He sponsored the reunion of the Merrill family at Fletcher high school on August 20 when he made a report on his investigation.

Mr. Merrill will leave for New Orleans about the middle of September and will take up his duties in the university about the middle of October.

Football Ruling Changed To Allow Last Year Students To Make Team

While the local school committee for Brevard high school did not meet until Wednesday evening (after press time for The Times) it is presumed from a statement by Professor J. B. However, no boy who does not take four subjects this year will be eligible for play, and neither will be allowed to play on the team in 1934. Boys who have graduated, or who, for any reason are not attending

Football Ruling Changed To Allow Last Year Students To Make Team

school this year, will not be allowed on the field while practice is being carried on, is another new ruling that is now in effect, judging from the statement made by Professor Jones on Wednesday.

Games will not be played this year on school days, the new ruling will say, due to the fact that a large per cent of the students are in the habit of cutting classes on days that games are to be played away from home, and sometimes at home, which causes a hold-up in regular class work on the following Monday, professor Jones said.

DUNCAN RAISES FINE APPLES ON HIS FARM

M. G. Duncan, of Rosman, who carried off the laurels last year with his big apples, is running a close second this year, his prize Wolf River apples this season measuring thirteen and one-half inches by fourteen and one-half and weighing seventeen ounces.

Mr. Duncan raises some nice apples at his home, and invariably brings some of the choicest to The Times office where they go the way of all good apples should go.

TOWN TAX RATE SET AT \$1.70 BY BOARD

Reduction in Valuation Is Big Factor in Causing In- crease for 1933

Tax rate for the town of Brevard was set by the board in their meeting Wednesday night of last week at \$1.70 on the hundred dollar valuation, with 50 cents of the amount for general expense and \$1.20 for debt service.

It was pointed out by the board members who were in favor of the increased levy for 1933, that cutting real property valuation in half had materially lessened the amount of assessed valuation, and further that past due bonds and maturities had also increased during the past year, this rate being the minimum that could be levied for.

Rate for 1932 was \$1.27 on the hundred dollar valuation, with 29 cents as general fund and 98 cents for debt service. While this rate is higher on the hundred dollar valuation it is pointed out that the taxpayer owning real property will in reality pay a less amount for 1933 than in 1932 by reason of the decreased valuation.

A person owning real estate in 1932 on the tax books for \$1000, paid \$12.70 in taxes—under the reduction in value of fifty per cent and the increased rate the same taxpayer will pay only \$8.50, inasmuch as his real property will be on the books for 1933 at \$500 instead of \$1000. Personal property owners will, however, pay an increased sum.

NRA DRIVE MEETING WITH FINE SUCCESS

People Pledging To Buy Under the Blue Eagle in Transylvania

With over 1500 family heads in Transylvania county already pledged to buy under the NRA blue eagle, the drive for complete backing of the plan continues throughout the county, reports indicating that nearly 100 per cent cooperation has been given in Brevard and several communities in the county.

Over four hundred Brevard consumers signed pledges the first day of the drive last week, with others signing at the post office and at other business places where cards are to be had.

Workers are busy in different communities of the county, and with few exceptions, report that people are in hearty accord with the movement. It is believed that a larger per centage of Transylvania county people have signed already than in surrounding counties.

SUBSCRIBERS SEND IN MANY RENEWALS

A total of 29 subscribers have renewed their subscriptions during the past week, getting in on the present rate of \$1 in the county and \$1.50 for outside.

As soon as the newspaper code is worked out, which may be this week, the price for yearly subscriptions will be raised, perhaps fifty cents on the year, perhaps more, but most assuredly not less than fifty cents on the year. All who wish to renew at the present low price are urged to do so at once.

The Times is already operating the NRA, that is wages and hours in compliance with the code have been adopted in the office, thus necessarily increasing cost of production of the paper. However, price per year has not been moved up as yet.

The following were thoughtful enough to send in their renewals during the past week:

Wm. Bishop, Pisgah Forest; H. E. Guyer, Rosman; G. M. Israel, Rosman; J. L. Whitmire, R-2; Miss Bertie Ballard, Arden; I. S. Fisher, Lake Toxaway; J. E. Ruffy, Brevard; E. E. Jones, Cedar Mountain; Mrs. Laura Wilson, R-2; Miss Beatrice Sisk, Rosman; W. M. Henry, Brevard; Dorse Allison, Cedar Mtn.; Mrs. J. T. McGehee, Brevard; W. E. Britt, Asheville; Miss Carlotta Rogers, Blenheim, S. C.; P. L. Gallimore, Brevard R-3; J. B. Jones, Brevard; J. R. Brown, R-2; J. A. Owen, Lake Toxaway; Perry Orr, Pisgah Forest; Mrs. Charles Garren Dacaville, S. C.

MANY REGISTERING AT BREVARD OFFICE

All Unemployed People Of the County Requested To Sign Up Now

A total of 141 unemployed persons have registered at the local office of the National Re-employment office to date, according to Dewey Gravely, manager. Most of the registered unemployed are from Brevard, but others have been registered from various points in Transylvania county. Only six women have been registered, indicating that the men in the county who need re-employment greatly outnumber the women.

Nine persons have found re-employment through the work of the Brevard office, according to the manager, and a number of others are expected to find work within the next few weeks.

The local office, which is located over Ward's News Stand on Main Street, is open from 9 a. m. to 3 p. m. on week days and from 9 to 12 on Saturdays.

Members of the advisory council who will have supervision of the work include Jerry Jerome T. E. Patton, W. E. Breesse, Alex. H. Kizer, Mrs. Nan Norton, Miss Julia Deaver, W. A. Wilson.

This new move, which is nationwide in scope, is expected to stimulate employment and the return of prosperity; results of their first efforts seem to indicate that the move will be successful in its purpose.

LARGE APPLE GROWN BY LITTLE RIVER MAN

Prize for the largest apple seen in Transylvania county this year should go to John Fisher of Little River.

Mr. Fisher sent an apple to The Times office Friday that tipped the scales at 20 and three-quarter ounces and measured fifteen by fourteen and three-quarter inches. Variety of the apple was not known, but suggestion is made that in case no name is found to fit the fruit that it be called "Big Giant."

PRISON CAMP TO BE BUILT AT CALVERT

Construction Expected To Get Under Way Within Next Ten Days

Fifty acres of land have been procured by the State from Tom Y. Galloway of Calvert on which to erect the prison camp for this county, with work expected to be started within the next ten days.

The camp will be constructed on the east side of the railroad, and will be adequate to house around 75 men, according to plans now being worked out. It is expected that only white prisoners will be located at the Calvert camp, these men to be used by the state highway forces in maintenance and construction work on county roads.

It is not known who will be in charge of the prison camp, several men being prominently mentioned for the place. Other places to be filled by local employees will be steward, and from seven to ten guards.

It is planned to grow a large garden on the prison property, the foodstuffs to be used in feeding the prisoners.

SAVING ALLOWED IF TAXES PAID EARLY

Two cents saving on the dollar will be allowed by the board of county commissioners on all 1933 taxes paid before October 1, according to action taken at the meeting of the board Monday. After November first, and until Dec. 1 a discount of one per cent will be allowed.

The following was entered on the minutes in regard to the discounts to be allowed:

"RESOLVED that on all taxes paid on or before Oct. 1, 1933, a discount of 2 per cent be allowed; on all taxes paid on or before Nov. 1, 1933 a discount of 1 per cent will be allowed; on all taxes paid on or before Jan. 1, 1934, a discount of 1/2 of 1 per cent will be allowed. WOMEN'S CLUB HAS DONE MUCH WORK

Has Been Active in Commu- nity Affairs During the Summer Months

Committee reports given at the meeting of the Women's Civic club held Monday afternoon showed major projects sponsored by this club this summer to have been successful and profitable events.

Report given by Mrs. Coleman Galloway, chairman of the quilt show showed this event was popular with the tourists and home people at the same time adding somewhat to the club's treasury through the silver offering taken.

Another project of the club sponsored by the civic club was Hospital Day, the report given by Miss Florence Kern showing that quantities of towels and other needed articles at the local hospital were donated on that day, and that the results of tag day observed at that time netted \$23.40 for benefit of the hospital.

The most outstanding feature of the year sponsored by this club is the annual flower show, which report presented by the chairman, Mrs. John Maxwell, revealed that something over \$45 was the amount received through the silver offering taken at the event, and that the show was in all respects a decided success and generally pronounced surpassing other previous flower shows sponsored by the civic club.

Miss Katherine Griffin's report of the Woman's Exchange, another major summer project of the club, gave evidence of the success of this enterprise, both to the community and as an important service to the tourists. The exchange has proved self-supporting, and at the same time is a valuable community service, the report showed.

Following the flower show report, the program of the afternoon consisted of a discussion of the points considered by the flower show judge, given by Miss Alma Trowbridge, who has accompanied the judge the past four years while he was judging the exhibits. Among the various points brought out in the discussion as considered by the judge included: artistic arrangement, proper length of stems, container harmonizing in color with flowers, freshness or quality of flowers, variety—whether the flower is rare or less difficult to raise, and unnecessary decorations on basket or container. The following schedule of points for judging dahlias was also pointed out: Quality 30 points, size 30, color 25, stem 15. Following the main discussion a round table discussion by other members present gave valuable information to be applied in future flower shows.
