Dear Madam :- This is an appeal to common sense. We know we do not appeal to you cost when buying a paint. Once the needful oil is added to L. & M. you not only have a low actual cost, but your house will stay well painted longer than you wish. You will get so tirsome other shade of L. & M. just for variety's sake. These efforts proved utterly ineffective in face of the first quotations for Northern Pacific on the tape. The price paid for the stock ran up quickly to \$200 per share, and then to \$200, to \$500 and even to \$700 per share on regular transactions, and \$1000 per share for cash. The cash price paid meant that unfortunate shorts who were unable to borrow the stock last night for delivery to-day had to pay whatever for cash. The cash price paid meant that unfortunate shorts who were unable to borrow the stock last night for delivery to-day had to pay whatever cash price the engineers of the corner chose to ask for it. The figures indicated in these opening transactions meant ruin for a very large outstanding short interest fin the stock. The perception of this fact was the principal impelling cause in producing the demoralization in the stock market. The concerted effort to support the market by buying all stocks which might be offered, which is always the most effective manner of dissuading lief in Wall street, by some of the most powerful capitalists in the country, was swept away like a whirlpool under the deluge of offerings which came upon the market.

SHOVELING OUT STOCKS. As prices began to go down, the dis-position to buy decreased and the de-termination to sell seemed to grow in geometrical ratio, as a falling body gains in velocity the farther it falls. which prices have been going up has everybody. The price, it was generally exceeded any previous experience. THE COLLAPSE.

In Delawar and Hudson the extreme decline was 59 points; Manhattan, 377-8; Rock Island, 351-2; Union Pacific, 38; ...tchison, 341-2; Atchison, preferred, 281-2 St. Paul, 301-2; Missouri Pacific, 32; ... Chistophy Pacific 293-4; United States of the fight to control North-Pacific stirred the crowd, but the chief concern was for the future of the market as to the latter a very hopeful view generally prevailed. John W. Gates dispensed cheef. ... "The medicine has been hard to take." he said, "but it has done good. The figures alone suffice to indicate Steel, preferred, 261-2, while a range of five to thirty points would cover the collapse in nearly every active stock in the exchange.

In the outside market the stress of the demand was shown by the perpen-dicular drop in the price of Standard Oil of 171 points over night. The stock sold at 650, compared with 821 last night. The same urgent need was re-flected in the bond market, where all grades of bonds were offered on a declining scale. The sacrifices there were naturally much less than in the stock department of the market. After the turn in the market came, which it d d about noon, it was noticeable that the selling of bonds still continued, and this was explained as being due to a wish to secure funds to buy stocks to the attractive level of prices to which the market had fallen. In fact,

THE BARGAIN HUNTER was on hand and alert, and even 'n such a scene of disaster as that pre-sented there are those who reap the benefit. The drop in prices carried benefit. The drop in prices carried stocks of many substantial properties down to a level at which the current rate of dividends paid upon them and well assured make them attractive in-

It was a very notable fact that throughout the most acute period of to-day's disturbance there was nothing heard to indicate the doubt of the sound and prosperous conditions of industry and business at large in the country. The stock market collapse was attributed exclusively to overspeculation and an over-extension of credits used in holding stocks which it was not designed to keep, but to sell at a higher price. The shock which caused the collapse was the Northern Pacific corner, without dispute. The harm which might result from the Northern Pacific episode was by means so great in any one's mind at to justify the extent of the collapse is prices. But the delicate situation of the market due to the over-extension

cumulative strength. Speculators' margins were wiped out and brokers had to sell the securities placed with them as collateral to save themselves from oss, thus adding to the weight of the selling. The shrinkage in the market value of securities placed with bankers as collateral made it necessary that they should demand increased collateral or call the loans with which speculators were holding stocks. With their credits thus reduced, further sales of stocks had to be made, and so it came from every quarter.

RELIEF FOR ONE DAY. The importance attached to the Northern Pacific episode was made clear by the eagerness of all classes to learn all developments concerning it and the immediate effect of any announcement regarding it upon the stock market. The upward shoot to \$1000 a share was the effective cause of the greatest demoralization in the The announcement later in the day of the measures for the relief of the shortages and the relapse in the price of the stock to 300 allayed the demoralization almost immediately.
Announcements by J. P. Morgan & Co.
and Kuhn, Loeb & Co., who respectively represent the two consulting tively represent the two consulting parties, that they would not require deliveries of the stock to-day, meant a respite of one day at least from ruin for the shorts in the stock. Later in the day Street & No.con announced that they also would not r. uire deliveries of the stock. This firm has been credited with acting for James B. Keene and bought 200 000 shares of R. Keene and bought 200,000 shares of Northern Pacific on Monday last, loan-ing 150,000 shares that night and call-ing in the greater part of it the next day, thus disclosing the corner in the day, thus disclosing the corner in the stock. The theory that Mr. Keene's campaign had been directed towards a squeeze of the shorts was somewhat shaken by this leniency towards mis victims. It was significant also that, although the parties to the contest for control showed their willingness to relieve the shorts by remitting the relieve the shorts by remitting the requirement to deliver stock they failed to come to any mutual agreement to lend the stock, such as was proposed by one party last night. The surmise that the Pittsburg Locomotive Works with a capital of \$50,000,000, and that the Pittsburg Locomotive Works with the pittsburg local pi seems warranted from this unwillingness of either party to let any of the stock get out of their hands even to relieve the shorts that there was conficiently country. tinued doubts in the minds of both as tinued doubts in the minds of both as to where the actual control of the prop-erty lies.
