Beautiful Home Is Being Erected

Log House at Oakland To Be Show Place
Howard Alexander, of Oakland, will soon have one of the show places of this county. He is completing a log structure on highway 28 that will have no equal for uniqueness and attractiveness in this section.
Using peeled poplar logs of a uniform size throughout as his outside walls, and tying them together with cement, the wall will be utilized as framing, weather boarding, and ceiling. Adding much to the attractiveness of the structure, is the manner in which the windows have been placed in the home, and the size and all being out of line with adjoining windows.
Much time has been spent by Mr. Alexander in the structure, which will contain five rooms and a large hallway, he having done most of the work himself, from cutting and peeling the logs to the finishing of the cement, which will be completed this week. Over a year has elapsed since he began work on the home.
Rustic rock pillars and a rock chimney are part of the cement files of good magazines leave same at Plummer's store for use of the girls next summer during their 10-day encampment.

FREEMAN WILL GET VACATION

Popular Chief of Police Has Served People Well Six Years

The best-liked man in Brevard, Chief D. H. Freeman, is to have a vacation after six years of continuous duty during which time he has lost only four days, and that when he was in a hospital for treatment.
Coming here from Essey in 1926, where he had made an enviable record as police officer, "Chief," as he is known to practically all, was appointed Transylvania county, assumed control of the Brevard police force, and while enforcing the law in a manner that has met with the most exacting, advances of law and order, has also held the respect and friendship of those who have been arrested for violation of the law. He is regarded as a man who does his duty regardless of who or where—but does it in a gentlemanly way. Firm where firmness is required, feeling no concern for danger, Chief is not looked upon here as a police officer, but as an institution that is working at all times for the betterment of the community.
One week's vacation will be extended to Mr. Freeman during the month of May, another week to be given after the summer season, according to action taken at the board of aldermen meeting Monday night.

TWO MEN FREE FROM JAIL BREAK

Smith and Perry Use Slick Method to Escape Prison Here
Miles Perry and George Smith no longer inhabit the Sam Barnett hotel just behind the courthouse. These two well known fellows, who were in the crooked wire and a hack saw blade left the bed and board of Jailer Barnett Friday night for parts unknown. They were being held for a federal court on charges of violating the national prohibition laws.
After close investigation of all possible means of escape from the cage wherein the two prisoners were held, it was found that a piece of wire about fourteen inches in length was "made to order" with all the necessary crooks and turns to go through a small crevice in the lock on the outside of the cage, turn to the right a couple of inches, pick up the lock-pin inside the large steel box that houses the apparatus, and by means of a hook and a rest was easy.
After gaining access to the hall a hacksaw blade was evidently used to cut out the end of the front wall, making an opening about seven and one-half inches wide by two feet, which the two small statured men crawled and squeezed through, and there were two less prisoners for breakfast.
Eight other prisoners in the jail say they heard no noise during the night.

PIG RECORD BEING MADE BY GLAZENER

Pure Stock and Correct Feeding Are Essential to Profit

SUPPLEMENTARY FEED IS URGED IN PROJECT

Ten pigs, eight weeks old, at a feed cost of \$7.60, is the record of the Brevard section, according to Mrs. H. B. Glazener of the Connecsee section. Young Glazener is entering his second year in the pig business, having made a neat sum last year from the same project, when he realized a profit of \$18.85.
Eldger's sow is pure blood spotted and white, crossed with a Duroc sire, and she sows that "blood will tell" is clearly shown in the pigs. Correct feeding and housing have been a large factor in the success of the project, following closely instructions of his agriculture teacher, Prof. J. A. Glazener, of the Brevard high school. He is a full-fledged member of the Future Farmers of America, and takes active part in all activities of the organization.
Another project that young Mr. Glazener has in mind, he expects to sell his harvest by the pig route, thus getting more for his crop than could possibly be realized by straight marketing. But corn alone will not be used as feed for the litter that he expects to fatten for the early fall market. Half acre of clover will be used as pasture, and along with the feed raised on the farm he will use a supplementary feed. It is partial to Purina pig and hog ration, and he asserts emphatically that there is profit to be realized from feeding this chow, even though the average hog raiser is inclined to think that "starch bough" feeds are unnecessary and expensive.

YOUNG APPLE TREES BURNED

700 Trees Destroyed on Whitmore Farm at Cherryfield
Seven hundred young apple trees were killed by fire on the farm of P. J. Whitmore near Cherryfield last week, some of the trees being just ready to begin bearing fruit, while 200 had seen set this spring.
The fire young orchard on the main being the Whitmore home is also used as pasture, and to keep the cattle from damaging the trees, brush had been piled around them and their first getting into this dry tinder was past control in a short time and swept through over one-third of the magnificent orchard swiftly. Twelve hundred trees were saved. It is not definitely known here how the fire started.

Mrs. Jordan Whitmire, Rosman correspondent for the Transylvania Times, has been appointed as registrar of the county in Rosman, to serve the unexpired term of Grady Galloway, who has moved from the community. Her term of office will run to January 1, 1933.

THE SISTERS OF THE SKILLET

"The Sisters of the Skillet" ask that the chairmen named on each committee meet with them at the home of Mrs. L. F. Lyday Thursday evening of this week, some of 'o'clock to receive instructions from Mr. J. A. Glazener and Mrs. Bates Patton as to the duties of each committee and the chairmen named until re-appointed, and to their convenience and report at the next regular meeting of the club at the school house (the date of this meeting to be announced later) and to the results of their efforts to organize and instruct their committee.
Remember that the members of the executive committee and the chairmen of each committee are on hand at Mrs. L. F. Lyday on Thursday evening, May 12, look over the names of the chairmen and if you see some who have no way of getting there, go after and bring them in, as we would like to have all the chairmen out at this meeting. We are doing line so far and hope to keep the good work going.
Do not wear your tight shoes or your best frock or suit, as we might engage in a good game of tansh during the evening.
Line committee—E. H. Jones.
