Mr. Grady Kirkman has gone to Winston-Salem to accept a position.

Mrs. W. F. Swain returned home Saturday after visiting relatives in Roxboro, N. C.

Not long since on one of the prettiest and brightest of all October's golden days, Mr. J. C. Steele, ex-mayor of Statesville, accompanied by Mr. J. C. Turner and his daughter, Miss Mary motored from Statesville to Greensboro and, while Mr. Turner and his daughter visited his son, Rev. J. Clyde Turner, pastor of the First Baptist Church, Mr. Steele continued on his way to attend to some business pertaining to his famous brick machine of which he is the patentee. Returning from Durham he detoured by way of Liberty, to visit his old friend and band comrade, Mr. R. E. Patterson. All three of these men; Steele, Turner and Patterson, enlisted on June 1, 1861, in company C, 4th N. C. Regiment and went through the war together surrendering at Appomattox April 9, 1865. John Turner was promoted to the captaincy of company C and gave the last command the company received before the surrender. Steele and Patterson belonged to the 4th regiment band and had the honor of serenading Gen. R. E. Lee on the night of the 12th—thirteen days after the surrender. These three veterans have been friends, true and tried, for half a century.

To simply say that Mr. Patterson enjoyed this visit from his friend Steele, would be putting it too mildly for it was a feast of pleasant reminiscences and his departure left a homesick feeling—a longing for the days that are forever gone, when youth and strength and hope made life worth while even in war.

SUCCESSFUL FARMING

On account of the great strides that are being made in the science of farming, it is absolutely necessary for every man to keep in touch with the latest and best ideas, methods and suggestions that are constantly developing.

Much thought and money are being spent in the development of this great industry. Competition is as keen in this line of work as in the complex business life of the large cities. Study, thought, experiment are essential for success.

In our club of four magazines, advertised elsewhere in this paper, we have included the best and most authoritative farm publication on the market. This journal tells you how others

have met and overcome the same problems that confront you.

We offer you a year's subscription to this publication and three other magazines for only a few cents more than the cost of our paper alone. If you have not already sent us your subscription, "Do it now."
