

Animal Life To Be Shown Monday

Clemson Shows Jungle Scenes Made in Malaya

One of the outstanding pictures to be seen at the local theatre in many days will be that produced by the Clemson theatre for next Monday and Tuesday when "Bring 'Em Back to Africa" will be shown. This remarkable picture was made in the Malayan jungle in every spot being taken. The animal haunts of wild animal life, Frank Buck, one of the outstanding animal collectors of the world, was created by the IKO studios to go into the wilds of the Malayan peninsula and guide the photographing of the picture.

Other pictures scheduled for the week include Buck Jones in a western thriller for Friday and Saturday of this week. "Thirteen Women with Heads" is shown Wednesday and Thursday of next week, portraying the drama of a woman who felt that she had been wronged by her fiance, who she made mad in the manner in which she obtained her revenge. Exceptionally fine pictures have been shown by the Clemson theatre this summer season just ending. Brevard's theatre coming in for much praise by visitors here.

If it is impossible for you to bring or send something, for every one of us is responsible to the limit of our ability. In chapter one of the Book of James, verse 27, we have the following interpretation of one of the outstanding proofs of genuine Christianity: "Pure religion, and undefiled, is to visit the fatherless and widows in their affliction."
