

ASHEVILLE DAILY CITIZEN. By RANDOLPH-KERR PRINTING CO. The Daily Citizen, Democratic, is published every afternoon (except Sunday) at the following rates—strictly cash: ONE YEAR \$6.00 SIX MONTHS 3.00 THREE MONTHS 1.50 ONE MONTH .50 ONE WEEK .15

TUESDAY, JULY 14, 1891. Give all the aid and comfort you can to the Atlanta, Asheville and Baltimore project.

Get out every possible vote for the railway that is to give us competition and lower freight rates.

Dougherty says that after the killing of Wm. Torrence he remained for several days in Asheville. Who harbored him? is a question for the officers to ponder over and investigate. Must we send our law breakers to Texas to be caught?

The new-old editor of the Progressive Farmer, J. L. Ramsey, opens his first batch of editorials with suggestions that if there isn't a fight in sight he will make one; as witnesses:

"I prefer peace, but if there must be war, you may look to the front for a banner with 'The Progressive Farmer' inscribed thereon."

"If your party insists on getting in the way with whole cords of old rubbish and issues hanging to it, you need not be surprised if it gets knocked into a cocked hat."

"An editor has been found who can 'swallow the sub-treasury.' We can also chew up some of those who oppose it, too."

"For the information of those interested, we will state that we have the same pair of 'yaller shoes' worn last summer. They still get there with both feet."

The Motz Scandal. We read in the public prints that all the parties to the Cleveland county tragedy belong to "first families." That seems impossible to believe. Members of first families do not carry guns and kill innocent men from ambush. There have been some members of first families in this vicinity and it never occurred to them to take the law into their own hands and fire off a shot gun at a supposedly guilty man and then take to their heels. Members of first families are seldom seen running away from an enemy. They are generally gentlemen and ladies.

It is deplorable from many points of view that the brothers of Miss Maggie Motz, herself a young lady of good breeding and hitherto high standing among her friends, should have so widely and thoroughly advertised her misfortune by attempting to publicly right her wrongs and that, too, by murder. Under no possible chance could such a plan succeed. It simply makes two wrongs where there was but one before. If "Bob" Michael was so bad that he deserved to be killed by the Motz brothers, they would have been cruel to force a union between him and their sister; there could be no congenial feeling or sympathy between such a villain and a lady of refinement.

As this deplorable affair stands at present, it has been made worse by the lawlessness of the Motz brothers. One innocent man is dead, three must be put on trial for their lives, and the scandal, so far from being cured, is just all curing, except by time. The whole affair is greatly to be deplored, but its lesson ought to be of service in every community where there are lawless men.

That Charleston Dyepot. From the Chattanooga Times. We regret to find the following in that usually level-headed journal, the Charleston News and Courier:

"The effort that is being made in places in the south to revive the celebration of the fourth of July in the old time spirit and manner is not likely to meet with much success. For a people who have been conquered to hurray over the independence they once achieved in an act of self-satisfaction which is unknown to history so far, and we see no reason to believe that the ignominious precedent will be established in any one of the subjugated States of the new American Nation."

And we are restored to our patriotic equilibrium by this, which we read with delight in the New Orleans Times Democrat.

"This is the day on which there is no east, no west, no north, and no south in this broad land, but one undivided and indivisible America, from ocean to ocean and from lake to lake. And as it is one undivided country, so are we one undivided people, without trace of local prejudice or sectional feeling—Americans only and Americans all."

The talk of the News and Courier about "subjugated States" is in the veriest and historical nonsense. Worse than this is the suggestion that the south, in celebrating the nation's birthday would make herself "ignominious."

Facts. From the Southern Farmer. There is no idea about, that the government can put its presses night and day, and flood the country with paper money, and then everybody will have a plenty.

Friends, don't you know you couldn't get a dollar out of it unless you had some thing to sell, or could hire yourself out to get it in wages or salary?

Do you know you can get plenty of money now, if you have something to sell, or you can hire out for wages? There may be stacks of money in the treasury as high as your head, but no you on me. Not a bit of it!

Cheap money means high—everything else. The cheaper the money the dearer the stuff. As money gets dearer and scarcer, then goods get cheaper and more plentiful.

It is Too "Regardless." Raleigh cor. Wilmington Messenger. The "new idea" of a tariff league, which was started here several days since, is meeting with poor success. None but original republicans have yet joined, and the invitation for all, regardless of former party affiliations, does not seem to be acted upon with that alacrity expected. Outside of national office-holders, there are but few who "take stock" in the movement.

Don't! Special Cor. Raleigh State Chronicle. Another week has passed, slipped away on the ever restless river of time, never to return.

THE WORLD'S CROPS. What the Shortage Abroad Means for Us. From Henry Clews' Letter. According to estimates, we are in a position to furnish to Europe close upon—possibly fully one-half of its total required imports of wheat. This means that this one item of our exports will amount to something near \$200,000,000. To the United States, this is a very exhilarating prospect; but to Europe it is a very gloomy one. Even were the European nations in a prosperous condition, such an extraordinary necessity to buy bread from foreign countries would be appalling; but, coming after an entangling financial crisis, the heels of a large drain of gold into Russia, and at a time when industry is contracting and foreign trade is languishing—what may be the possible result of these short harvests to Europe? It is useless to predict; and it is imperative to wait for consequences.

The present attitude of expectancy assumed by Wall street is the only safe and wise one under such circumstances. It is not likely that we shall be permitted to reap the advantage of a great crop with some sort of drawback, and it is wise to wait and see in what form that drawback is likely to come. Europe will find it impossible to pay us for our wheat without making some sacrifice. She will offer her products to us at low prices, or bring, if we accept them freely, our wheat will be so far paid for in goods instead of gold, if we buy only our usual quantity of imports then Europe will be compelled to pay us largely in our securities held there, and in that case, the settlement of the New York stock market. For these reasons we advise moderate expectations, at least until the future of Europe becomes plainer.

THE DOUGHERTY INTERVIEW. Was "The Citizen" Guilty of Contempt of Court? EDITOR THE CITIZEN:—Permit me to say that in my opinion your local exceed the bounds of propriety in publishing yesterday your interview with the prisoner Dougherty, as Deputy Sheriff Jones and Jailer Jamison certainly violated their duty in permitting it to be held.

We all know that a prisoner is incarcerated for a double purpose: one to secure his presence for trial; another, equally important to protect the prisoner from injustice. Now I ask why was it necessary to enter the crowd of men in "The Citizen," with a "lump in his throat" and then to add "Dougherty made his statement in a very disconnected way, at times having to stop and study for several moments before he could answer a question?" What right had your man to "question" this prisoner? Did he not know his circumstances and condition? That he was answering without advice of his counsel?

Truly, I think this is a case in which Judge Carter may seriously consider, if he is not incumbent on him to reprimand the officers of his court for permitting the violation of this man's rights, and also to hold guilty of contempt of his court. "The leading paper of Asheville."

Respectfully, T. W. Patton. ASHEVILLE'S POLICE. A "Citizen" has a few kind words for the Cops. EDITOR THE CITIZEN:—Would you be kind enough to allow me a little space in your daily? I desire to state to the citizens of Asheville a few facts concerning our police force, not in reply to what has been said, but as a matter of justice to them. Much talk about brotherly love and their election amounts to nothing. Not a word of encouragement has yet been given to them. I have been watching them ever since their election, and a more diligent, hard working set of men I have never seen. The whole city is now protected. If a man gets drunk and goes to Baptist hill, Peachtree or Cripple creek in a short time in the lockup. Not only are they hard working men, but intelligent men. They are certainly an honor to Asheville, and if they hold out with their work they will place her on a higher plane. I know they are interested in the welfare of Asheville. At the dead hours of night, when all of our good people are sleeping, they are existing the gambling, selling of this place, breaking them up, and in as much as they are our protection we ought to give them more encouragement.

That's it. Mr. Maxim says: "Give me time and I will show you a flying machine." Are we to understand that Mr. Maxim means to utilize the old principle involved in the discovery that time flies?—Detroit Free Press.

THE FARMER IS THE MAN THAT FEEDS US ALL. Weldon News: The peach crop will be enormous.—The tobacco crop is very fine in this section. Warrenton Gazette: From what we hear and see the tobacco is not near so good as it was this date last year. The reports of correspondents of the weekly Weather Crop Bulletin issued by the North Carolina Experiment Station and State Weather Service for the week ending Friday, July 10th, 1891, show that crops have generally continued to improve.

Raleigh News and Observer: A curious incident was noticed Friday at the cotton platform. Some cotton was brought in which according to the owners was six years old. Upon being cut open it was found that fully two-thirds of it was damaged and almost useless. It had probably been held for better prices.

A Fine Specimen of Marryat. Frank R. Stockton. It is difficult to answer whether humor is keener here or in England. The finest English humor would not appeal to us sometimes. The English have great humorists in their annals—Sydney Smith and Charles Lamb, and W. S. Gilbert. We have none like them. Do you remember how Marryat describes Keel hauling as "undergoing a great hardship"—that is a perfect piece of English humor.

Mirtle M. Tanner, Boonville, Ind., writes: "I had blood poison from birth. Knots on my limbs were as large as hen's eggs. Doctors said I would be a cripple, but B. B. B. has cured me sound and well. I shall ever praise the men who invented Blood Balm were born."

THE DAILY CITIZEN is the people's paper, and this unprecedented inducement is offered in order that many more people may read it each day. There are at least 1,500 men in Asheville who do not now subscribe for THE CITIZEN, who are amply able to do so, and THE CITIZEN knows no easier way to secure them than by enlisting the efforts of the ladies in its behalf. All names will be carefully entered in a book kept for the purpose, and the lady sending in the greatest number of names, accompanied by the money, as indicated, before December, will get the Watch on December 1st, and the one getting the next largest will get the Pin.
