AMOS M'CALL FARM IS SOLD

Mr. and Mrs. W. Galloway New Owners

ROSMAN, Oct. 21.—Mr. and Mrs. Warren Galloway, residents of Jennetts, Tenn., for the past several years, have purchased the Amos McCall farm of 131 acres in the Gloucester section.

SOPHOMORE AG CLASS DOES FIELD WORK

The sophomore agricultural class of the Brevard high school having been engaged this year in the study and execution of grading of sweet potatoes in class room was given practice work Tuesday after dinner when, in company with their instructor, J. C. Glazener, they went to the farm of J. Wade Dickson at Seale, where they had some practical grading experience.

N. Carolina Is Open Field In National Race

ROOSEVELT, BAKER, ET AL MAY ATTEND

CANTON PEACE BODY ARRIVES AT SHANGHAI

Developments today in the Chinese-Japanese dispute in Manchuria were: China submitted important secret communications to League of Nations council covering the entire Manchurian situation.

A peace delegation from Canton arrived at Shanghai for negotiations with the Nanking government which may end the Civil war threat and form a united front in the Manchurian crisis.

GENEVA, October 21.—The program of the League of Nations council for peaceful settlement of the Manchurian crisis by Friday encountered difficulties again last night despite the declaration of Japan that her troops would be withdrawn when China guarantees the security of Japanese life and property in the war-threatened territory.

Replying to the request of Aristide Briand and Lord Reading for Japan to withdraw her troops, the Japanese representative, Kenkichi Yoshizawa, explained the terms of Japan's demand for security as involving:

- (1) Measures to ensure excited public opinion in both countries. (2) Chinese pledges to cease molesting Japanese troops. (3) Chinese respect for treaty rights of Japan.

Meanwhile, there were disquieting reports from the Far East indicating the almost complete occupation of Manchuria and the sharp contrast to the optimistic feeling induced by Briand's recent direct negotiations with Hoshizawa and Dr. Alfred Sorel.

STREET LIGHTS ON ROSMAN, Oct. 21.—One section of Main street has been in darkness since Sunday, due to a transformer burning out.

Tar Heel Youths Take Fifth Place in National Cattle Judging Contest

Wallace Gillespie, Rosman high school agricultural student, who won a place from North Carolina in the students' judging contest at the National Dairy show held last week at St. Louis, Mo., and his instructor, Prof. J. E. Corbin, who accompanied him to the scene of the national show, returned home last Thursday. When seen by the Tar Heel press, they were both enthusiastic over the trip and reported a great time had been enjoyed by them. In the national judging contest, Wallace and two other boys from North Carolina, Wilbur Birch of Bath, and Carl Barber of Inman, placed fifth in the judging of Guernsey cows. As such, they were presented at the closing banquet of the three day program, when other successful contestants were also called to be viewed by the banqueters at the national event.

TYPHOID WELL IN HAND OVER TRANSYLVANIA

Clinics Continued as Provision Made for Pure Water

While successful anti-typhoid vaccination clinics are being held in the county, further steps have been perfected for provision of a pure water supply in the schools.

Dr. Newland is doing the vaccination personally, and the serum is being furnished free by the state.

The clinics will be held at the same place and hours this week as last week. That at Pisgah Forest will be Thursday at 2 p. m., and the one at Rosman, Friday at 10 a. m.

J. B. Jones, county school superintendent stated yesterday that the water supply at Rosman has been protected by work done by the county health department. In future it will be impossible for any surface water to seep thru and contaminate the water source.

Simple Services Held at 2:30 P. M. Wednesday Are Private

WEST ORANGE, N. J., Oct. 21.—A nation will be plunged into darkness tonight as a final tribute to Thomas Alva Edison who will be buried today near the scenes of his achievements after the simplest of ceremonies.

The body of the inventor was carried early today from the library of his workshop, where it was viewed by thousands, back up the hill to the Llewellyn park home of the Edisons for the funeral.

At President Hoover's suggestion, lights will be turned out 60 seconds at 10 p. m., E.S.T., when the entire country is depending on the filament bulb developed by Edison.

Closing down of the thousands of dynamos supplying electrical power—another product of Edison's genius—was regarded as impractical because such action might cause death.

This demonstration of the dependence of the country upon electrical current for its life and health is in itself a monument to Mr. Edison's genius, the president said in his statement.

One-Half Ton of Pumpkins Grown On Single Vine

Fertility of Transylvania county soil and excellent growing conditions were pointed to in two experiences told by farm owners in the county this season.

W. L. Aiken reported that he had grown 25 pumpkins, averaging 40 pounds apiece or one thousand pounds of pumpkins on a single vine this season.

J. H. Raxter reported also that he had grown 85 good sized smooth tomatoes on a single vine during the season.

ROAD CLOSING HELPS SCHOOLS

Supt. Jones Wrestling With Transportation and Finances

J. B. Jones, superintendent of county schools was wrestling with the problems of finance and transportation this week. In the matter of finance, the school, few days ago, for student transportation this year, under the state allotment of funds, this is about one-fourth of the amount that was spent last year, which was, approximately, \$9,850.

Checks for bus drivers, janitors, and for bus repairs have been received, the last school days and distributed. Mr. Jones also stated, The checks did not cover the full amount that it had been expected to pay for these purposes at the time. Mr. Jones said in this connection that he hoped to issue additional checks at an early date from his office.

The closing of Caesar's Head approach from just south of the city limits to the state line is in line with the state highway commission project to surface-truck that road. It will be reopened to the public in about two weeks.

As a result, this group is co-operating for a survey for mapping and inventoring the farm stock, the production labor requirements, the study of growing crops and rotation plan used by Mr. Allison.

All of this work, Mr. Glazener points out, is made a special class project and is necessary practical procedure for the students carrying the same principles to their own farms.

A special course of instruction has been mapped out in this connection and it is declared one of the most advanced and difficult projects ever undertaken in this direction in the entire section.

Mr. Glazener says the boys are doing splendidly with the work.

On the Front in Sino-Jap Controversy

A war involving more than 500,000,000 persons threatens as the dispute between China and Japan draws to a crisis in Manchuria.

General Chang Hsueh-lang, upper left, is the Manchurian war lord having command of the Chinese forces in Manchuria. Lower right is General Hanzo Kanaya, chief of the Japanese imperial staff at Tokio, who will have a leading part in the direction of Japanese forces in the Japanese war.

PAGE W. C. WHITMIRE OF ROSMAN FOR JUDGE SINK

Jurist Fails to See Deer in County, But They're Here

"I saw a sparrow and heard a Yellow Hammer, but we had a fine time," said Judge H. Hoyle Sink of a hunt in Transylvania county last week-end. Judge Sink has been holding court in Henderson county, but came over to try his hand with bear and deer in Transylvania.

Walter C. Whitmire, merchant of Rosman, claims the title of champion hunter of Western Carolina. Week before last with a party of friends he went deer hunting and he was the fortunate one in the party to kill a big buck. So last week Mr. Whitmire decided to go on another deer hunt.

Among the sights to be witnessed in this section at this time is the large number of deer which are in Pisgah Forest.

Management of Farm Is Special Student Project

Junior and senior agricultural students of the Brevard high school, 26 in all, are doing special work in a course in farm management this fall. Their instructor, J. C. Glazener, points out that such instruction can not be confined to class work alone.

This will be followed by a farm inventory and inventorying the farm stock, the production labor requirements, the study of growing crops and rotation plan used by Mr. Allison.

All of this work, Mr. Glazener points out, is made a special class project and is necessary practical procedure for the students carrying the same principles to their own farms.

A special course of instruction has been mapped out in this connection and it is declared one of the most advanced and difficult projects ever undertaken in this direction in the entire section.

PISGAH FOREST VISITORS

Mr. Carl Morris and wife of Asheville are visiting with Mrs. Colburn, Mrs. Morris' mother, at Pisgah Forest, over the week-end.

FINAL TRIBUTE IS PAID EDISON

Simple Services Held at 2:30 P. M. Wednesday Are Private

WEST ORANGE, N. J., Oct. 21.—A nation will be plunged into darkness tonight as a final tribute to Thomas Alva Edison who will be buried today near the scenes of his achievements after the simplest of ceremonies.

The body of the inventor was carried early today from the library of his workshop, where it was viewed by thousands, back up the hill to the Llewellyn park home of the Edisons for the funeral.
