Presidential Boom.

The "niggers" and the trusts are to nominate Mark Hanna for the Presidency. He has fourteen States in his hand, and no man has money enough to take them away from him. These States are Alabama, Arkansas, Florida, Kentucky, Georgia, Louisiana, Maryland, Mississippi, Missouri, North Carolina, Tennessee, Texas, Virginia, and West Virginia. South Carolina should be added although the McLaurin movement has rendered the standing of that delegation in the convention somewhat doubtful. The fourteen States will cast in the convention 332 votes, and Ohio will add 40 to that number, leaving but 105 delegates to be obtained by the trusts in order to nominate their man. Patronage holds the Southern delegates secure. It holds secure to Mark Hanna the delegates, and so it is in the Southern States. Roosevelt may be offered the Vice Presidency again, but that is all he can get, and as for the claim headed by Odell, Fairbanks & Co., they are among the "also rans."

Strange Phenomenon in Ashe.

Ashe county has the strangest phenomenon yet reported as a supposed result of the continuous rains. On Phoenix Mountain, about four miles from Jefferson, crowds have been gathering for several days to see the openings in the sides of the mountain. There are three of these openings, varying in width from two to nine feet and of a depth of from two to six feet. There are no slides of earth at the points, but a sharp rock of the soil and the rocks imbedded therein. The dead trees which are lying on the surface are dragged to one side of the opening, or left spanning them; the rocks, which lay upon the surface, are upon one side or the other of the openings, with their edges suspended over the cavity. Strangest of all, the trees which were growing at the place of the cracks in the earth, are split at the bottom and now span the opening in the earth, one-half the tree on one side and the other half upon the other. Where the edge of a tree just touched the point of division in the earth, that edge is shaved off and the tree left standing.—Charlotte Observer.

It Dazzles the World.

No discovery in medicine has ever created one quarter of the excitement that has been caused by Dr. King's New Discovery for Consumption. Its severest tests have been on hopeless victims of Consumption, Pneumonia, Hemorrhage, Pleurisy and Bronchitis, thousands of whom it has restored to perfect health. For coughs, colds, asthma, croup, hay fever, hoarseness and whooping cough it is the quickest, surest cure in the world. It is sold by C. L. Wilson who guarantees satisfaction or refunds money. Large bottles 50c and \$1.00. Trial bottles free.

Strikes a Rich Find

"I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H., "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicines I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a grand tonic and invigorator for weak, run down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by C. L. Wilson.

Acute Dyspepsia

Before the mugwump papers in this State resumed their old abuse of Mr. Bryan, about six months ago, and began to assume the airs of a vindicated faction, there were some signs of disloyalty to him among former Bryan newspapers; but the action of the mugwumps has been resented and has had the effect of consolidating anew the Bryan Democracy. Mr. Bryan has declared unequivocally that he is not a candidate for renomination in 1904. If his enemies persist in their present course, they may force the Democracy to nominate him, whether he wishes or not.

Coleman's Guarantee

"Sold on its merit."
Mrs. J. C. FARRAR, Danville, Va., says: "I suffered for two months with Acute Dyspepsia and could find no relief. Prescriptions of the best doctors did me no good. My friends advised me to try 'Coleman's Guarantee,' and I found almost instant relief. By the time I had taken two bottles I was entirely cured."
PRICE 50c. A BOTTLE.
Sold by all druggists.
Money refunded if it fails to cure.

A CANNING FACTORY.

CAPACITY 1000 CANS PER DAY.

I buy peaches and tomatoes. I sell tin cans and pack fruits to order. I use water, steam and syrup of sugar and pack fruits free from adulteration. Bring your peaches to me and I will save you money, labor, time and cost of glass jars. Fruits properly packed in tin cans retain their original flavor. This is lost in glass jars.

Deliver your peaches to me well assorted. "Presses" in boxes to themselves holding one bushel each. "Clearstones" in boxes holding one bushel each. Gather your peaches when just ripe. Let them be uniform in size and ripeness. Such peaches will bring good prices if they have any size.

I shall employ none but neat packers and guarantee satisfaction in prices, cleanliness and quality. You lose no fruits in tin cans. I teach you how to use the same tin can for any number of years. The tin can will not freeze or break and can be filled any number of times during the same season.

All ladies who are interested in canned fruits and catchup are invited to visit the factory. Factory located near Main Street, East Dunn.

A Certain Cure for Dysentery and Diarrhoea.

"Some years ago I was one of a party that intended making a long bicycle trip," says F. L. Taylor, of New Albany, Bradford County, Pa., "I was taken suddenly with diarrhoea, and was about to give up the trip, when editor Ward of the Laceyville Messenger, suggested that I take a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip successfully and never felt any ill effect. Again last summer I was almost completely run down with an attack of dysentery. I bought a bottle of this same remedy and this time one dose cured me." Sold by Hood & Grantham.

Love is blind, and that may be the reason it makes spectacles of its devotees.

When you want a pleasant physic try the new remedy, Chamberlain's Stomach and Liver Tablets. They are easy to take and pleasant in effect. Price 25 cents. Samples free at Hood & Grantham's drug store.

MRS. MCKINLEY IS TOLD.

Mrs. McKinley, who has been so long in ill health, was not told of the sad event until 9:10 o'clock, five hours after the shooting occurred, as its effect upon her was greatly feared. She received the news

PRESIDENT MCKINLEY SHOT.

WORK OF ANARCHIST.

Assassin During a Reception at Buffalo Exposition.

For the third time in the history of the United States the nation's Chief Executive has been laid low by the hand of an assassin. President McKinley was shot twice Friday evening last and perhaps mortally wounded, as were Lincoln and Garfield before him.

SHOT BY ANARCHIST.

The assassin was Frederick Nieman, an avowed Anarchist, who says "I did it. I am an Anarchist, and was carrying out my principles. I have only done my duty." He is 28 years of age of Polish descent, and says he has come from Detroit, Toledo, Cleveland and other cities.

Amid thousands of others, professing to show their respect and loyalty for the President of the United States, Nieman approached the dais where Mr. McKinley stood, as if to shake hands when his turn came in the long line. He had a handkerchief in his hand which unknown to those who stood next to him, covered a revolver.

Nieman's turn came at a few minutes after 4 o'clock, when the public reception had lasted about 10 minutes, and when perhaps 250 men and women had preceded him in shaking the hand of the Chief Executive.

UNCOVERED HIS PISTOL.

When Nieman was within three feet of the President and was apparently on the point of shaking hands, he suddenly uncovered the revolver and fired twice.

TWO BULLETS TOOK EFFECT.

The President was taken to the Emergency Hospital, where an operation was performed, and thence to the home of President John G. Milburn. The physicians found that one bullet struck him on the upper portion of the breastbone, glancing, and not penetrating. The second bullet penetrated the abdomen five inches below the left nipple, and one and a half inches to the left of the median line.

SECOND BULLET NOT FOUND.

The abdomen was opened and it was seen that the bullet had penetrated the stomach. The opening in the front wall of the stomach was closed with silk stitches, after which a search was made for a hole in the back wall of the stomach. This was found and was also stitched up.

A COMMUNICATION.

MR. EDITOR.—allow me to speak a few words in favor of Chamberlain's Cough Remedy. I suffered for three years with the bronchitis and could not sleep at nights. I tried several doctors and various patent medicines, but could get nothing to give me any relief until my wife got a bottle of this valuable medicine, which has completely relieved me.—W. S. BROCKMAN, Bagnell, Mo. This remedy is for sale by Hood & Grantham.

with the utmost courage and fortitude.

Vice President Roosevelt, upon whom in the event of the President's "inability to discharge the powers and duties of his office" may devolve executive authority, was at Burlington, Vt., when he received the news of the shooting of the President. He left at once for Buffalo, where the members of the Cabinet will meet to-day to take such action as may be necessary.

The Hog in Chicago.

It has been proposed to turn hogs loose in certain parts of Chicago to serve as scavengers. The plan has been both warmly commended and fiercely attacked. The Chicago Chronicle opposes the hog proposition on the ground that there are too many hogs loose in town now.

War department officials believe that the Cubans will be able to establish their independent form of government by May or June.

Cuba to be Free by June.

The administration does not propose to countenance any interference with the natural progress of events in this direction, says the Washington correspondent of the New York Press. While it has been repeatedly urged that this country was placing obstacles in the way of the Cubans in forming their government, officials of the department say that the expressions of Secretary Root, while he was in Washington last week, show that the president and the administration will do everything possible to assist the Cubans in their work which they have in hand. The decision not to promulgate a new tariff schedule is an indication of this. Secretary Root gives as his reason for not promulgating the recently prepared schedules the short time which will elapse before the Republican form of government is in vogue.

While the new Cuban government will follow its own wishes in the matter, there is nothing to prevent the work of the tariff commission being turned to good advantage. Administration officials say that the only delay in forming the new government, which can in any way be attributed to the United States is that occasioned by the refusal of the United States to accept from the Cuban constitutional convention a modified form of the Platt amendment.

General Wood said while in Washington that he returned to Cuba at this time to assist in carrying forward as rapidly as possible the preliminaries to the election of the officers of the new republic.

He expected to issue the call and instructions for the holding of the elections shortly after reaching the island.

What may develop in case the Cubans find self-government unsatisfactory and are unable to maintain order and preserve peace and carry on the machinery of their government is not discussed by officials in Washington.
