

# THE TIMES,

PUBLISHED EVERY THURSDAY, BY  
YOUNG & GRANTHAM.

THURSDAY AUGUST 24, 1893.

The Richmond and Danville railroad seems to be in bad running order, had luckersomething along that order, last week another disaster or accident occurred near Milton, in which five persons were killed, and quite a number seriously injured, just the cause of the trouble is still a thing in the gloom of the future.

The Richmond and Danville railroad Directors, met last week and surrendered their right of exemption from taxation. They say all the other railroads in the State have to pay taxes on their lines, rolling stock and all property, and they are willing for their road to share a like fate.

These people in this country want Congress to act, and act quickly, they want something done, they want relief, they expect something and will never be satisfied until it is done, whether for the worse or better. We suggest that Congress pension every dissatisfied man \$50.00 per month, and news paper men twice that amount, and the financial trouble will end.

The silver equality, and its passing seems to cause wonderful discussion. We will take all the dollars at our office and allow full value, notwithstanding, there is not; but about 70cts worth of silver in them, in case we get fooled, or too much on hand we have some friends who has promised to help us dispose of the surplus.

Democrats must and will make their pledges good, give them a little time, this is the first Congress they ever had the full control of, so its new business to be running a thorough Democratic Congress in extraordinary session.

These Third Party fellows, "or Populists, as they style themselves" seem to understand all about the money question. We very often hear them talking, who never even learned the multiplication table by heart, or went through Webster's Blue Back and can't even give the boundaries of his State. But touch the silver question or financial situation and he can solve it in less than a minute, knows all about it. While the best statesmen and most profound thinkers have studied the same thing for years and yet they say they can't solve the great money trouble and confess they simply know very little on that line.

We saw from the Smithfield Herald last week where Rev. Jno. A. McMurray and F. D. Thomas, two Presbyterian ministers were locked in a struggle with a church at Kennington, Va. at a week's meeting, and a Mr. W. W. W. professing to be a member of the same church in good standing. This seems to be the wrong kind of feeling for one Christian to have for another, one denomination to treat another, specially after having consent from the Trustees to use the building. When people get to contending over the churches, and many other things for disputes and differences the old way gets in the church and its members, and does more damage in one day than the preacher can build up in a year. The Devil goes around seeking those whom he can devour. The real Christian, no difference how zealous a worker, will not try to pull his brother, whether he be of the same faith or not. There is one thing sure, and that is, all want to

go to the same place in the end, that is heaven.
