(CONTINUED FROM PAGE ONE.)

Crew of twenty-seven all saved in own boats. Submarine refused assistance. No other boats in sight.

## ELEVEN AMERICANS.

PENZANCE, England, March 14.—A member of the crew of the Algonquin said today that the ship's company aggregated twenty-six, of whom eleven were Americans. He added that the captain was an American citizen.

# INDIAN COTTON DUTIES RESOLUTION CARRIED BY A LARGE MAJORITY

Lloyd-George Carries Measure With Amendment by Asquith.

## ONLY FAIR TO INDIA.

LONDON, March 14.—The government successfully resisted the strong attack on the Lancashire cotton duties resolution both in the house of lords and the house of commons tonight and securing the defeat of the Lancashire amendment by the substantial majority of 140, after Premier Lloyd-George had conceded that the whole question should be reconsidered at the termination of the war.

This result was the outcome of a strong plea made by the premier that the government policy was only fair toward India, which, in addition to the great assistance already given

toward the prosecution of the war, was the thin end of the wedge of tariff military operations and on the attitude of ex-Premier Asquith, who agreed that it would be inadvisable to go back on the decision already taken because it would have disastrous effects on India. Mr. Asquith proposed an amendment to reconsider the question after the war, which the prime minister accepted.

J. Austin Chamberlain, secretary for India, alluded to grave matters in the recent government of India, which would only be revealed when the archives gave up their secrets.

The Lancashire members, realizing that the chance of defeating the duties was gone, held a hurried meeting and decided to carry the question to a division as a formal protest.

Andrew Bonar Law, chancellor of the exchequer in a speech concluding the debate, denied that his proposal was the thin end of the wedge of tariff reform, and said they had to choose between trouble in India and trouble in Lancashire.

## DRAFT MINORITY REPORT.

WASHINGTON, March 14.—Republican members of the senate foreign relations committee tonight drafted a minority report on the Colombian treaty expressing disagreement with majority members of the committee who have recommended ratification.

The report expresses the view that there is no reason for the United States to pay Colombia \$25,000,000 and that there is no ground for an expression of regret for anything connected with the partition of Panama. The treaty was reported to the senate today and will come up probably tomorrow for discussion.

## TWO CAPS ONLY CLUE.

CLEVELAND, Mar. 14.—Two caps found in a satchel with \$3,700 was the only clue the police had tonight by which to trace the two automobile bandits who today held up and killed Paymaster Morey, of N. J. Rich and company and wounded Nathan Halper. The bandits escaped with a bag containing \$5,400, but the police recovered the satchel containing part of the loot, at a railroad station where it had been checked to Toledo. Halper is expected to recover.

# APPEAL TO PATRIOTISM OF BROTHERHOODS MADE BY RAILWAYS COMMITTEE

(Continued from Page One.)

The brotherhood chiefs issued the following:

"The nearly two hundred chairmen of the transportation organizations meeting here today, representing a number of principal lines in eastern territory, unanimously approved the compromise proposition presented to the managers' committee last December, in the hope that at that time of a peaceful settlement.

"The railroads, after having refused to accept a settlement of the eight-hour controversy proposed by President Wilson last August, and after having refused to observe the eight-hour law enacted by congress, must accept responsibility for a strike, should it take place. It is too late for them to now pose as patriots, hoping thereby to defeat the just contentions of their employees.

"We have requested a renewal of negotiations commencing tomorrow, in the hope of effecting a peaceful settlement."

This statement was signed by W. E. Stone, grand chief engineer of the Brotherhood of Locomotive Engineers; L. E. Sheppard, acting president of the Order of Railroad Conductors; W. S. Carter, president of the Brotherhood of Locomotive Firemen and Engineers; and W. G. Lee, president of the Brotherhood of Railroad Trainmen.

## FULL CO-OPERATION.

WASHINGTON, March 14.—Full co-operation to make a strike effective will be given by the American Federation of Labor if the railroads reject the demands to be made upon them tomorrow by the employees' brotherhoods. No immediate sympathetic strikes are contemplated, federation officials said tonight, but the brotherhood chiefs have been assured of prompt and hearty support in every other way possible.

Officials of the federation's railway department, representing more than 400,000 employees, switchmen, telegraphers and maintenance-of-way laborers not affiliated with the brotherhoods, conferred at length on the situation during the day. The first move if the strike comes probably will be to admonish all union men not to offer their services to take the place of strikers.

Plans for a general strike of all other railroad employees have been discussed, but the chief already expressed was that it could accomplish no good at this time.

President Wilson is ready to act promptly should the nation-wide railroad strike be threatened to begin Saturday really prove imminent after the conference between representatives of the railroads and employees in New York tomorrow.

Any action is expected to take the form of a demand in the public interest that the two sides settle their differences in view of the grave international situation.

Though Secretary Wilson and members of the federal board of mediation and conciliation, the president kept in close touch with the situation today.

## HAVE ORDERS.

BRISTOL, Tenn.-Va., March 14.—Railway employees of the Norfolk and Western, Southern and allied lines operating into Bristol admit they have orders to go on strike at 7 o'clock Sunday evening. It is understood that a representative of the brotherhoods from Washington passed through here tonight giving verbal instructions to the men. It is said the order to strike covers the operation of all trains not engaged in carrying mail. Employees of mail trains are to continue operating them for five days following Sunday night when they are to follow. It is said employees of the Norfolk and Western are practically unanimous for the strike while older employees of the Southern are not in full sympathy with the movement at this critical period.

## WHAT WAR COSTS FRANCE.

PARIS, March 14.—At the end of June, France will have spent during the war in round figures \$2,000,000,000 francs, according to a report made by Raoul Peret, reporter of the budget committee of the chamber of deputies, in behalf of the committee, on the provisional credits asked by the government for the second quarter of the year. The resources of every nature realized during the same period are estimated by M. Peret at 73,408,000 francs.

M. Peret, in his report proposes on behalf of the budget committee increased taxation and certain reductions in expenditures. It would appear from the report of M. Peret that amount of short term national bonds in circulation at the end of February was 14,500,000,000 francs.

In addition to her expenditures, France has advanced to her allies 2,875,000,000 francs, making a total outlay since August 1, 1914 of eighty-seven billion francs.

## GERMANS HUSBAND STRENGTH.

LONDON, March 14.—A Reuters dispatch from British headquarters in France says:

"The British advance, which was on a front of nearly four miles directly west of Bapaume, Monday, during that open warfare which the British troops so welcome after the wearisome monotony of trench life. The Germans covered their retreat with a slaughter of rear guards, and, although the British patrols came into contact with these at many places, their object apparently was to avoid action as far as possible. This confirms the idea that the Germans are doing their utmost to husband their strength for the future."

## BACON RETURNS.

NEW YORK, March 14.—While course was applying a demurrer in the Federal District court here today in the case of Albert O. Sander and Charles N. Wunnenberg, indicted as German spies, it developed that George Vaux Bacon, who in the guise of an American newspaper correspondent is said to have gone to England as their agent, had returned on the steamship Cedric and would be used as a government witness. Bacon, it was announced, will be guarded closely from friends and interviewers until he appears in court.

## MUST HAVE PASSPORTS.

WASHINGTON, March 14.—Ambassador Willard, at Madrid cabled the state department today that after April 1 all aliens entering Spain will be required, on pain of fine or expulsion, to have passports of their own countries viced by Spanish consular officers.

Aliens now in Spain must be provided with passports viced by their country's consular officers.

**GERMANY TRICKED THE WORLD**  
Germany deceived the world in its last census and gave its population as 16 million less than it really was, according to a dispatch from Berne featured in London newspapers recently. According to official returns published before the war began the census showed Germany to have 65 million population. Now it is said the population really was 85 million and that the number of able bodied men named in the official government report was greatly under the actual figure.

The plan of the German government, it is asserted in the Berne dispatch, was to deceive the other powers of Europe as to Germany's actual man power. The discrepancy between the real population and the government figure, it is now pointed out, accounts for Germany's unusual strength in reserves and its remarkable recuperative powers. Allied experts for a long time have been unable to reckon accurately as to Germany's reserves which, according to calculations, should have been exhausted some time ago.
