

Night Sweats & Cough.

E. W. Walton, Condr. S. P. Ry., 717 Van Ness St., San Antonio, Tex., writes: "During the summer and fall of 1902, my annoyance from catarrh reached that stage where it was actual misery and developed alarming symptoms, such as a very deep-seated cough, night sweats, and pains in the head and chest. I experimented with several so-called remedies before I finally decided to take a thorough course of Peruna. "Two of my friends had gone so far as to inform me that the thing for me to do was to resign my position and seek a higher, more congenial climate. Every one thought I had consumption and I was not expected to live very long. "Having procured some Peruna, I decided to give it a thorough test and applied myself assiduously to the task of taking it, as per instructions, in the meantime. "The effects were soon apparent, all alarming symptoms disappeared and my general health became fully as good as it had ever been in my life. "I have resorted to the use of Peruna on two or three occasions since that time to cure myself of bad colds." Peruna is sold by your local druggist. Buy a bottle today.

What you need in your shete is brains and some one to ruse up news and rite editorials on live topics. No menshun has been made in your shete of my butcherin' a polen china pig weigin' 309 pounds or the gapes in the chickens round here, you ignore that I bought a bran' new bob sled, and that I sold my blind mule, and say nothin' about it. Hi Simpkin's jersey calf broke his two front legs fallin' in a well, two important chiveres have been utterly ignored by your shete & a 3 column obituary notis rit by me on the death of grandpa Henry, was left out of your shete to say nothin' of the alphabetical poem beginnin' "A is for And and also for Ark" rit by me darter. "THE PALE GIRL" Did Not Know Coffee Was the Cause. In cold weather some people think a cup of hot coffee good to help keep warm. So it is—for a short time but the drug—caffeine—acts on the heart to weaken the circulation and the reaction is to cause more chilliness.

There is a hot wholesome drink which a Dak. girl found after a time, makes the blood warm and the heart strong. She says: "Having lived for five years in N. Dak., I have used considerable coffee owing to the cold climate. As a result I had a dull headache regularly, suffered from indigestion, and had no 'life' in me. "I was known as the 'pale girl' and people thought I was just weakly. After a time I had heart trouble and became very nervous, never knew what it was to be real well. Took medicine but it never seemed to do any good. "Since being married my husband and I both have thought coffee was harming us and we would quit, only to begin again, although we felt it was the same as poison to us. "The effect was really wonderful. My complexion is clear now, headache gone, and I have a great deal of energy I had never known while drinking coffee. "I haven't been troubled with indigestion since using Postum, am not nervous, and need no medicine. We have a little girl and boy who both love Postum and thrive on it and Grape-Nuts." "There's a Reason." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

From Terrible Eczema—Baby's Head a Mass of Itching Rash and Sores—Disease Cured by Cuticura. "Our little girl was two months old when she got a rash on her face and within five days her face and head were all one sore. We used different remedies but it got worse instead of better and we thought she would turn blind and that her ears would fall off. She suffered terribly, and would scratch until the blood came. This went on until she was five months old, then I had her under our family doctor's care, but she continued to grow worse. He said it was eczema. When she was seven months old I started to use the Cuticura Remedies and in two months our baby was a different girl. You could not see a sign of a sore and she was as fair as a new-born baby. She has not had a sign of the eczema since. Mrs. H. F. Budke, LeSueur, Minn., Apr. 15 and May 2, 1907."

BORAX IN THE DAIRY.

A Matter of Profitable Interest to the Farmer and Dairyman. The problem of keeping sweet all the utensils used in connection with milk and cream selling, and butter making, has been a serious one with the farmer.

He has come to realize fully that the slightest taint or hint of staleness left in a can, tin or churn may ruin a whole output; that the taint which is left in the form of bacteria which grow and multiply in milk or butter, producing disastrous results.

The farmer has learned that hot water won't rinse away the greasy residue in dairy utensils. He has learned that soap leaves a residue of its own which is, if anything, worse than the milk or cream residue, and it is little wonder that there has been a constant clamor for a dairy cleanser and sweetener that will meet modern requirements.

A few of the largest creamery establishments have called experts into consultation on this problem and have with this scientific aid hit upon a product of nature which exactly fills the bill—borax.

Scientists have long known borax as a cleanser, a sweetener and an antiseptic destroyer of bacteria and germ growths. Destroys all that is harmful and promotes and preserves freshness, sweetness and purity, relieving the dairyman and dairy housewife of drudgery and of needless work and worry.

Its cheapness and value should give it first place in the necessities of every dairy.

The cow's udder is kept in a clean, healthy and smooth condition by washing it with borax and water, a tablespoonful of borax to two quarts of water.

This prevents roughness and soreness or cracking teats, which make milking time a dread to the cow and a worry to the milker.

The modern cleanser of all dairy utensils consists of one tablespoonful of borax to every quart of water needed. Remember—a tablespoonful equals four teaspoonfuls.

Be sure that you get pure borax. To be sure, you must get "20 Mule Team Borax."
