WHAT IS TRANSPIRING IN AND

ABOUT RALEIGH.

STATE CAPITAL.

BY OUR RESIDENT CORRESPONDENT.

THE

RALEIGH, September 19, '91. There are but few men that can talk like Rev. Thos. Dixon, Jr., and the announcement that he will lecture at Metropolitan Hall on Wednesday night, Sept. 30th means that the hall will be full of hearers. His subject is to be "The Almighty Dollar," and all his great powers.

THE RAILROAD COMMISSION. Some time ago the Railroad Commission issued an order making the minimum rate on all small freight packages twenty-five cents. Some railroads who already had a rate on very small packages as low as fifteen cents raised it to

twenty-five cents. Now the Commission has issued an order prohibiting railroads from charging any more than fifteen cents on packages for which they formerly charged that figure.

A SHOCKING DEATH. A special from Fayetteville, Sept 16th one rainy night last week. It was exsays: James Harrington, Esq., of Came- hibited by a girl in a lace gown and the ron, a prominent stock dealer and a very tiniest scrap of a hat that ever development, in the South, while the former resident of Favetteville, fell out called Paris home. No girl could have of a fourth story window in the Lafayette owned that hat and not loved it. That hotel at 4 o'clock this morning and was | it had a firm hold on the wearer's affecinstantly killed, his neck being broken tions was proved by the sequel.

THE STATE SURVEYED.

NUMEROUS NEWSY NOTES FROM **OUR BRIGHT EXCHANGES.**

What Has and Will Happen of Interest Throughout the Old North State--Industrial and Otherwise.

Winston is building a new market house

J. F. Shackleford, of Tarboro, is reported as to enlarge his knitting mill. C. H, Harriss, of Rocky Mount, has fell heir to a hundred thousand dollars. W. P. Oldham & Co., of Wilmington, are changing their corn mill to a rice mill

Mr. Wm. West, the engineer killed comes from the manufacturers of the at the Statesville wreck, had \$7,000 worth of insurance.

> It is reported that a factory for the manufacture of patent bed springs will be established at Goldsboro.

Bryan Tyson and others will develop a gold mine near Prosperity and are now erecting necessary machinery.

Greensboro Record: Gov. Scales continues criticrlly ill, with no perceptible change in his condition.

The Greensboro knitting mills were sold last Monday for \$5,500. Capt. J. A. Odell became the purchaser.

Mr. George C. Heck has purchased from Col. J. M. Heck for \$23,000 thirty building lots in North East Raleigh.

The Manufacturers' Record says the recent advance in cetton, and the assurance of the largest grain crops for many years, have still further strengthened the position of the South in all business and financial matters, and everything indicates a very active winter and spring. The tendency of capital seeking investment must inevitably be Southward, for no other country possesses such wonderful resources. and nowhere else are the possibilities of profitable development so promising. The increasing

THROUGH THE SOUTH.

The Largest Grain Crops for Many

Years--Other Advances.

Number 31.

importance of the South's foreign trade and the position of Southern ports as the future outlet for the grain of the West is illustrated by the fact that Galveston is to have 1,000,000 bushel elevator and New Orleans one of 300,000 bushels capacity, while the grain trade at Norfolk has developed so rapidly that the elevator there has been unable to handle the business, and a floating elevator has been secared from New York, and even one of the big coal piers is being used in helping to transfer the immense traffic from the cars to the steamships, while some days ago the Norfolk & Western had nearly 600 grain-loaded cars on the

track at Norfolk. This rapid growth of the export business of the South, added to the tndustrial development that has been going on for the last few years, will greatly enhance the prosderity of this whole section. New industrial enterprises are daily being organised, and as this is not a speculative period, they must all be of a solid character. Among the number reported in this week's issue of the Manufacturers' Record are the purchase of 190 acres of land near Basic City, Va., as a location for powder and cartridge works, to employ, it ts said, 500 hands; the organization of a 400,000 phosphate company in Charleston; a \$1,000,000 improvement and development company in Fort Smith, Ark.: a \$25,000 quarrycompany and a \$50,000 lumber company in Virginia; a \$50,000 brick company and \$50,000 coal company in Kentucky; a \$100,000 grate manufacturing company and a \$10,000 lumber company in Knoxville; a \$75,000 cottonseed-oil mill in Dallas, Texas; a \$75,000 company for shipping fish frozen in ice from Florida to the North; a \$30,000 lumber company in West Virginia; a \$50,000 manufacturing company and a large cold-storage warehouse in Baltimore. Many enterprises of smaller magnitude have been reported, and many, large and small, are being organized.

A DYNAMITE FIEND.

He Planned a Salling Party, Which He Intended to Murder.

ASBURY PARE, N. J., Sep. 18.-The arrest of Aimee Louis Barrand, at Belvidere, for attempting to blow up a train at Kennedy, N. J., with dynamite, has brought to light the fact that the scoundrel stopped five days at the Balmoral Hotel, in Ocean Grove, last month. Carrand engaged a room for a month but he left town mysteriously and forgot an unpaid board bill and a valise containing a gigantic infernal machine and a worn out suit of clothes. The dynamiter while at the hotel planned a sailing party on lhe ocean, his departure caused the event to be postponed. Clerk Harry Ellis believes that Burrand intended to smuggle his machine on

board the boat, set the machinery going fruit yearly, and blow up the craft and its occupants when but at-sea, Barrand gave it out in Morocco, It would be a terrible
