THE ACME OF INVESTMENT

START A NEST EGG

Every National Bank should say to you: "Become one of our patrons, in other words a Thousand Dollar Bond."

1. Pay for it in 20 yearly installments of from \$18 to \$6 each.—This is obtained by yearly dividends, profits in our bank.
2. When you are 20 years old, bank guarantees to pay to you from \$18 to \$600 cash and
3. Guarantees if you fall down on payments, to loan you at interest a new bond portion paid in, and
4. If you, through illness or bodily injury become totally and permanently unable to earn money, will cancel all future payments and pay the amount to you in the form of an annual pension beginning your first year prior to the maturity of the bond, and these payments will not reduce the amount payable at death or the amount payable upon maturity of the bond.
5. On top of all this the Bank Guarantees, should your death occur during 20 years to cancel all future payments and immediately pay face of bond to your family.

Wouldn't this appeal to you as being about the neatest investment that a bank should do it?

In effect, this is what the New York Life Insurance Company is offering to do for the men and women on Endowment Policies. Let me show the life of your birth and I will fit you out with one of the above mentioned policies.
