PATTON KEPT BUSY WITH TAX COLLECTIONS; ABOUT 50 PCT. PAID UP TO DATE

People of Transylvania county and Brevard are keeping Sheriff T. E. Patton busy at his office collecting taxes, and although he estimates that about 50 per cent of the taxes are paid at this time, indications are that a much bigger portion of the 1930 taxes will have been paid into the county treasury by the time the books close the first of the month for the receipt of 1930 tax money. Sheriff Patton said yesterday that he wished to remind property holders that by payment of taxes this month they have only a twenty-cent penalty to pay, and that also by paying before the first of November, they can avoid an additional \$1.50 assessed against them when they do pay. This sum is the state requirement for the cost of sale and the certificate of sale.

W. Hennings, secretary of the conference, and presented by Governor Gardner are carried out. KIZER TOTALS ESTIMATES OF LOCAL BUDGET

Sum of \$273,254 Needed, With Tax Rate \$1.69 and Valuation 9 Millions ONLY \$126,183 NEEDED TO STRIKE BALANCE

Figures for the summary of the annual budget estimate for Transylvania county were completed Monday of this week by County Accountant A. H. Kizer, showing total estimated budget requirements for the current year ending June 30, 1932, as \$273,254.85. The estimated tax rate on this property valuation per hundred dollars is \$1.69, as compared with the levy of the preceding year of \$1.84. Mr. Kizer's estimate of revenue to be available from sources other than from tax levy is \$147,071.49, leaving the amount necessary to raise for the purpose of balancing the budget as \$126,183.36.

Mr. Kizer, in formally issuing his budget summary explained that the assessed valuation for 1930 was being used at this time because of the fact that the 1931 valuation is still not completed. The 1929 valuation was \$9,319,806, and the estimated value for the current year is an even nine million dollars. Mr. Kizer explained, through a loss of personal property held in the county, and through correction of the records by eliminating duplications.

It was stated that the summary of budget estimates, as appearing in full in this issue has been adopted, but that it may be regarded as a matter of form. Charles M. Johnson, director of the local government commission at Raleigh has advised that the deferred action of the commissioner will be legal because causes bringing this about were beyond their control.

One of these causes of deferment was not being able to get information regarding the state requirements with reference to the county estimates.

Mr. Kizer's statement, completed as of July 1, 1931, shows the following: Assessed value, for 1930, \$9,291,955.00; bonded debt, \$1,650,000; floating debt, \$175,000; 1930 tax levy, \$190,839.63; 1930 tax rate, \$1.84; uncollected taxes, 1928, \$21,238.65; uncollected taxes, 1929, \$33,562.20; uncollected taxes, 1930, \$33,339.64; average uncollected taxes for three years, \$63,380.16; 1928 taxes collected from 7-1-30 to 6-30-31, \$5,594.89; 1929 taxes collected from 7-1-30 to 6-30-31, \$4,634.56; miscellaneous revenue collected, 1929, \$35,520.81; 1928 tax year ended 6-30-31, \$63,853.30; cash on hand, \$1,000.00; total, \$1,000.00; State Trust company, \$6,572.12.

Several Persons Hurt at Rosman In Auto Crashes

ROSAN, Oct. 14.—Anderson Walker and John Hensley of Old Fort, and Charles B. Gorpington of Nebo, were hurt in an automobile accident a short distance west of Rosman Saturday night, when the coupe in which they had come down the mountain went over a bank just below the last sharp turn, and was completely wrecked as the result of a 50 or 60 foot crash over the embankment. The men all work for the highway commission. They were coming in for the week-end and when a steering rod broke, they lost control of the car. They were hurried to Brevard and given treatment by Dr. E. S. English. Mr. Walker, the elder member of the group, is quite badly hurt and Mr. Hensley suffered the least injuries of the three.

A second accident occurred on the Pickens highway near the home of Caldwell Galloway, Sunday night, when two cars collided. The cars were each badly smashed up but the occupants received only minor cuts and bruises. One car was driven by Ralph Gravelly and family of the East Fork section, while the other car was driven by Moody from South Carolina. Freeman Hayes cleared up each of the wrecks.

BREVARD MEN IS BACK FROM CONFERENCE

Public Must Be on Guard Against Collapse in Communities

W. E. Breese, who attended the governor's relief conference in Raleigh on Tuesday was back in the city yesterday from the event at the capital, and although he had only an informal statement to make with reference to the gathering, and its results, he was deeply impressed with the facts as they were laid before the conference by Governor O. Max Gardner, and indicated that he would have a formal statement to make next week.

Incidentally, what Mr. Breese is hoping for when he lays the governor's plan before the people of Transylvania county, is that genuine workers will be had for the executive posts that must be created under the plan to help relieve or offset any suffering this fall and winter.

Governor Gardner, said Mr. Breese, outlining conditions in the state to the men gathered at Raleigh, revealed that the loss in cotton and tobacco values this year would have paid taxes for the next four years of people growing the commodities. Men will steal before they will starve or let their families suffer, and they can't be blamed for that, he said. It is in view of that that he would like to see where there are 200,000 idle in the state that the governor has felt constrained to act for state-wide relief at this time. Conditions in the east would have been better, but for the fact that there has been a tremendous laying off of tenant farmers. The condition prevails, however, that the tenant farmers have not been forced from their homes but simply will have no income. Farms are mortgaged, and the owners are heavily in debt, and season. This, Mr. Breese said, the governor explained, is going to create a situation more drastic in the next five months than has been suffered in the past five months.

Governor Gardner's idea, said Mr. Breese, is that the people must be put on the guard against allowing a community collapse. For instance, it would be socially disintegrating for Henderson county to suffer Transylvania county to experience a breakdown, just as it would be serious for Transylvania county to allow, if it could avoid it, a breakdown in Jackson county.

Distribution is now the great word of the day. There is lots to eat in Transylvania county, Mr. Breese explained, and no one will starve, but the tax rate is lower and that is another factor that will make for the improvement of the situation as it would otherwise be.

Mr. Breese said that he will have a formal statement next week as regarding the local operation of the plans which have been proposed by Governor Gardner. He said he was now prepared to issue without conference with the local officials as to its application in this county.
