Farmers and farm women of the Little River section met at the school house Tuesday night, around 150 members of the Farm Women's organization and members of the Five-Ten Year group being present.

KIDNAPING OF NEGRO GIRL FIRST CASE OF KIND IN COMMUNITY

Preacher Skips Country and Takes His 12-year-Old Sister-in-Law

Transylvania county sprang into limelight, along the same line, though not equal to the famous Lindbergh case, last Tuesday when the 12 year old daughter of Gurley Orr, respected negro farmer of the Davidson River section, was reported kidnaped.

Sheriff Tom Wood spent the week hunting for the "Reverend" William Talbert, who is charged with the kidnaping. Failing to find trace of the fugitive further than Greenville, S. C. pictures of "the Rev." and the young girl were broadcast to all sections of the South, along with an offer of \$25.00 reward which the father is putting up.

Information given the sheriff was to the effect that Talbert, who married another of Gurley's daughters and has been making his home with the family for the past several years sent a note to the school where the young Orr girl was, by Leon Gash, thirteen year old colored lad of the community, asking the teacher to excuse Gertrude for the day. The note was signed, presumably by Gurley's wife and the teacher thought nothing wrong, telling the girl that her mother had asked her to come home at once. This was about eleven o'clock in the morning.

Failing to arrive at home for the noontime meal, Gurley and his wife became alarmed, and after a check-up notified the officers, who started a search for the girl. Trace of the party was found at Greenville, where nothing further could be learned of their whereabouts.

The officers are led to believe that the party is composed of three people, "the Rev. Talbert, the young negro girl, and Young Gash, who is a son of Widow Het Gash, also of the Davidson River community.

It seems that Talbert, Gash, Gertrude and her brother who is some older, had formed a quartet and had been singing together at churches and places of entertainment, and this is advanced as possible reason for kidnaping.

TOXAWAY FARMERS PLAN FARM CROPS

Apples, Potatoes and Cabbage Are Most Suited For Money Makers

Farmers of the Lake Toxaway section, numbering approximately fifty, met at the school house Monday night at which time a discussion of crops and orchards was held, with Professor John P. Corbin, teacher of Vocational Agriculture of Rosman high school leader.

It was consensus of opinion of those present, that potatoes, cabbage and apples were the crops most suited to that particular section of the county, taking into consideration the 3000 foot altitude, soil and other climatic conditions.

Study of potatoes will be taken up at a meeting to be held at the school house next Monday night, and all farmers and gardeners of the Lake Toxaway section are invited to attend.
