through the motion picture theaters. Facts set forth in the book have been used by Commodore J. Stuart Blackton as the basis for a wonderful fecture film called "The Battle Cry of Pence," in which nineteen film stars, headed by Charles Richman, 25,000 National guardsmen 800 members of the G. A. R.; 5,000 horses; 8,000 supernumaries, Admiral George Dewey, Major-Geneval Wood Dr. Lyman Abbott and the inventorauthor Hudson Maxim take part. Run ning simultaneously at the Vitagraph theater, Boston and the Olympic the ter. Chicago, to packed houses twice a day, the film has caused a sensation not yet equalled in the "movies" and on a par to that which would be caused by the bombardment of Neew York wheih the film vividly portrays. Your agent has an engagement with author of the film takes issue with the farmers of each of these commun- "peace at any price" advocates, head-"peace at any price" advocates, head-ed by William Jennings Bryan. It is a frank plea for peace through preparedness. The horrors of war are brought before the vision in the pictures which show a foreign foe on American soil, the explosion of bombs ing number of demonstration acres in Times Square, New York, and the destruction of fortifications and coast defences by means of submarines, Zop-try have endorsed the movement and There is to be soweed yet something newspapers are assisting with ream like 350 acres in grass for mowing of publicity as a means to obtain ac tion at the next session of Congress

## ABOUT MEXICAN CLAIMS

The work has assumed such large European governments are inquir-proportions in this county that I have ing of the United States what assurto know more specifically what settlement is to be made of the huge claims growing out of the revolution

General Carranza has decided to appoint several mixed commissions was done in four of the county to be composed of representatives of ols. This was received so favor-that fourteen of the rural ols are calling for this work this reached. The question of claims is related so closely to the financial rehabilitation of Mexico that it is unlikely that the United States government will press its claims until Mex ican credits has been firmly re-established and arrangements made for payment of the southern republic's national obligations.

As yet no move has been made by the Carranza government to obtain loan, but it is considered certain that in view of the condition of European the new government will be sought in the United States. The sum needed has been variously estimated from

#### DR. ROBERT J. BURDETTE'S FAITH

(From a personal letter to a friend n New York.)

Ever since June, 1912, when I made my last public appearance, we have been living in our summer down here by the sea. Eventide Mrs. Burdette named it, because it faces the sunset. It is very pleasant, this afternoon land," in spite of sickness I watch the sunset as I look out over the rim of the blue Pacific, and there is no mystery beyond the horizon line, because I know what there is over for 238 farmers for 450 bushels of there. I have been there. I have legumes. where the sun is just sinking is Japan That star is rising in China. In that direction lie the Philippines. I know

night and then not be able to get to look toward as I watch the sunset. I distinction or mercy, poor Tray was all that are calling for him, when they have never seen it. I have never seen most craelly treated, for no other want him.

any one who has been there; but it son than his being found in bad of the son that his being found in bad of the son than his being found in bad of the son that his being found in bad of the son that his being found in bad of the son that his being found in bad of the son that his being found in bad of the son that his being found in bad of the son the son that his being found in bad of the son the In addition to the above there have been laid off over twelve miles of terraces. About six miles of them have been built by the Demonstration Agent.

Apent.

Addition to the above there have has a more abiding reality than any pany.

Of these lands which I do know. This land of immortality, this fair and blessed carefully. untry of the soul-why, this JUDGE LONG FINDS OLD BEED of ours is the one thing which I know with absolute, unshaken anchangeable certainty. This I know with a knowledge that is never shadthe office of the Register of Deeds of owed by a passing cloud of doubt. I Bancombe county, as a result of a may not always be certain about this Bancombe county, as a result of a may not always be certain about this search instituted by B. F. Long, which conveys the top of Mt. Mitchell, sometimes become confused. But that including the grave sad the monument or. Mitchell, promises to save the State considerable money. #### THE TWO DOGS.

(From Webster's Elementary Spelling Book, copyright 1850 and 1908 by G. and C. Merram. Reprinted by arrangement with the American Book Company, pub-lishers.)

A good-natured Spaniel overtook surly Mastiff, as he was traveling up-en the highroad. Tray, although an entire stranger to Tiger, very civilly accosted him; and if it would be no in-terruption, he said, he should be glad to bear him company on his way. Tiger, who happened not to be altogether in so growling a mood usual accepted the proposal; and they very amicably pursued their journey together. In the midst of their converosal; and they sation, they arrived at the next vil-lage, where Tiger began to display his malignant disposition, by an unprovoked attack upon every dog he met. The villagers immediately sal-rection lie the Philippines. I know Il shat.

Well, there is another land that I

Our sources of wealth in North Carolina, named in the order of their im-portance, are:

1. Fish and oysters 1908

and 1911 ......\$1,800,000 Mines and quarries, 1914 3,800,000

Values added by manu-factures, 1909 ...... 94,000,000 Agriculture, crops and animal poducts, 1909 .175,000,000 

The farmers in North Carolina outnumber the workers in all other occu-pations in the ratio of 5 to 3; and the any wealth they create year by year in

more than double that of all other in-dustrial enterprises combined. During the ten-year period from 1899 to 1909, the production of crop wealth increased \$74,00,000; but the increase was more than \$75,000 in the next six years.

But best of all, the increase during

this last period is in food and feed crops. We have less cotton this year but more bread and meat.

UGH CALOMEL MAKES
YOU DEATHLY SICK

Stop Using Dangerous Drug Before It Salivates You!. It's Horrible, You're bilious, sluggish, constipated and believe you need vile, dangerous calome! to start your liver and clean

your bowels.

Here's my guarantee. Ask your druggist for a 50-cent bottle of Dod-son's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless vegetable Dodson's Liver Tene tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

#### HEALING WOUNDS BY EXPOS-URE TO SUNLIGHT

Dr. Robert Sorrell is using in the nospitals of Monte Carlo and Nice a sun cure for infected wounds, and he writes that it is most efficacious. According to the Lancet's Paris correspondent, he abjures iodine, alcohol, sublimate, formol or corbolic acid, but uses sterilized gloves and sterilized

Most of the patients who arrive at his hospitals have infected wounds The dressings are removed and the wound cleaned up generally washing. It is then exposed to the rays of the sun for five minutes the first time, then at lengthening intervals until an hour and a half is reached. The patient is kept in the oper air, the wound being covered with light gauze to protect it from

Dr. Sorrel rarely uses drains, except in deep seated wounds, but relies on the serous oezing (which is abundantly caused by solar therapy) to expel ragged and necrosed tissue from

## NO INDIGESTION, GAS. HEARTBURN, ACIDITY

Pape's Diapepsin" Fixes Sick, Son Upset Stomachs in Five Minutes.

Upset Stomachs in Five Minutes.
You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.
Pape's Diapepain is noted for its speed in giving relief; its harmlessness; its certain, unfailing action in regulating sick, sour, gassy stomuchs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them, if what they cat lays like lead, ferments and sours and forms gas; causes headache, dixiness and nausea; cructations of acid and undigested food—remember as soon as Pape's Dispepsin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.

#### FEEDING BEEF CATTLE

Cattle raising should appeal to farmers who have plenty of feed. Feeding cattle saves the fertility, provided the manure and bedding are saved and applied to the soil. where no more than the value of the feeds is received, there is a profit left in the manure if judiciously used. For protein cotton seed meal will be cheap and reliable feed. Also silage grain, hay and cotton seed mea will be an excellent combination, Fall grazing crops reduce the price of feeding considerably.

#### SOME TRIED RECEIPTS

Great Grape 'Marmalade

To one pound of water add free pounds of washed grapes and simmer until they are cooked to a soft pulp. Squeeze through a jelly bag and addfor every quart of grape juice two oranges (chopped fine and seeds removed) one pound of chopped raising and three pounds of sugar. Simme gently for one hour or until the manmalade is formed. Try as you would for jelly. Seal in glasses.

Jelly Toast. The foregoing marmalade is special ly nice when spread on crustless pleas of buttered toast and sprinkled win chopped walnut or pecan meats. Sta ed very hot on warm plates, it make an excellent, easily-prepared dish is

Sunday night supper and is also delcious with afternoon tea. Grape Acid.

To 12 pounds grapes use 5 ounces To 12 pounds grapes use o outes. Tartanic Acid; put in jar and add 2 quarts water. Let stand 48 hour, squeeze and strain. To each pint of juice add 11/2 pounds granulated sugar, stir until dissolved. Let stand a few days, bottle and cork. If it shows signs of fermenting leave cork out of bottle. Entire process cold.

Grape Preserves. To every pound of fruit use & pound of sugar. Cook fruit until pulp and seed rise to the top. Remove from fire, press grapes the a colander, and thus remove seeds.

Return to stove and cook until thick. 15 minutes before done, add kernels of 7 English walnuts, broken into small pieces. Allow 2 pounds of kernels to 136 gallons of preserves.

glars took 12 pairs of shoes and ome overalls. Turner Ridge, of Caraway Ross.

2 and Miss Mary Briles, of Fullers, were married last week. Rufus Hill and Fred Brown, of near Bombay, visited at Harris Hill's last

## SAFE FARMING.

The United States department of agriculture has sent out a circular to business men, and farmers in the cotton states outlining a pregram of safe farming. Attention is called to the fact that the history of agriculture in the South has been one of lean years and fat years causing a fluctuation in prices and at time much distress to the farmer. It is pointed out that with the rise in the price of cotton there will be a tenden cy for farmers to return to the old system of gambling on cotton. The circular points out that to steady the whole system the farmer must raise his own living and not depend too much on one crop.
