### A HALF MILLION IN BONDS SOLD

Commissioners Accept Bid of New York Firm—L. E. Byrd Road Supervisor.

The Randolph county board of commissioners in regular meeting in the court house Monday with all members present sold bonds in the amount of \$500,000 to Henry D. Lindsey and Company, Inc., of New York, at a premium of \$5,195. There were fifteen bidders for the bonds and the premiums offered ranged from \$625 to that paid by the successful bidder. The bonds bear interest at the rate of four and three-quarter per cent from the date of issue, February 1st, 1925. They will be issued in denominations of \$1,000, interest payable semi-annually on April 1st and October 1st of each year, and will mature serially fifty bonds each year beginning in 1951 and fifty bonds thereafter each year until the whole series has matured.

These bonds, according to the advertisement asking for bids, are known as funding bonds and are for the purpose it is said for taking up outstanding short term notes.

The amount of the short term notes outstanding according to the auditor's statement of December 1st, 1924, amounted to \$447,793.75, including general county funds, bond interest fund, general and special school funds, and other notes. Of this amount \$185,000 is in the form of a loan to the State for the purpose of building Route No. 75 from Asheboro to the Chatham county line. The State contracted to pay this back at the end of a year from the date of the loan. It is not known whether it is the intention of the commissioners to immediately take up this loan out of the proceeds of the bond issue or whether the holders of the notes will surrender same.

At any rate, should all the outstanding notes be taken up there is still a matter of something over fifty thousand dollars left, which would seem to be an increase in the net indebtedness of the county in this amount. And this is in the face of a surplus in all funds of \$55,086.09 as of the auditor's statement of Dec. 1, 1924, which audit was accepted as correct by the incoming Republican administration.

Other matters having the attention of the commissioners were as follows: Mrs. Ella Jarrell was placed on the list of outside poor at \$5 per month.

Jim Steed was instructed to do some necessary repair work on Muddy Creek bridge, near Walker's Mill and J. E. Stuart instructed to do like work on the Moffitt's Mill bridge across Richland Creek.

The board ordered the road completed from the State Highway, near Kelly Coltrane's, to Coltrane's bridge, known as the Coltrane mill road. H. N. Hockett is to have charge of the work.

The commission appointed at the December, 1924, meeting of the board to audit the Clerk's report made its report and the board ordered it accepted, filed and published according to law.

It was ordered that a cartway be laid off from W. H. Hayman's to the hard surface road by way of F. D. Hendrix and Mrs. Albert Pearce's corner.

The clerk to the board was instructed to borrow \$20,000 for current road and bridge expenses.

Pay for clerk hire in the register's and sheriff's office was ordered raised from \$75 to \$100 per month.

L. E. Byrd, of Trinity township, was appointed county road supervisor.

The board issued an order instructing ex-sheriff A. Carl Cox to collect the balance of 1923 taxes now in arrears and account to the board at its next meeting the first Monday in March.

The merchants of the town have for some time been considering forming an association of this nature and there has been some intimation that they may join the association already organized.

### Suggests "Zeb Vance Highway" As Name For Route No. 75

The Courier is in receipt of a small card enclosure from Mr. C. H. Julian, of Franklinville, one side bearing a map of State Highway No. 75 and the territory traversed by this route, the other side containing this message:

"It is suggested that the highway on the opposite side be known as the Zeb Vance Highway in memory of Gov. Zebulon Baird Vance.

"It is a well-known fact that Zeb Vance traveled from his boyhood home in the mountains in the Capitol in Raleigh by the most direct route. This is proven by his arrival in the Governor's office, the chosen chief executive of the State, when barely 32 years of age. For more than a third of a century he served the people of North Carolina faithfully and well. "For these reasons it is deemed particularly appropriate that this highway, running direct from Asheville to Raleigh, should bear his name."

The Southern Furniture Exposition at High Point closed Saturday night after having been in progress two weeks. More than a thousand dealers from all parts of the country were present and buying was good.

### Miss Hubbard Pleased With Prize

Farmer, N. C. Jan. 27, 1925. My dear Mrs. Hammer:

I was very much surprised when I came home from town yesterday to find I had a string of pearls. I did not expect to win for I have never been a winner of prizes for either luck or pluck.

The pearls are very, very pretty, indeed, and I shall always think of the Courier when I wear them. It seems the prize is much larger than the small amount of work required to win it, would deserve.

Thanking you again for the nice prize and wishing you and the Courier much success, I am, Yours sincerely, HOPE HUBBARD.

Mr. Lambeth driving a Chalmers coach Monday afternoon about 3:30 o'clock ran into the rear of a wagon driven by two boys, named York and Allred, at Sophia, completely demolishing the wagon, bruising the boys, and severely injuring the two mules hitched to the wagon. The car was only damaged slightly owing to its being equipped with bumpers.

Officers were notified and the arrest was made at Sophia, Mr. Lambeth evidently being under the influence of liquor to such an extent that he could not drive further. He was placed in jail at Asheboro, but was released under a \$1,500 bond yesterday.

### McLEAN OPPOSES BIG BOND ISSUE

In His Second Message Reiterates Fiscal Policy—Legislation Down To Business.

(By M. L. Shipman.) Raleigh, February 2.—Some one has said that a legislature is often times a body of men surrounded by much talk. So far, the General Assembly of 1925 has not contracted that habit and the State has reasonable right to be proud of the personnel of her legislative body. The members seem to be dead in earnest about doing the job they were sent here to do and are not disposed to let any "jokers" get by. In both branches the legislative wheels go round with little lost motion, or loss of time.

The legislative grind is now on some 400 bills having been dropped into the hopper and started on the journey to committee pigeon holes, or to the office of the Secretary of State—"Enrolled and Ratified." While many will emerge fresh and clean as when the trip was begun, there's going to be a goodly number so badly worn, kicked, abused, cruelly treated that their own dear "daddies" will not recognize the poor things when they meet 'em face to face on the Assembly floor.

In his second message to the General Assembly on Friday the Governor reiterated his determination to revise the fiscal policy of the State and invited the cooperation of the members in getting proposed new machinery into action. He asks for a law providing an executive budget system which would provide continuous supervision of all the institutions and agencies of the State, to the end that the appropriations made by the General Assembly may be kept within bounds and expended as directed. Under the budget system, covering the period July 1st to June 30, all revenues actually collected during that period would be applicable to that fiscal year and all appropriations and other expenditures actually disbursed during the same period would be applicable to that period only. The Governor told the legislators that he would prepare and submit to them a bill embodying the provisions which he feels that the budget system outlined in his message should contain and it is a safe bet that he will get exactly what he wants in this respect.

The Governor places himself on record as squarely opposed to the issue of more than \$25,000,000 for all purposes this year. He suggests \$20,000,000 for roads, \$3,000,000 for permanent improvement at the State institutions and \$2,000,000 to finance the World War Veteran's Loan Fund approved by the voters of the State at the general election in November. In his message he declared himself unequivocally in favor of continuing the construction of highways until the entire system is completed as originally planned, but frankly admitted that, in his opinion, the credit of the State could not stand for additional long-term construction bonds in the amount proposed by the Bowie-Heath highway bill. His suggestion is to issue \$20,000,000 maturing four to twenty-four years from date at the rate of \$1,000,000 a year, half to be issued during 1925, and half during 1926, the whole to be applicable to road building prior to January 1, 1927. And, further, that short term notes be issued for road building purposes until the issue and sale of the bonds become an actuality. With Federal and County funds to become available from time to time the Governor figures sufficient funds to continue the highway program without serious interruption.

### DISASTROUS FIRE IN WAGGER STORE

Fire Sunday Morning Caused Damage of Thousands—Loss Fully Covered.

Fire thought to have originated from a cigarette or cigar stub thrown among some waste paper under a table in the rear of the store caused a damage to the stock of the Waggon Clothing Company in the Lewis building on the south side of Depot street, in Asheboro, early Sunday morning amounting to approximately \$15,000, and damage to the building of probably \$2,000.

The fire was discovered Sunday morning about 3 o'clock by Robert Bunch and Pearl Osborne who saw smoke issuing from the store building. Mr. Osborne immediately went upstairs in the building and waked up Mr. Waggon and Mr. Morgan, who roomed above the store while Mr. Bunch turned in the alarm. The fire was by that time burning briskly. The fire department immediately responded and was on the job in a remarkably quick time considering the hour of the alarm.

The blaze evidently from the condition of the part damaged started under the work table about six or eight feet in front of the stove in the back part of the store. At this point a quantity of large envelopes for wrapping hats were stacked. A hole about three feet square was burned at this place. The fire then spread to clothing and shoe counters and racks and on toward the ceiling.

Water used in extinguishing the blaze caused quite a lot of damage, although a number of racks of clothing and shelves of goods were burned.

The stock of goods in the store at the time is estimated as being worth from \$30,000 to \$35,000, with \$23,000 insurance on the stock and \$500 on the fixtures. Mr. Waggon was in the midst of a large sale which was started last Friday and had quite a large stock of goods on hand.

The Waggon Clothing Company, owned by I. D. Waggon and Sarah Waggon, had been in operation in Asheboro for about six years and has been doing a good business. Mr. Waggon came to Asheboro from Randleman where he had been in the mercantile business a short time. He at one time for several years operated a store at Ramseur.
