Why Tea is Both Black and Green.

One of the scientists at the Agricultural College of Tokio has been investigating the subject of the difference in the color of tea leaves, and he offers the following explanation: In making green tea the leaves are steamed as soon as they are gathered. In the case of black tea the leaves are allowed to ferment before drying. The result is that the finished black tea contains much less tannin than the green. The original tea leaf possesses an oxidizing enzyme, which is destroyed in the green tea by steaming. In black tea, during fermentation the enzyme oxidizes the tannin, and gives rise to a brownish product.—Selected.

HOW TO BE A GENTLEMAN.

Let no boy think he can be made a gentleman by the cloth he wears, the horse he rides, the stick he carries, the dog that trots after him, the house that he lives in, or the money he spends. Not one, nor all of these do it, and yet every boy may be a gentleman. He may wear an old hat, cheap clothes, live in a poor house, and spend but little money. But how? By being true, manly and honorable. By keeping himself neat and respectable. By being civil and courteous. By respecting himself and others. By doing the best he knows how. And finally, and above all, by fearing God and keeping his commandments.—Sunday School Evangelist.

work for the upbuilding of the State. At the forthcoming session of the Legislature, through the efforts of this Association, we shall hope to be in shape to present a practical and desirable Road Law which will benefit every township in every county in North Carolina in the matter of public roads.

I hope your Board will favorably consider this matter at its next meeting; any delay means an abatement of interest which will detract from the success of the undertaking. The money may be sent to our Treasurer, Mr. Joseph G. Brown, the President of the Citizens National Bank, at Raleigh, N. C., who will be the custodian of all the funds of the Association, and who will give you the Association's receipt for your remittance.

Herewith I am sending you a stamped envelope addressed to Professor J. A. Holmes, Chapel Hill, N. C., who is the Secretary of the Association, and with whom all correspondence relating to these matters should be conducted.

Yours very truly,
P. H. HANES,
President.

Having a Run on Chamberlain's Cough Remedy.

Between the hours of eleven o'clock a. m., and closing time at night on Jan. 25th, 1901, A. F. Clark, Druggist, Glad Springs, Va., sold twelve bottles of Chamberlain's Cough Remedy. He says, "I never handled a medicine that sold better or gave better satisfaction to my customers." This Remedy has been in general use in Virginia for many years, and the people there are well acquainted with its excellent qualities. Many of them have testified to the remarkable cures which it has effected. When you need a good, reliable medicine for a cough or cold, or attack of grip, use Chamberlain's Cough Remedy and you are certain to be more than pleased with the quick cure which it affords. Sold by Hood & Grantham.

A LIVE SNAKE IN HIS MOUTH.

Colonel Walter R. Henry, the National Bank Examiner, who has recently returned from Elizabeth City discussed the Cropsay case yesterday.

"They have new evidence and I wouldn't be a bit surprised if they hang James Wilcox," he said.

"Some startling developments, then?"

"Oh, yes, it seems that just before he was arrested Wilcox drove through the streets of Elizabeth City holding a big live moccasin snake in his mouth."

"Well?"

"Well, don't you think the ordinary jury will believe that a man who travels around with a live snake between his teeth ought to be hanged on general principles?"

A Printer Greatly Surprised.

"I never was so much surprised in my life, as I was with the results of using Chamberlain's Pain Balm," says Henry T. Cook, pressman of the Asheville, (N. C.) Gazette. "I contracted a severe case of rheumatism early last winter by getting my feet wet. I tried several things for it without benefit. One day while looking over the Gazette, I noticed that Pain Balm was positively guaranteed to cure rheumatism, so I bought a bottle of it and before using two thirds of it my rheumatism had taken its flight and I have not had a rheumatic pain since." Sold by Hood & Grantham.

To Die by the Rope.

Durham Sun: Several N. C. tobacco men, both planters and dealers, have been asked what effect the proposed tariff reduction on Cuban tobacco would have in this State. They all agree that it will not hurt the North Carolina tobacco for the Cuban article is the leaf used in cigars, while the North Carolina weed is used in smoking tobacco and cigarettes. The only injury which the growers in this State could suffer would be that some cigarette and pipe smokers might take to cigars instead when the latter became cheaper.

His Definition of Eternity.

"The best illustration of what eternity is, with its endless flight of time," said a Western member of Congress the other day, "was one I heard given by a preacher who was conducting a revival at a Colorado mining camp. The revival had been well attended, but there was a poor harvest of souls, and the rough old preacher depicted the joys of heaven and the tortures of hell with discouraging results. One evening he announced that the revival would close with that meeting unless the sinners showed a desire to repent. He then depicted the sufferings of the lost and in telling them how long it would be before they would be freed from their environment or brimstone and hell, he said: 'You will suffer for all eternity. Do you know what that means? I'll tell you. If a little sparrow was to dip his bill in the Atlantic ocean and take one drop a day and hop across the country and put that drop in the Pacific ocean and then hop back to the Atlantic, one hop a day, and if he kept that up until the Atlantic was dry as a bone, it wouldn't be sun-up in hell.'"

"It isn't necessary to add that mourners came to the bench that night and the meeting continued for some time."
